

Three Easy-to-Use and Compatible Formats of DEP-2025 Exam Questions

BONUS!!! Download part of itPass4sure DEP-2025 dumps for free: <https://drive.google.com/open?id=1qxzzz1sNpG4yIsOidliZkT157pzrxkUa>

itPass4sure helps you reach your objective by offering Apple Deployment and Management Exam updated test questions. These Apple DEP-2025 Dumps questions are enough to get knowledge necessary to crack the examination on the first attempt. Our Apple Deployment and Management Exam practice material is designed by considering the content published by Apple. Relevancy of valid questions with the actual exam's syllabus helps you understand the pattern of the exam. itPass4sure offers its Apple Deployment and Management Exam product in three forms, DEP-2025 PDF, desktop practice exam software, and Apple Deployment and Management Exam web-based practice test.

Apple DEP-2025 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Device Security: This section of the exam measures the skills of an MDM Specialist and covers encryption on Apple platforms, FileVault operations, and the importance of key management. It focuses on protecting sensitive data on managed devices.
Topic 2	<ul style="list-style-type: none">• Device Enrollment: This section of the exam measures the skills of an MDM Specialist and covers the three main enrollment methods for Apple devices, their core concepts, and their properties. It prepares candidates to make appropriate choices based on organizational needs.
Topic 3	<ul style="list-style-type: none">• Identity Services: This section of the exam measures the skills of an MDM Specialist and covers supported identity services on Apple devices, including Platform SSO and Single Sign-On, helping users manage secure access and authentication.
Topic 4	<ul style="list-style-type: none">• Device Support: This section of the exam measures the skills of an IT Administrator and covers troubleshooting Mac startup, recovery, and password reset processes using macOS Recovery. It ensures support professionals can maintain and restore device functionality.
Topic 5	<ul style="list-style-type: none">• Plan a Deployment: This section of the exam measures the skills of an MDM Specialist and covers the purpose and function of Apple's built-in MDM framework. It evaluates the foundational understanding needed to support the deployment of Apple devices at scale using MDM protocols and tools.

Topic 6	<ul style="list-style-type: none"> • Software Updates: This section of the exam measures the skills of an MDM Specialist and covers update management strategies using MDM. It includes handling deadlines, updating behavior, and ensuring that updates are properly delivered and installed.
Topic 7	<ul style="list-style-type: none"> • Apple Configurator: This section of the exam measures the skills of an IT Administrator and covers the usage of Apple Configurator in enrollment, supervision, and deployment of Apple devices. It includes an overview of its features and setup processes.
Topic 8	<ul style="list-style-type: none"> • Network Integration: This section of the exam measures the skills of an IT Administrator and covers assessing network responsiveness and device connectivity. It also covers wireless auto-join behavior on Apple devices and ensures strong network coverage.
Topic 9	<ul style="list-style-type: none"> • Apple Business Manager and Apple School Manager: This section of the exam measures the skills of an MDM Specialist and covers managing connections to resellers and managing device suppliers. It emphasizes the use of Apple Business Manager or School Manager to streamline large-scale deployments.
Topic 10	<ul style="list-style-type: none"> • Device Configuration: This section of the exam measures the skills of an IT Administrator and covers declarative configuration properties and how they relate to the device enrollment type. It ensures that configurations align with organizational needs.

DEP-2025 Exam Overviews | DEP-2025 Latest Exam Review

In order to better meet users' need, our DEP-2025 study questions have set up a complete set of service system, so that users can enjoy our professional one-stop service. We not only in the pre-sale for users provide free demo, when buy the user can choose in we provide in the three versions, at the same time, our DEP-2025 Training Materials also provides 24-hour after-sales service. Such a perfect one-stop service of our DEP-2025 test guide, believe you will not regret your choice, and can better use your time, full study, efficient pass the DEP-2025 exam.

Apple Deployment and Management Exam Sample Questions (Q268-Q273):

NEW QUESTION # 268

Which type of network uses individual user credentials or device- and/or user-based certificates to control who or which devices can use the network?

