It provides a competitive edge in the job market and demonstrates the candidate's expertise in designing and managing collaboration and communication solutions that meet the needs of modern businesses.

Microsoft Collaboration Communications Systems Engineer Sample Questions (Q79-Q84):

NEW QUESTION # 79
You create a network region Region1 in Microsoft Teams.
You are adding a network site to Region1. The site has a 1.5-Mb connection.
You need to ensure that all users at the site have a good voice experience.
What should you do?

- A. Create and assign a Teams Network Roaming Policy that has IP video disabled.
- B. Tag all traffic with a DSCP value of 46.

- C. Assign the Region1 users a meeting policy that has a media bit rate of 1,500 Kbps.
- D. Run the Microsoft 365 network connectivity test tool.

Answer: A

Explanation:
It asks for ALL USERS, the roaming policy will basically ensure everyone not just the site user but also users visiting the site will have good Audio as the roaming policy will override any media bit rate settings done on the meeting policy.

NEW QUESTION # 80
Drag and Drop Question
A user uses the Microsoft Teams client on a Windows device.
The user reports call quality issues.
You need to send the diagnostics logs to Microsoft support to troubleshoot the issues.
Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Answer:

Explanation:

NEW QUESTION # 81
You have a Microsoft Teams deployment that uses Calling Plans.
You plan to deploy a Teams-certified contact center.
You need to recommend a deployment model for the planned deployment. The solution must meet the following requirements:
- Users must be able to manage calls by using the Teams app.
- Additional hardware or software must be minimized.
- Calls must remain within the Teams platform.
- Calls must NOT traverse a SIP trunk.
What should you recommend?

- A. the Connect model
- B. the Extend model
- C. a Direct Routing trunk
- D. the Unify model

Answer: D

Explanation:
The Unify integration model enables solution providers to develop native Azure Communication Service-based CCaaS applications using Teams calling infrastructure.
The Unify model is Microsoft's latest and most advanced contact center integration method for Microsoft Teams, using Teams Phone Extensibility and Azure Communication Services to provide a deeply integrated experience. This model allows contact center solutions to leverage the Teams calling infrastructure and Azure's AI capabilities directly, enabling features like a dual-persona experience for agents, native Teams integration, AI-assisted agents, and a dedicated agent interface alongside the Teams environment.

NEW QUESTION # 82
You have a Microsoft Teams deployment.
A user named User1 plans to host a live event.
You create a new meeting policy and set Screen sharing mode to Entire screen.
You need to complete the meeting policy configuration to ensure that User1 can host the live event.
Which two settings should you set to On? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Meet now in private meetings
- B. Local broadcasting
- C. Whiteboard
- D. IP video
- E. Private meeting scheduling

Answer: D,E

NEW QUESTION # 83

Your company has an office in Atlanta.

The company has a Microsoft Teams Phone deployment that contains a toll-free phone number.

You notice that the Atlanta office has significantly high toll-free dial-in usage for meetings.

You need to disable the toll-free number for meetings organized by users in the Atlanta office.

Which type of policy should you configure from the Microsoft Teams admin center?

- A. audio conferencing
- B. voice routing
- C. calling
- D. meeting

Answer: A

Explanation:
Disabling toll-free numbers for specific users
1. From the Microsoft Teams admin center:
2. In the left navigation, click Users, and then select the user from the list of available users.
3. Next to Audio Conferencing, click Edit.
4. Set Include toll-free numbers in meeting requests from this user to Off.
5. Click Save.
