Guide. Therefore, our C_ACT_2403 study materials base on the past exam papers and the current exam tendency, and design such an effective simulation function to place you in the real exam environment.

SAP Certified Associate - Project Manager - SAP Activate Sample Questions (Q36-Q41):

NEW QUESTION # 36

You are defining the testing strategy for your project. What would you include in a Scope of Integration test?

- A. The connectivity between database and application servers
- B. The functionality of modular processes
- C. The functionality of end-to-end business processes
- D. The network communication

Answer: C

Explanation:
* A is correct because the functionality of end-to-end business processes is one of the things that you would include in a Scope of Integration test. The integration test is a test that verifies that the solution works as expected across different systems and interfaces, and supports the complete business scenarios that are relevant for the customer. NEW QUESTION # 37

When working with an Agile approach, what is the minimum planning requirement expected at the beginning of the Realize phase?

- A. Release plan and sprint ceremony guidelines should be finalized.
- B. Realize phase scope, planning, and budget should be completed and final.
- C. User stories on the product backlog should be in a ready state for the first 2 to 3 sprints.
- D. Sprint planning and sprint durations should be defined for the first 2 to 3 sprints.

Answer: D

Explanation:
At the start of the Realize phase, basic sprint planning and duration for the first few sprints should be established to ensure a smooth start. This approach supports incremental development by setting priorities and defining the immediate tasks for the project team.

NEW QUESTION # 38

What findings do you document in the Explore Phase workshops? Note: There are 3 correct answers to this question.

- A. Key business decisions
- B. Business role mapping
- C. Process models
- D. Detailed design of extensions
- E. Confirmation of scope

Answer: A,C,E

Explanation:
* B is correct because key business decisions are one of the findings that you document in the Explore Phase workshops. Key business decisions are the choices that the customer makes regarding their business processes, such as organizational structure, master data, reporting, or integration. These decisions affect the configuration and customization of the solution, and need to be documented and approved by the customer.
* D is correct because confirmation of scope is one of the findings that you document in the Explore Phase workshops. Confirmation of scope is the validation that the customer agrees with the scope items that are selected for their solution, and that they understand the functionality and limitations of each scope item. This helps to ensure that there are no misunderstandings or misalignments between the customer and the project team.
* E is correct because process models are one of the findings that you document in the Explore Phase workshops. Process models are graphical representations of the business processes that show the sequence of activities, roles, and systems involved in executing the process. Process models help to visualize and communicate the business requirements and scenarios, and identify any gaps or

extensions that need to be addressed. Verified References:

NEW QUESTION # 39

Which of the following Accelerators can you find in the SAP Best Practices Explorer?Note: There are 2 correct answers to this question

- A. Test Strategy
- B. Process Diagram
- C. Stakeholder Identification Guide
- D. Test Case

Answer: B,D

Explanation:
* C is correct because Process Diagram is one of the accelerators that you can find in the SAP Best Practices Explorer. A Process Diagram is a graphical representation of a business process that shows the sequence of activities, roles, and systems involved in executing the process.
* D is correct because Test Case is one of the accelerators that you can find in the SAP Best Practices Explorer. A Test Case is a document that describes a scenario that needs to be tested, along with the expected results and test steps.

NEW QUESTION # 40

What activity do you perform during the daily stand-up meeting?

- A. Report showstoppers.
- B. Negotiate acceptance criteria
- C. Re-baseline the release plan
- D. Provide end users with a demo of the new features

Answer: A

Explanation:
* C is correct because reporting showstoppers is one of the activities that you perform during the daily stand-up meeting. A showstopper is an issue or impediment that prevents the team from completing their sprint goal or user story. The scrum master is responsible for resolving or escalating the showstoppers as soon as possible. Verified References:
