ServiceNow exam questions come in three formats i.e., web-based practice test, desktop practice test software, and PDF dumps.

## ServiceNow Certified Implementation Specialist - Strategic Portfolio Management Sample Questions (Q16-Q21):

### NEW QUESTION # 16

What are the default project template configuration records available in the Template Config module?

Choose 3 answers

- A. Project task
- B. Project template
- C. Task
- D. Project
- E. Project subtask

**Answer: A,B,D**

Explanation:

the default project template configuration records available in the Template Config module are Project task, Project, and Project template. These records define the fields and values that are copied from the template to the project when a project is created from a template. The other options are incorrect because:

B . Project subtask: Project subtask is not a valid record in the Template Config module, as it is a child of the Project task record2.

D . Task: Task is not a valid record in the Template Config module, as it is a parent of the Project task record3.

### NEW QUESTION # 17

What role can configure the default columns in the project planning console?

Choose 2 answers

- A. it\_project\_manager
- B. it\_pps\_admin
- C. admin
- D. it\_console\_admin

**Answer: B,C**

Explanation:

Explanation

According to the ServiceNow support article1, the it\_pps\_admin role can configure the default columns in the project planning console by modifying the pm\_project\_planning\_console list view. The admin role can also do this, as well as any other configuration on the platform2.

1: [https://support.servicenow.com/kb?id=kb\\_article\\_view&sysparm\\_article=KB0714565](https://support.servicenow.com/kb?id=kb_article_view&sysparm_article=KB0714565) 2:

### NEW QUESTION # 18

If a sub-project and parent project have different project currencies, this property should be set to true for cost roll-ups.

- A. com.snc.project.multicurrency.rollup\_if\_different
- B. com.snc.project.calculate\_roi
- C. com.snc.project.rollup\_project\_start\_date
- D. com.snc.project.copy.additional\_attributes

**Answer: A**

Explanation:

Explanation

According to the ServiceNow documentation1, this property controls whether the cost roll-ups are performed when a sub-project and parent project have different project currencies. If this property is set to true, then the system converts the sub-project currency to the parent project currency using the exchange rate table and performs the cost roll-ups. If this property is set to false, then the system does not perform the cost roll-ups for sub-projects with different currencies.

### NEW QUESTION # 19

The color band at the top of the project card in Project Workspace displays what project attribute?

- A. Issues
- **B. Status**
- C. Risk
- D. State

**Answer: B**

Explanation:

Explanation

According to the ServiceNow documentation<sup>1</sup>, the color band at the top of the project card in Project Workspace displays the project status. The project status is a calculated field that indicates the health of the project based on the schedule, cost, and scope variance. The color band can be green, yellow, or red, depending on the status value. The other options are incorrect because:

B: Risk: The risk is a potential problem that could affect the project or its outcome. The risk level is displayed as a circle icon on the project card, not as a color band<sup>2</sup>.

C: State: The state is the current phase of the project, such as Draft, Planning, Work in Progress, or Closed. The state is displayed as a text field on the project card, not as a color band<sup>3</sup>.

D: Issues: The issues are the actual problems that affect the project or its outcome. The number of issues is displayed as a badge icon on the project card, not as a color band<sup>4</sup>.

<https://docs.servicenow.com/bundle/vancouver-it-business-management/page/product/project-management/task/>

<https://docs.servicenow.com/bundle/vancouver-it-business-management/page/product/project-management/refer>

<https://docs.servicenow.com/bundle/vancouver-it-business-management/page/product/project-management/task/>

### NEW QUESTION # 20

What does the project status report allow project managers to do?

Choose 2 answers

- A. View the project Gantt chart
- **B. Show historical trend of project KPI's**
- **C. Print as a PDF attachment**
- D. View the WBS

**Answer: B,C**

Explanation:

Explanation

The project status report allows project managers to do the following:

Show historical trend of project KPI's: The project status report displays the key performance indicators (KPIs) of the project, such as schedule variance, cost variance, and earned value. It also shows the historical trend of these KPIs over time, which helps project managers monitor the progress and performance of the project. You can find more information about the project status report KPIs in the Product Documentation for ServiceNow.

Print as a PDF attachment: The project status report can be printed as a PDF attachment and sent to the stakeholders or sponsors of the project. This helps project managers communicate the status and health of the project in a clear and concise format. You can find more information about the project status report PDF attachment in the Product Documentation for ServiceNow.

### NEW QUESTION # 21

.....

With the increasing marketization, the product experience marketing has been praised by the consumer market and the industry.

Attract users interested in product marketing to know just the first step, the most important is to be designed to allow the user to try before buying the Certified Implementation Specialist - Strategic Portfolio Management study training dumps, so we provide free pre-sale experience to help users to better understand our products.
