## Salesforce Certified Slack Administrator Sample Questions (Q176-Q181):

### NEW QUESTION # 176

You've just joined the Org Admin team at your organization.

You notice that the setting for "public file sharing" is toggled to "enabled" in your organization.

What ability does enabling "public file sharing" give members?

- A. Members can share files externally via Slack Connect channels.
- B. Members can share files with guests in Slack.
- C. Members can share files externally by creating public URLs.
- D. Members can share files in public channels within the Slack Enterprise Grid.

**Answer: C**

Explanation:

Slack's documentation on file sharing specifies:

"Enabling public file sharing allows members to create public links for files that can be shared externally outside of Slack." Public file sharing is about generating external public URLs (A), not internal sharing (B), sharing with guests (C), or Slack Connect-specific behavior (D).

(Reference: Slack Administration Study Guide - File Sharing and Public Link Management)

#### NEW QUESTION # 177

You're overseeing the workspace design for your organization's launch of Slack Enterprise Grid. You want to prioritize ease of administration for channels, workspaces, users and user groups.

Which is the most important step when setting up your workspaces?

(Select the best answer.)

- A. Minimize the number of multi-workspace channels to administer.
- B. Ensure users can frequently and easily switch between workspaces throughout the day.
- **C. Identify an appropriate set of Workspace Owners and Admins for each workspace**
- D. Take into account the cultural dynamics within the company.

**Answer: C**

#### NEW QUESTION # 178

You're a Workspace Owner on a Slack Business+ plan.

Your organization plans to expand Slack usage to the entire company of 4,000 people, and your security team wants workspace access restricted to company email addresses.

What is the most secure option for onboarding all 4,000 users into Slack?

(Select the best answer.)

- A. Turn on Just-In-Time (JIT) provisioning and distribute an invite link that will allow those with the link to join the workspace.
- **B. Integrate with a SAML-based identity provider (IdP) and SCIM API connector so that you can pre-provision members to the workspace.**
- C. Enable admins to invite their departments into the workspace so that new members are automatically added to the correct channels.
- D. Enable email signup so that those with an approved company email address can join by clicking your workspace's sign-up link or entering their email on the sign in page.

**Answer: B**

Explanation:

Slack recommends for secure, large-scale onboarding:

"Using a SAML-based IdP with SCIM provisioning allows automatic user creation and deactivation based on your identity provider, ensuring security and control." Email signup (B) and JIT provisioning (C) are less secure. Admin invites (D) are manual and error-prone at this scale.

#### NEW QUESTION # 179

You're a Slack admin for SealBox, a company specializing in waterproof laptop cases. In preparation for a new product launch, SealBox partners with an advertising agency, Ad Heroes Inc. You create a Slack Connect channel and share it with Ad Heroes' Slack workspace.

The members of the Ad Heroes team are concerned about losing access to messages and files shared in the channel once the project ends and the channel is disconnected.

What will happen once the channel is disconnected? (Select the best answer.)

- A. Ad Heroes will retain full control over the channel's history and can continue to post messages and files in it as normal.
- **B. The channel will be archived on Ad Heroes' workspace, but all messages and files shared by both organizations will remain**

accessible.

- C. All organizations will retain full access to the channel's history and can continue to use it as normal.
- D. Ad Heroes will keep an archived version of the channel, but only files posted by Ad Heroes' workspace members will be visible in the channel.

**Answer: B**

Explanation:

When a Slack Connect channel is disconnected:

"Each organization will keep an archived copy of the channel. All messages and files shared by members of both organizations remain accessible to each organization's members." Neither side can continue posting after disconnection - the channel is archived. (Reference: Slack Administration Study Guide - Managing Slack Connect Disconnections)

### NEW QUESTION # 180

You're an Org Admin at a security-conscious financial services company. You're rolling out Enterprise Mobility Management (EMM) across the organization.

Leadership asks if it is possible to require guests to use the Slack for EMM app.

How should you respond to this request?

(Select the best answer.)

- A. Guests are required to use the Slack for EMM app by default.
- B. Guests can only login through the desktop app to access your workspaces.
- C. Guests can be required to use the Slack for EMM app.
- D. It's not possible to require guests to use the Slack for EMM app.

**Answer: D**

Explanation:

Slack's documentation on EMM policies specifies:

"Enterprise Mobility Management (EMM) requirements apply only to full members of your Slack organization. Guest accounts (Single-Channel or Multi-Channel Guests) are not required to use the Slack for EMM app." Thus, guests are exempt from EMM enforcement. Options B and C incorrectly state guests can be controlled via EMM. D is unrelated.

(Reference: Slack Administration Study Guide - EMM and Guest Account Behavior)
