Cyber AB Certified CMMC Professional (CCP) Exam Sample Questions (Q192-Q197):

NEW QUESTION # 192

A CMMC Level 1 Self-Assessment identified an asset in the OSC's facility that does not process, store, or transmit FCI. Which type of asset is this considered?

- A. Out-of-Scope Assets
- B. Specialized Assets
- C. FCI Assets
- D. Government-Issued Assets

Answer: A

NEW QUESTION # 193

A C3PAO has completed a Limited Practice Deficiency Correction Evaluation following an assessment of an OSC. The Lead Assessor has recommended moving deficiencies to a POA&M. but the OSC will remain on an Interim Certification. What is the MINIMUM number of practices that must be scored as MET to initiate this course of action?

- A. 100 practices
- B. 110 practices
- C. 88 practices
- D. 80 practices

Answer: C

NEW QUESTION # 194

What is a PRIMARY activity that is performed while conducting an assessment?

- A. Develop assessment plan.
- **B. Collect and examine evidence.**
- C. Deliver recommended assessment results.
- D. Verify readiness to conduct assessment.

Answer: B

Explanation:

Step 1: Understand the Assessment Phases (CAP v1.0)

The CMMC Assessment Process (CAP) outlines a structured lifecycle for assessments, including:

Plan and Prepare Phase- Develop the assessment plan (before the assessment starts).

Conduct Assessment Phase- Execute the actual assessment activities.

Report Results Phase- Finalize and deliver the assessment outcomes.

CAP v1.0 - Section 3.5 (Conduct Assessment):

"The assessment team collects, examines, and evaluates evidence to determine if practices are MET or NOT MET."

#Step 2: Why "Collect and Examine Evidence" Is the Primary Activity

During the "Conduct Assessment" phase, the main activity is to:

Collect evidence (documentation, interviews, testing),

Validate adequacy and sufficiency,

Score practices as MET/NOT MET.

This is the core responsibility of assessors while conducting an assessment.

#Why the Other Options Are Incorrect

A). Develop assessment plan

#This occurs in the Plan and Prepare phase before conducting the assessment.

C). Verify readiness to conduct assessment

#Readiness verification is part of pre-assessment activities, not during the assessment itself.

D). Deliver recommended assessment results

#This is done during the Report Results phase after the assessment has been conducted.

The primary activity performed during the actual execution of a CMMC assessment is collecting and examining evidence to determine compliance with practices.

NEW QUESTION # 195

Who makes the final determination of the assessment method used for each practice?

- A. CCP
- **B. Lead Assessor**
- C. osc
- D. Site Manager

Answer: B

Explanation:

Who Determines the Assessment Method for Each Practice?

In a CMMC Level 2 Assessment, the Lead Assessor has the final authority in determining the assessment method used to evaluate each practice.

Key Responsibilities of the Lead Assessor

#Ensures the CMMC Assessment Process (CAP) Guide is followed.

#Determines whether a practice is evaluated using interviews, demonstrations, or document reviews.

#Directs the Certified CMMC Professionals (CCPs) and other assessors on the methodology for gathering evidence.

#Works under a Certified Third-Party Assessment Organization (C3PAO) to ensure proper assessment execution.

Why "Lead Assessor" is Correct?

CCP (Option A) assists in the assessment but does not make final decisions on methods.

OSC (Option B) is the Organization Seeking Certification, and they do not control assessment methodology.

Site Manager (Option C) may coordinate logistics but has no authority over assessment decisions.

Breakdown of Answer Choices

Option

Description

Correct?

A). CCP

#Incorrect-A CCP assists but does not determine assessment methods.

B). OSC

#Incorrect-The OSC is being assessed and does not decide assessment methods.

C). Site Manager

#Incorrect-The Site Manager handles logistics but does not control assessment methods.

D). Lead Assessor

#Correct - The Lead Assessor has the final say on the assessment method used.

Official References from CMMC 2.0 Documentation

CMMC Assessment Process Guide (CAP)- Defines the Lead Assessor's role in determining assessment methods.

Final Verification and Conclusion

The correct answer is D. Lead Assessor, as they have final decision-making authority over the assessment methodology.

NEW QUESTION # 196

Validation of findings is an iterative process usually performed during the Daily Checkpoints throughout the entire assessment process. As a validation activity, why are the preliminary findings important?

- A. It corroborates the Assessment Team's understanding of the CMMC practices and controls.
- **B. It allows the OSC to comment and provide additional evidence.**
- C. It determines whether the OSC will be rated MET or NOT MET on their assessment.
- D. It confirms that the Assessment Team's findings are right and cannot be changed.

Answer: B

Explanation:

1. Understanding the Validation of Findings in CMMC Assessments

Validation of findings is an essential part of the CMMC assessment process, ensuring that observations and preliminary conclusions drawn by the assessment team are accurate, fair, and based on complete evidence.

This process occurs iteratively during the Daily Checkpoints and is fundamental in determining the overall compliance status of the Organization Seeking Certification (OSC).

2. The Role of Preliminary Findings in the Assessment Process

Preliminary findings are not final but rather a mechanism for ensuring transparency, accuracy, and fairness.

These findings serve several key purposes:

Allows for OSC Input & Clarification: The OSC has an opportunity to review and provide additional evidence that may address deficiencies identified by the assessment team.

Prevents Misinterpretations: By allowing the OSC to comment, the assessment team can refine or correct their understanding of the OSC's implementation of CMMC practices.

Supports Fair and Informed Ratings: Before finalizing MET or NOT MET determinations, the assessment team ensures they have considered all relevant evidence.

Encourages a Collaborative Assessment Process: This validation activity fosters open communication between assessors and the OSC, reducing disputes and misunderstandings.

3. Why Answer Choice "A" is Correct

The primary purpose of preliminary findings is to allow the OSC to comment and provide additional evidence before final determinations are made.

This aligns with CMMC Assessment Process guidance, which emphasizes iterative validation of findings through Daily Checkpoints and Final Outbrief discussions.

The validation of findings ensures that OSC responses and supplementary evidence are considered, making the assessment process more accurate and fair.

4. Why Other Answer Choices Are Incorrect

Option

Reason for Elimination

B). It determines whether the OSC will be rated MET or NOT MET on their assessment.

Incorrect: Preliminary findings do not directly determine the final rating. The assessment team reviews all collected evidence before making a final decision.

C). It confirms that the Assessment Team's findings are right and cannot be changed.

Incorrect: Findings are not final at the preliminary stage. The OSC has the opportunity to challenge findings by providing new or clarifying evidence.

D). It corroborates the Assessment Team's understanding of the CMMC practices and controls.

Partially Correct but Not the Best Answer: While validation helps refine understanding, its primary function is to allow OSC input,

making option A the most accurate choice.

5. Official CMMC References Supporting This Answer

CMMC Assessment Process (CAP) Document:

Section 5.3 - Validation of Findings: "The OSC is given the opportunity to provide additional evidence and comments to clarify or supplement preliminary assessment results." Section 5.4 - Daily Checkpoints: "The assessment team discusses preliminary findings with the OSC, allowing the organization to address concerns in real time." CMMC 2.0 Level 2 Scoping & Assessment Guide:

Confirms that the assessment process includes continuous dialogue with the OSC before final determinations are made.

6. Conclusion

Preliminary findings are a crucial validation step in CMMC assessments, ensuring that organizations have the opportunity to provide additional evidence and clarify potential misunderstandings. This iterative process improves accuracy and fairness in determining compliance with CMMC requirements. Therefore, the correct answer is:

A). It allows the OSC to comment and provide additional evidence.
