To save resources of our customers, we offer Real 220-1102 Exam Questions that are enough to master for 220-1102 certification exam. Our CompTIA 220-1102 Exam Dumps are designed by experienced industry professionals and are regularly updated to reflect the latest changes in the CompTIA A+ Certification Exam: Core 2 exam content.

Our company is professional brand established for compiling 220-1102 exam materials for candidates, and we aim to help you to pass the examination as well as getting the related 220-1102 certification in a more efficient and easier way. Owing to the superior quality and reasonable price of our 220-1102 Exam Materials, our company has become a top-notch one in the international market. Our 220-1102 exam torrents are not only superior in price than other makers in the international field, but also are distinctly superior in many respects.

220-1102 Customized Lab Simulation & 220-1102 Preparation

Confronting a tie-up during your review of the exam? Feeling anxious and confused to choose the perfect 220-1102 latest dumps to pass it smoothly? We understand your situation of susceptibility about the exam, and our 220-1102 test guide can offer timely help on your issues right here right now. Without tawdry points of knowledge to remember, our experts systematize all knowledge for your reference. You can download our free demos and get to know synoptic outline before buying. Just hold the supposition that you may fail the exam even by the help of our 220-1102 Study Tool, we can give full refund back or switch other versions for you to relieve you of any kind of losses. What is more, we offer supplementary content like updates for one year after your purchase.

CompTIA A+ Certification Exam: Core 2 Sample Questions (Q487-Q492):

NEW QUESTION # 487

A user's smartphone data usage is well above average. The user suspects an installed application is transmitting data in the background. The user would like to be alerted when an application attempts to communicate with the internet. Which of the following BEST addresses the user's concern?

- A. Firewall
- B. Operating system updates
- C. Remote wipe
- D. Antivirus

Answer: A

Explanation:
Explanation

A firewall is a security system that monitors and controls incoming and outgoing network traffic based on predetermined security rules. In this scenario, the user is concerned about an installed application transmitting data in the background, so a firewall would be the best solution to address their concern. By installing and configuring a firewall, the user can block unauthorized connections to and from the device, and receive alerts whenever an application tries to access the internet.

NEW QUESTION # 488

During a routine check, a systems administrator discovers that a user's PC is running slowly and CPU utilization is at 100%. Further investigation shows a large amount of resource usage. Which of the following is the most likely cause of the high resource usage?

- A. DDoS attack
- B. Keylogger attack
- C. Botnet attack
- D. Firewall activities

Answer: C

Explanation:

When a system administrator discovers a user's PC running slowly with 100% CPU utilization, it often indicates that the system is being used for unauthorized purposes, such as being part of a botnet attack. Here's why:

Botnet attack: Botnets are networks of computers infected with malware and controlled by an attacker. These infected computers (bots) are often used to carry out tasks like sending spam or participating in Distributed Denial of Service (DDoS) attacks. The high CPU utilization and resource usage indicate that the computer might be performing tasks dictated by the botnet controller.

Firewall activities: While firewall activities can use some resources, they generally do not cause sustained high CPU utilization.

DDoS attack: DDoS attacks target external systems by overwhelming them with traffic. A system participating in a DDoS might have high network usage, but the primary symptom on the user's PC would be high network activity, not necessarily CPU usage.

Keylogger attack: Keyloggers record keystrokes and generally do not cause high CPU utilization. They are more stealthy and have minimal resource footprints.

NEW QUESTION # 489

A bank would like to enhance building security in order to prevent vehicles from driving into the building while also maintaining easy access for customers. Which of the following BEST addresses this need?

- A. Guards
- B. Motion sensors
- C. Access control vestibule
- D. Bollards

Answer: D

Explanation:

Explanation

Bollards are the best solution to enhance building security in order to prevent vehicles from driving into the building while also maintaining easy access for customers. References: 2. Bollards. Retrieved from <https://en.wikipedia.org/wiki/Bollard>

NEW QUESTION # 490

A user is being directed by the help desk to look up a Windows PC's network name so the help desk can use a remote administration tool to assist the user. Which of the following commands would allow the user to give the technician the correct information? (Select TWO).

- A. ipconfig /all
- B. nslookup localhost
- C. arp -a
- D. netstat /?
- E. hostname

- F. ping:: 1

Answer: C,E

Explanation:

The user can use the following commands to give the technician the correct information: ipconfig /all and hostname 1. The ipconfig /all command displays the IP address, subnet mask, and default gateway for all adapters on the computer 1. The hostname command displays the name of the computer 1.

NEW QUESTION # 491

An administrator needs to select a method to dispose of SSDs containing sensitive data. Which of the following are the most appropriate methods? (Select two).

- A. Recycle
- B. Format
- C. Delete
- **D. Incinerate**
- **E. Shred**
- F. Degauss

Answer: D,E

Explanation:

Disposing of SSDs (Solid State Drives) containing sensitive data requires methods that ensure the data cannot be recovered. SSDs store data on flash memory, which makes traditional data destruction methods like degaussing ineffective, as degaussing relies on demagnetizing the magnetic media found in traditional hard drives.

Incineration: This method ensures the complete destruction of the SSD by burning it at high temperatures. This process is effective as it physically destroys the flash memory chips, making data recovery impossible.

Shredding: Shredding involves physically breaking the SSD into small pieces. Specialized shredding machines designed for electronic media can cut the SSD into pieces small enough to render the data unrecoverable.

Other listed options such as Degaussing (A) is ineffective on SSDs because they don't use magnetic storage. Simple Deletion (B) and Formatting (C) are not secure methods for data destruction as the data can potentially be recovered using specialized software. Recycling (D) is environmentally friendly but does not guarantee data destruction if the drive is not physically destroyed first.

NEW QUESTION # 492

.....

Our 220-1102 study guide is convenient for the clients to learn and they save a lot of time and energy for the clients. After the clients pay successfully for the 220-1102 exam dump they can immediately receive our products in the form of mails in 5-10 minutes and then click on the links to use our software to learn. The clients only need 20-30 hours to learn and then they can attend the test. For those in-service office staff and the students who have to focus on their learning this is a good new because they have to commit themselves to the jobs and the learning and don't have enough time to prepare for the test. Learning the 220-1102 prep material takes you less than a week and you can learn them in the weekends or use your leisure time to learn them.

220-1102 Customized Lab Simulation: <https://www.testkingit.com/CompTIA/latest-220-1102-exam-dumps.html>

Each questions of the 220-1102 Customized Lab Simulation 220-1102 Customized Lab Simulation - CompTIA A+ Certification Exam: Core 2 training material is selected and verified by our hands-on experts, CompTIA 220-1102 Valid Test Practice You may subscribe for this facility separately, The more time you spend in the preparation for 220-1102 Practice Materials training materials, the higher possibility you will pass the exam, Some of them said our 220-1102 training material saved their confidence and expand their capacity and ascertain their unambiguous points of knowledge when reviewing the exam.

As with scene generation, several programs are dedicated 220-1102 Valid Test Practice entirely to rendering, providing many creative options during this phase of image creation, It helps you understand the reasons behind why your 220-1102 pins exist, which helps you create an engaging environment for why your followers should care.
