Latest 220-1101 Dumps Sheet, 220-1101 Intereactive Testing Engine

For certificates who will attend the exam, some practice is evitable. But sometimes, time for preparation is quite urgent. 220-1101 exam braindumps of us will help you to use the least time to pass the exam. If you choose the 220-1101 exam dumps of us, you just need to spend about 48 to 72 hours to practice and you can pass the exam successfully. In addition, 220-1101 Exam Dumps are verified by experienced experts, and the accuracy and correctness can be guaranteed. And we pass guarantee and money back guarantee if can't pass the exam.

CompTIA A+ Certification Exam: Core 1 Sample Questions (Q44-Q49):

NEW QUESTION # 44

Which of the following commonly uses NFC?

- A. Contactless payments
- B. IoT devices
- C. Inventory tracking
- D. Tethering

Answer: A

Explanation:

NFC (Near Field Communication) is a wireless communication technology that is commonly used for contactless payments, mobile payments, and other mobile transactions. It allows two devices to communicate with each other when they are placed in close proximity.

Contactless payments commonly use NFC (Near Field Communication). NFC is a wireless communication technology that allows two devices to communicate with each other when they are in close proximity.

Contactless payments use NFC to enable customers to make payments by simply tapping their contactless card or mobile device on a payment terminal.

NEW QUESTION # 45

An employee is on a business trip and needs to upload daily conferences and meetings to the company's intranet. The uploading process is successful but was faster in the past. Which of the following is the most likely reason for the slowdown?

- A. Data is being throttled.
- B. Wireless is turned off.
- C. 5G is disabled.
- D. Roaming is turned on.

Answer: A

Explanation:

Data throttling, often implemented by network providers to manage bandwidth usage, can slow data speeds after a certain usage limit is reached.

NEW QUESTION # 46

A customer's Windows tablet PC was dropped and is no longer responding to touch input on the left half of the screen. The screen protector has several scratches, but the glass is not broken. Which of the following should a technician do to diagnose the issue?

- A. Update the device drivers.
- B. Perform a factory reset.
- C. Replace the damaged screen protector
- D. Test the digitizer

Answer: D

Explanation:

Explanation

The digitizer is the component that converts the touch input into electrical signals that are processed by the tablet. If the digitizer is damaged or malfunctioning, it may not register the touch input correctly or at all. The technician can test the digitizer using a diagnostic tool or by replacing it with a known good one. Updating the device drivers, replacing the damaged screen protector, or performing a factory reset are unlikely to fix the issue, as they do not address the hardware problem.

NEW QUESTION # 47

Which of the following server roles does RADIUS perform?

- A. AAA
- B. Mail server
- C. Syslog
- D. DNS

Answer: A

Explanation:

AAA stands for Authentication, Authorization, and Accounting, and it is a framework that provides security services for network access control. Authentication verifies the identity of a user or device that requests access to a network resource. Authorization determines what level of access or privileges are granted to a user or device based on their identity or role. Accounting tracks and records the usage of network resources by users or devices for billing or auditing purposes.

RADIUS (Remote Authentication Dial-In User Service) is a protocol that implements AAA functions by communicating with a central server that stores user credentials and policies.

NEW QUESTION # 48

Which of the following cloud models exclusively utilizes a local data center?

- **A. Private**
- B. Public
- C. Community
- D. Hybrid

Answer: A

Explanation:

Comprehensive and Detailed In-Depth Explanation:

A Private Cloud is operated solely for a single organization. It is hosted on-premises or in a dedicated off-site data center, giving the company full control over data, security, and compliance - often hosted in the organization's own local data center.

* Option B (Public): Hosted by third-party providers and shared by multiple clients.

* Option C (Hybrid): Combines private and public cloud resources.

* Option D (Community): Shared by several organizations with similar goals.

CompTIA A+ Core 1 Exam Objective Reference:

* Objective 4.1: Compare and contrast cloud computing concepts.

NEW QUESTION # 49

.....
