

High-quality 1Z0-1072-25 Top Exam Dumps— Authoritative New Braindumps Ebook Providers for 1Z0- 1072-25: Oracle Cloud Infrastructure 2025 Architect Associate

DOWNLOAD the newest ExamDumpsVCE 1Z0-1072-25 PDF dumps from Cloud Storage for free:
https://drive.google.com/open?id=1bNkXrrKImB2g_gmEKqLL8_1iePiByrW

Our company boasts top-ranking expert team, professional personnel and specialized online customer service personnel. Our experts refer to the popular trend among the industry and the real exam papers and they research and produce the detailed information about the 1Z0-1072-25 exam dump. They constantly use their industry experiences to provide the precise logic verification. The 1Z0-1072-25 prep material is compiled with the highest standard of technology accuracy and developed by the certified experts and the published authors only. The test bank is finished by the senior lecturers and products experts. The 1Z0-1072-25 Exam Dump includes the latest 1Z0-1072-25 PDF test questions and practice test software which can help you to pass the test smoothly. The test questions cover the practical questions in the test Oracle certification and these possible questions help you explore varied types of questions which may appear in the test and the approaches you should adapt to answer the questions.

We provide candidates with comprehensive Oracle 1Z0-1072-25 exam questions with up to three months of free updates. If you are doubtful, feel free to download a free demo of ExamDumpsVCE Oracle Cloud Infrastructure 2025 Architect Associate (1Z0-1072-25) PDF dumps, desktop practice exam software, and web-based Oracle Cloud Infrastructure 2025 Architect Associate (1Z0-1072-25) practice exam. Don't wait. Purchase Oracle Cloud Infrastructure 2025 Architect Associate (1Z0-1072-25) exam dumps at an affordable price and start preparing for the updated Oracle 1Z0-1072-25 certification exam today.

New 1Z0-1072-25 Braindumps Ebook | Free 1Z0-1072-25 Practice Exams

Our experts update the 1Z0-1072-25 training materials every day and provide the latest update timely to you. If you have the doubts or the questions about our product and the purchase procedures you can contact our online customer service personnel at any time. We provide the discounts to the old client and you can have a free download and tryout of our 1Z0-1072-25 Test Question before your purchase. So there are many merits of our product. You can know the characteristics and the functions of our 1Z0-1072-25 practice test by free demo before you purchase our 1Z0-1072-25 exam questions.

Oracle Cloud Infrastructure 2025 Architect Associate Sample Questions (Q47-Q52):

NEW QUESTION # 47

How can OCI IAM be configured to facilitate cross-region access?

- A. Identity domain replication must be enabled.
- B. The identity domain automatically replicates to the other region.

- C. Users can access resources in all regions by default.
- **D. The administrator can grant users permissions to access specific resources in the other region.**

Answer: D

Explanation:

In Oracle Cloud Infrastructure (OCI), cross-region access is facilitated by configuring IAM policies that grant users or groups permissions to access resources in other regions. IAM policies in OCI are global, meaning they apply across all regions by default. However, an administrator can specifically configure these policies to allow or restrict access to resources in different regions.

Example: An administrator can write a policy that allows a user to manage compute instances in a specific region by including the region's name in the policy statement.

Reference:

Oracle Cloud Infrastructure Documentation: IAM Policies

NEW QUESTION # 48

Which of the following is a valid RFC 1918 CIDR prefix that can be used for creating an Oracle Cloud Infrastructure (OCI) Virtual Cloud Network (VCN)?

- **A. 192.168.0.0/16**
- B. 0.0.0.0/0
- C. 192.268.0.0/24
- **D. 10.0.0.0/8**

Answer: A,D

Explanation:

RFC 1918 defines IP address ranges that are reserved for private networks, which cannot be routed on the public internet. In Oracle Cloud Infrastructure (OCI), these private IP address ranges can be used to create Virtual Cloud Networks (VCNs). The valid RFC 1918 CIDR prefixes include:

192.168.0.0/16: A private IP range often used in home networks.

10.0.0.0/8: A large private IP range commonly used in enterprise networks.

Invalid Options:

B . 0.0.0.0/0: This CIDR represents all IP addresses and is not a valid private IP range.

C . 192.268.0.0/24: This is not a valid IP address range as the octet "268" is outside the allowable range of 0-255.

Reference:

Oracle Cloud Infrastructure Documentation: VCN Overview

RFC 1918: Address Allocation for Private Internets

NEW QUESTION # 49

Which statement accurately describes the key features and benefits of OCI Confidential Computing?

- A. It provides automatic scalability and load balancing capabilities.
- **B. It encrypts and isolates in-use data and the applications processing that data.**
- C. It optimizes network performance through advanced routing algorithms.
- D. It enables users to securely store and retrieve data by using distributed file systems.

Answer: B

Explanation:

OCI Confidential Computing is a security feature designed to protect data in use. This is particularly important for sensitive workloads where data must be secured not only when at rest or in transit but also while being processed.

