## CInP New Braindumps Pdf, CInP Valid Exam Dumps

You may previously think preparing for the CInP practice exam will be full of agony; actually, you can abandon the time-consuming thought from now on. Our CInP exam question can be obtained within 5 minutes after your purchase and full of high quality points for your references, and also remedy your previous faults and wrong thinking of knowledge needed in this exam. As a result, many customers get manifest improvement and lighten their load by using our CInP latest dumps. You won't regret your decision of choosing us. In contrast, they will inspire your potential. Besides, when conceive and design our CInP Exam Questions at the first beginning, we target the aim customers like you, a group of exam candidates preparing for the exam. Up to now, more than 98 percent of buyers of our CInP latest dumps have passed it successfully. Up to now they can be classified into three versions: the PDF, the software and the app version. So we give emphasis on your goals, and higher quality of our CInP test guide.

## GInI Certified Innovation Professional (CInP) Sample Questions (Q15-Q20):

### NEW QUESTION # 15

\_\_\_\_\_ are prototypes intended to convey the appearance of a particular artifact, even though they may not have the functionality of said artifact.

Select one correct answer from the list

- A. Works-Like Prototypes
- **B. Looks-Like Prototypes**
- C. Sounds-Like Prototypes
- D. Feels-Like Prototypes

**Answer: B**

### NEW QUESTION # 16

Innovation is an acquirable mentality and skillset.

Select one correct answer from the list:

- A. extremely rare
- **B. acquirable**
- C. in-born
- D. extremely common

**Answer: B**

Explanation:

GInI's foundational philosophy, as articulated in the CInP Handbook, posits that innovation is not an innate trait but a "mentality and skillset" that can be learned and developed through practice, training, and exposure to structured methods. Option A, "in-born," contradicts this by suggesting it's genetic. Option B, "extremely common," overstates its prevalence without training. Option C, "extremely rare," undermines GInI's mission to democratize innovation skills. D, "acquirable," reflects GInI's belief in teachability, aligning with the question's statement and the original answer. This is a core tenet of the CInP certification itself.

Reference: GInI CInP Handbook, Introduction to Innovation Competencies.

### NEW QUESTION # 17

In the fourth major step of the Design Thinking process, the activity associated with "Test" is testing solution prototypes.

Select one correct answer from the list:

- A. Building solution prototypes
- B. Testing hypotheses
- C. Ideating / brainstorming solutions
- **D. Testing solution prototypes**

**Answer: D**

Explanation:

GInI's CInP Handbook defines the Design Thinking process with five steps: Empathize, Define, Ideate, Prototype, and Test. The fourth step is "Prototype," where teams build tangible representations of ideas, but the question specifies the "activity associated with 'Test'" in the "fourth major step." This likely reflects a numbering error-Test is fifth, not fourth. Assuming intent is the Test step, GInI describes it as "testing solution prototypes" to gather feedback, refine concepts, and validate assumptions. Option A, "Building solution prototypes," is the Prototype step's activity (fourth). Option B, "Ideating / brainstorming," is third. Option C, "Testing hypotheses," is broader and earlier (Define). Option D matches GInI's Test definition, aligning with the original answer, correcting for the step mislabeling, and emphasizing GInI's iterative feedback loop-a critical mechanism for solution refinement.

### NEW QUESTION # 18

Innovation Kits are an activity where people from across the organization are provided with carefully- designed starter kits containing certain paraphernalia intended to serve as thought-starters, which the individuals are then challenged to use to spark innovative new thinking around a particular business challenge, and to consider how the different pieces and parts can be recombined in novel ways to generate innovative new opportunities for the business, all of which end up being fodder for the Innovation Funnel.

Select one correct answer from the list:

- A. Ideation Bundles
- **B. Innovation Kits**
- C. Creativity Starter Packs
- D. Imagination Care Packages

**Answer: B**

Explanation:

The question describes a specific engagement mechanism where tangible kits are used to stimulate creative thinking and generate ideas for the Innovation Funnel. GInI's CInP Handbook explicitly refers to these as

"Innovation Kits," highlighting their role in providing physical or conceptual tools to inspire novel solutions to business challenges.

Options A ("Ideation Bundles") and D ("Creativity Starter Packs") sound plausible but are not the precise terms used by GInI.

"Imagination Care Packages" (B) is a creative distractor but lacks the formal recognition within GInI's framework. The description's emphasis on "carefully-designed starter kits" and their purpose aligns directly with "Innovation Kits."

### NEW QUESTION # 19

Innovators are commonly known to have a disdain for what?

Select one correct answer from the list:

- A. Lean thinking.
- B. Other people.
- **C. The status quo.**
- D. Making a profit.

**Answer: C**

### NEW QUESTION # 20

.....

PracticeDump GInI CInP exam training materials praised by the majority of candidates is not a recent thing. This shows PracticeDump GInI CInP exam training materials can indeed help the candidates to pass the exam.
