Exam C-ACDET-2506 Actual Tests, Test C-ACDET-2506 Simulator

We PDFTorrent offer the best high-pass-rate C-ACDET-2506 training materials which help thousands of candidates to clear exams and gain their dreaming certifications. The more outstanding or important the certification is, the fiercer the competition will be. Our C-ACDET-2506 practice materials will be your winning magic to help you stand out easily. Our C-ACDET-2506 Study Guide contains most key knowledge of the real test which helps you prepare efficiently. If you pursue 100% pass rate, our C-ACDET-2506 exam questions and answers will help you clear for sure with only 20 to 30 hours' studying.

SAP C-ACDET-2506 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Project Overview, Roles and Responsibilities: This section of the exam measures the skills of an SAP Cloud Consultant and covers the fundamental understanding of SAP Activate methodology within the context of a cloud implementation project. Candidates are expected to be familiar with the project lifecycle, including phases such as Prepare, Explore, Realize, Deploy, and Run. This part also focuses on identifying key roles and responsibilities within a cloud project team, ensuring clarity in collaboration between consultants, clients, and SAP. It checks whether the consultant understands governance, stakeholder management, and the high-level structure of cloud deployment using SAP best practices.

Topic 2	<ul style="list-style-type: none"> • Deploy and Migration: This part of the exam assesses the expertise of an SAP Deployment Specialist and focuses on the final deployment of the configured solution and the data migration process. Candidates should demonstrate a solid grasp of how to move configurations from a testing environment into production while minimizing disruption. It also includes knowledge of tools and strategies used for data extraction.
Topic 3	<ul style="list-style-type: none"> • Field Configuration: This domain evaluates the knowledge of an SAP Deployment Specialist and focuses on customizing and configuring business fields in the SAP system according to client-specific needs. This includes adjusting system settings for master data, transaction data, and other essential field-level controls to support business processes effectively. The section tests the candidate's ability to use configuration tools, apply SAP standard templates, and ensure that the field configurations align with the desired operational workflows of the business. It also touches upon validation, testing, and documenting the configuration changes made during the implementation.

SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite Sample Questions (Q48-Q53):

NEW QUESTION # 48

While working on a customer project, the customer asks if specific details can be captured and made available in reporting for a sourcing project or contract that doesn't fit the standard fields. What is the recommended way to handle this scenario?

- **A. Configure as many custom fields as possible for data capture purposes.**
- B. Create a Microsoft Form from the Actions menu for managing all the requirements.
- C. Suggest the customer put a Word document on the template and capture all information in that document.
- D. Create a dynamic form (dform) where common data can be synced with the project header through customization.

Answer: A

Explanation:

The recommended approach is to configure custom fields for capturing non-standard data in sourcing projects or contracts. Custom fields allow structured data capture directly within SAP Ariba, which can then be fully included in reporting and analytics. Documents like Word files (A) are unstructured and not reportable. Dynamic forms synced with project headers (B) are not supported as standard functionality. External tools like Microsoft Forms (C) do not integrate with SAP Ariba's reporting capabilities. Custom fields can include picklists, validation rules, translations, and help tips, enabling flexible, maintainable data collection aligned with reporting and compliance needs.

NEW QUESTION # 49

Which data elements are shared in a Suite-Integrated Environment? Note: There are 3 correct answers to this question.

- **A. Users**
- B. User Group mapping
- **C. Exception Types**
- D. Supplier Catalogs
- **E. Suppliers**

Answer: A,C,E

NEW QUESTION # 50

The full SAP Ariba Strategic Sourcing suite baseline (Greenfield baseline scenario) has been applied to the customer Test site. The customer and project team will configure SAP Ariba Sourcing and deploy that to the Production site, then configure and deploy the remaining solutions in stages. What does this mean for subsequent migration activities?

- **A. Subsequent migration activities follow Bluefield deployment scenario.**
- B. Both SAP Ariba Sourcing as well as subsequent migration activities would be Brownfield deployments.
- C. If the baseline applied the full suite, the full suite must be configured and migrated to production at the same time.
- D. Subsequent migration activities will require a complete reconfiguration of existing solutions.

Answer: A

Explanation:

In SAP Ariba deployments, when a full Greenfield baseline has been applied initially-meaning a fresh, full suite setup on the Test site-and the customer deploys a single solution (like Sourcing) to Production first, all subsequent deployments follow a Bluefield scenario. This means that later stages of deployment (e.g., Contracts, Supplier Risk) involve selective migration and incremental configuration changes to Production without rebuilding everything from scratch. Bluefield scenarios specifically accommodate environments where Production may already be live with transactions, requiring careful selective migration to avoid disruption. This contrasts with Brownfield, which typically involves upgrading or reusing existing deployments without full baseline resets. Also, Greenfield deployments do not require all suite components to migrate simultaneously; phased deployments are supported. This approach ensures minimal risk during deployment and provides flexibility to roll out additional modules progressively. Extract summary:SAP Ariba documentation highlights Bluefield for phased, incremental deployments post Greenfield baseline application to accommodate live production environments.

NEW QUESTION # 51

During the configuration of a new custom field, after it's been saved but before the field has been Published, you realize that you set the wrong type of the field.

What is the next step you should take to resolve the issue?

- **A. Delete the field and create a new field with the same name and the intended field type**
- B. Mark the field as Hidden, and create a new field with a slightly different name and the intended field Type
- C. Clear and recreate the field with same field name and the intended field type
- D. Change the field Type by selecting the intended type in the dropdown and Save

Answer: A

NEW QUESTION # 52

How can you set the order of your custom Contract Workspace fields? Note: There are 2 correct answers to this question.

- **A. Navigate to the UI where the class is presented, select Customize in the banner, select Edit, and drag and drop the fields in the order they should be presented. Once all changes are performed, publish all changes via Customizing → Publish**
- B. Select Field Configuration and under the advanced tab select property Sequence. Fields are sorted by this field in the UL. Once all changes are performed, publish all changes via Customizing Publish.
- **C. Select Field Configuration, find the class, and select the Layout tab. Here you can drag and drop the order of the fields. Once all changes are performed, publish all changes via Customizing Publish.**
- D. The fields are presented in alphabetical order of the field label. By carefully choosing the

Answer: A,C

NEW QUESTION # 53

.....

If the clients have any problems on our C-ACDET-2506 training guide they could contact our online customer service personnel or contact us by the mails. We will reply their questions sincerely and help them solve their problems at any time since we offer service on 24/7 time format. We provide the best C-ACDET-2506 Study Guide and hope our sincere service will satisfy all the clients. And our services are praised by our worthy customers who said that when they talked with us, they knew we are reliable and professional.