- A. WPA2 Personal network
- **B. WPA2 Enterprise network**
- C. Provisioning network

Answer: B

Explanation:

WPA2 Enterprise networks utilize individual user credentials (e.g., username and password) or device- and/or user-based certificates for authentication, typically via protocols like EAP-TLS or PEAP, integrated with a RADIUS server. This provides granular control over network access, ideal for organizational settings. A provisioning network (option A) is a temporary network for device setup, not a security standard. WPA2 Personal (option B) uses a shared passphrase, lacking individual authentication. The Apple Platform Deployment Guide specifies WPA2 Enterprise for secure, user-specific network access in managed environments.

NEW QUESTION # 269

What's the benefit of using Find My?

- **A. Allows device tracking**
- B. Separates personal and managed data
- C. Improves network performance
- D. Enables additional restrictions

Answer: A

Explanation:

Find My allows device tracking, enabling users or administrators (via MDM) to locate, lock, or wipe a lost or stolen device using iCloud or GPS. It's a key security feature for personal and managed devices. Additional restrictions (option B) are a supervision feature. Network performance (option C) is unrelated, and data separation (option D) pertains to User Enrollment. The Apple Platform Security Guide emphasizes tracking as Find My's primary benefit.

NEW QUESTION # 270

Where is content cached when you simultaneously provision tethered iPad devices using Apple Configurator?

- A. On the MDM content caching server
- **B. On the Mac that the iPad devices are tethered to**
- C. On the MDM server that the iPad devices are tethered to
- D. On the iCloud server

Answer: B

Explanation:

Content is cached on the tethered Mac. The Apple Configurator User Guide states, "When provisioning tethered iPad devices using Apple Configurator, content is cached on the Mac they are connected to, speeding up the process." References:

Apple Configurator User Guide, "Provisioning Devices" section.

Apple Platform Deployment Guide, "Apple Configurator" section.

NEW QUESTION # 271

Which Kerberos feature allows users to sign in once and access multiple authenticated services?

- **A. Ticket-granting ticket (TGT)**
- B. OAuth
- C. SAML
- D. Sign in with Apple at Work & School

Answer: A

Explanation:

In Kerberos, the Ticket-Granting Ticket (TGT) is the feature that enables single sign-on (SSO). After initial authentication, the user receives a TGT from the Key Distribution Center (KDC). The TGT is then used to obtain service tickets for accessing various resources without re-authenticating, providing a seamless SSO experience. Sign in with Apple at Work & School (option A) is an Apple-specific feature, not a Kerberos component. OAuth (option B) and SAML (option D) are separate SSO protocols, not Kerberos features.

The Apple Platform Security Guide explains the TGT's role in Kerberos SSO.

Reference: Apple Platform Security Guide (Section: Kerberos and SSO).

NEW QUESTION # 272

Your organization has new devices in Apple Business Manager. During deployment, the new Mac computers enroll in MDM, but the new iPhone devices don't enroll. What might be the cause?

- **A. The iPhone devices don't have an MDM server assignment**
- B. Someone in your organization must manually reset the iPhone devices before they can enroll in MDM
- C. The iPhone devices are waiting for approval in Apple Business Manager before they can enroll in MDM
- D. The iPhone devices are connected using only 5G

Answer: A

Explanation:

MDM server assignment is required for enrollment. The Apple Business Manager User Guide states, "For devices to automatically enroll in MDM via Apple Business Manager, they must be assigned to an MDM server. Without this assignment, enrollment will not occur during setup." Option C explains why iPhones fail to enroll while Macs succeed. Options A, B, and D are incorrect as new

devices don't need resets, approval is automatic for Apple purchases, and 5G doesn't block enrollment.

References:

Apple Business Manager User Guide, "Assign Devices to MDM" section.

Apple Platform Deployment Guide, "Automated Device Enrollment" section.

NEW QUESTION # 273

.....

Our DEP-2025 study dumps are suitable for you whichever level you are in right now. Whether you are in entry-level position or experienced exam candidates who have tried the exam before, this is the perfect chance to give a shot. High quality and high accuracy DEP-2025 real materials like ours can give you confidence and reliable backup to get the certificate smoothly because our experts have extracted the most frequent-tested points for your reference, because they are proficient in this exam who are dedicated in this area over ten years. If you make up your mind of our DEP-2025 Exam Questions after browsing the free demos, we will staunchly support your review and give you a comfortable and efficient purchase experience this time.
