Desktop CMT Level 1 Exam (CMT-Level-I) practice test software is the first format available at SurePassExams. This format can be easily used on Windows PCs and laptops. The CMT Association CMT-Level-I practice exam software works without an internet connection, with the exception of license verification. One of the excellent features of this CMT Level 1 Exam (CMT-Level-I) desktop-based practice test software is that it includes multiple mock tests that have CMT Association CMT-Level-I practice questions identical to the actual exam, providing users with a chance to get CMT Level 1 Exam (CMT-Level-I) real exam experience before even attempting it.

CMT Association recommends that candidates acquire at least six months of experience in the financial industry before sitting for the CMT Level I exam. This is because it is essential to have practical experience in applying technical analysis techniques. Additionally, more experienced professionals seeking to advance their careers can benefit from the certification as it showcases their commitment to continuous learning and professional development.

CMT Association, formerly known as the Market Technicians Association (MTA), is a leading global organization for technical analysis education and certification. As part of its mission to promote the highest standards of technical analysis, the association offers the CMT-Level-I (CMT Level I) Certification Exam. CMT Level 1 Exam certification is designed to assess a candidate's knowledge and proficiency in basic concepts, tools, and techniques of technical analysis.

CMT Association CMT-Level-I (CMT Level I) Exam is a certification exam that is designed for individuals who are interested in pursuing a career in technical analysis. CMT-Level-I exam tests candidates on their knowledge of technical analysis concepts and tools, including charting techniques, trend analysis, and other technical indicators. The CMT-Level-I exam is the first level of the three-level certification program offered by the CMT Association.

A team of professionals has made the product of SurePassExams after much hard work with their complete potential so the candidates can prepare for CMT Association practice test in a short time.

CMT Association CMT Level 1 Exam Sample Questions (Q396-Q401):

NEW QUESTION # 396

To increase the sensitivity of a 5 x 3 point & figure chart, one could:

- A. None of the above would increase the sensitivity of a point and figure chart
- **B. Decrease the box size**
- C. Increase the box size
- D. Increase the number of boxes needed for a reversal

Answer: B

Explanation:

Detailed Explanation:

Sensitivity refers to how quickly the chart reacts to price changes. Decreasing the box size means smaller price moves will trigger a new box, capturing more detail and making the chart more sensitive to minor fluctuations (though potentially adding noise).

NEW QUESTION # 397

VHS Finance, a broking house for trading securities offers an interesting package to their existing clients. If the existing client bring new clients to VHS Finance, 10% of the brokerage generated will be paid to the existing client. Binny is an existing client of VHS, who is also a technical analyst. He encourages his own circle of customers to open accounts with VHS. His view is to get that extra 10% income. In the light of ethics, how is his action viewed?

- **A. It is possible that his action may influence unnecessary trades for his clients in order to generate extra brokerage**
- B. His extra income is illegal and hence in violation of the code
- C. His action puts self interest ahead of that of the customers
- D. There is no violation of ethics on his behalf as the clients would have traded anywhere else any way

Answer: A

Explanation:

Detailed Explanation:

The core ethical issue here is a conflict of interest. Binny's financial incentive (kickback from brokerage) might lead him to encourage excessive trading (churning) in his clients' accounts to maximize his own 10% cut, rather than acting in the clients' best interests.

NEW QUESTION # 398

Identify the chart formation below (Line chart showing three peaks at same level):

- A. Head and shoulders top
- **B. Triple top**
- C. Rising wedge
- D. Rounding top

Answer: B

Explanation:

Detailed Explanation:

The line chart shows three distinct peaks reaching approximately the same price resistance level. This is the definition of a Triple Top reversal pattern.

NEW QUESTION # 399

What is indicated when Bollinger Bands narrow?

- A. A stock is ready for a rally
- B. A stock's volatility has increased
- C. A stock is ready for a decline
- **D. A stock's volatility has decreased**

Answer: D

Explanation:

Detailed Explanation:

Bollinger Bands are based on standard deviation. When the bands narrow (contract), it indicates that the standard deviation of the price is shrinking, meaning the stock's volatility has decreased. This condition is often called "The Squeeze" and typically precedes a sharp increase in volatility and a significant price move (breakout).

NEW QUESTION # 400

The objective of the Dow Theory is to determine:

- A. Timing of market bottoms
- B. The likelihood of volume reversals
- C. Changes in market psychology
- **D. The primary direction of the stock market**

Answer: D

Explanation:

Detailed Explanation:

The ultimate goal of Charles Dow's theory was to identify the primary (major) direction or trend of the overall market (Bull or Bear market). It was intended as a barometer of business conditions, not a short-term trading system.

NEW QUESTION # 401

.....

To do this you just need to pass the CMT Association CMT-Level-I certification exam. Are you ready to accept this challenge?