Encrypts and Isolates In-Use Data: OCI Confidential Computing ensures that data and the applications processing it are isolated from the underlying infrastructure. This means that even if the infrastructure is compromised, the in-use data remains secure. The technology typically leverages secure enclaves or other hardware-based isolation mechanisms to achieve this.

Other Options:

Optimizing Network Performance (A), Automatic Scalability and Load Balancing (B), and Secure Data Storage (D) are important features, but they are not related to the core capabilities of Confidential Computing, which focuses on in-use data protection.

Relevant OCI Documentation:

OCI Confidential Computing Overview

This documentation provides a detailed explanation of how OCI Confidential Computing works and its benefits for securing sensitive data during processing.

NEW QUESTION # 50

What are the two types of capture filters that can be created for network monitoring?

- A. VTAP capture filters and network capture filters
- B. Flow control capture filters and traffic capture filters
- **C. Flow log capture filters and VTAP capture filters**
- D. Flow log capture filters and packet capture filters

Answer: C

Explanation:

In Oracle Cloud Infrastructure (OCI), there are two primary types of capture filters used for network monitoring:

Flow Log Capture Filters: These filters are used to capture and log network flow information (e.g., source and destination IP addresses, ports, protocols). Flow logs provide insights into the traffic patterns within your VCN.

VTAP Capture Filters: Virtual Test Access Point (VTAP) capture filters allow you to capture and inspect traffic from specific network interfaces or subnets without affecting the flow of traffic. This is particularly useful for deep packet inspection and monitoring purposes.

Oracle Cloud Infrastructure Documentation: Flow Logs

Oracle Cloud Infrastructure Documentation: VTAP

NEW QUESTION # 51

Which TWO statements about the Oracle Cloud Infrastructure (OCI) File Storage Service are accurate?

- **A. File systems use Oracle-managed keys by default.**
- B. Communication with file systems in a mount target is encrypted via HTTPS.
- C. Customers can encrypt the communication to a mount target via export options.
- **D. Customers can encrypt data in their file system using their own Vault encryption key.**

Answer: A,D

Explanation:

Oracle Cloud Infrastructure (OCI) File Storage Service offers robust encryption capabilities to ensure data security.

B . Customer-Managed Encryption: Customers can choose to encrypt their data using their own keys stored in the OCI Vault service. This gives customers control over their encryption keys and enhances data security.

D . Oracle-Managed Encryption: By default, all data stored in OCI File Storage is encrypted using Oracle-managed keys. This ensures that data is encrypted at rest without requiring any action from the customer.

Incorrect Statements:

A . Communication is not encrypted via HTTPS when accessing file systems; instead, encryption in transit is typically managed via NFS over TLS.

C . Encryption of communication to a mount target is handled via network configurations, not through export options.

Reference:

Oracle Cloud Infrastructure Documentation: File Storage Encryption

NEW QUESTION # 52

.....

1Z0-1072-25 certification can demonstrate your mastery of certain areas of knowledge, which is internationally recognized and accepted by the general public as a certification. 1Z0-1072-25 certification is so high that it is not easy to obtain it. It requires you to invest time and energy. If you are not sure whether you can strictly request yourself, our 1Z0-1072-25 test materials can help you. With high pass rate of our 1Z0-1072-25 exam questions as more than 98%, you will find that the 1Z0-1072-25 exam is easy to pass.

New 1Z0-1072-25 Braindumps Ebook: <https://www.examdumpsvce.com/1Z0-1072-25-valid-exam-dumps.html>

So our top experts have compiled all of the key points as well as the latest question types in our 1Z0-1072-25 test simulation questions, the concentration is the essence, we can assure you that it is enough for you to spend 20 to 30 hours to practice all of the questions in our 1Z0-1072-25 test dumps questions, Our braindumps for 1Z0-1072-25 real exam are written to highest standard of technical profession, tested by our senior IT experts and certified trainers.

Now you know something of what happened, New 1Z0-1072-25 Braindumps Ebook and where, But those time investments might be worthwhile, because Swift also delivers golden development nuggets that pay 1Z0-1072-25 for those unexpected costs and provide a solid investment in future development.

Authorized 1Z0-1072-25 Top Exam Dumps & Leader in Qualification Exams & Useful New 1Z0-1072-25 Braindumps Ebook

So our top experts have compiled all of the key points as well as the latest question types in our 1Z0-1072-25 test simulation questions, the concentration is the essence, we can assure you that it is enough for you to spend 20 to 30 hours to practice all of the questions in our 1Z0-1072-25 test dumps questions.

Our braindumps for 1Z0-1072-25 real exam are written to highest standard of technical profession, tested by our senior IT experts and certified trainers, Having all the information about the Oracle Cloud Infrastructure 2025 Architect Associate (1Z0-1072-25) Exam at your fingertips enhances your studying experience, making it easier and more effective, whether you're at home or on the go.

Our valid Oracle 1Z0-1072-25 dumps saves you the time of searching the latest 1Z0-1072-25 exam braindumps, In the process of your study, we have always been behind you and are your solid backing.
