Questions (Q44-Q49):

NEW QUESTION # 44

You have been discussing Paul's recent project with him. He explained that he had needed to spend considerable time interviewing stakeholders and was now behind plan. You asked him why he didn't use a workshop to avoid delays. Which of the following MIGHT Paul reply? Select the THREE that apply.

- A. One stakeholder has a dominant personality
- B. The challenge of organising key stakeholder diaries
- C. A neutral venue was available for stakeholder discussions
- D. Consensus from stakeholders needed to be established
- E. The stakeholders were located in different time zones

Answer: B,C,E

Explanation:

Explanation

A workshop is a technique for conducting group discussions and activities with stakeholders to elicit, analyse, validate and prioritise their views and needs. It helps to facilitate effective communication and collaboration among stakeholders and resolve conflicts or issues. Therefore, options B, D and E are correct answers, as they are possible reasons why Paul did not use a workshop to avoid delays. They describe different challenges or constraints that may prevent or limit the use of a workshop technique. Option B describes a challenge related to the geographical location of stakeholders. If the stakeholders are located in different time zones, it may be difficult or impractical to arrange a workshop that suits their availability and preferences. Option D describes a challenge related to the availability of stakeholders. If the key stakeholders have busy or conflicting schedules, it may be hard or impossible to organise a workshop that involves all of them at the same time. Option E describes a constraint related to the venue of the workshop. If a neutral venue is available for stakeholder discussions, it may be preferable or necessary to use it instead of a workshop, as it may reduce bias or influence from any stakeholder group. Option A is not a correct answer, as it is not a reason why Paul did not use a workshop to avoid delays. It describes an issue that may arise during a workshop, but not prevent or limit its use. If one stakeholder has a dominant personality, it may affect the dynamics and outcomes of the workshop, but it can be managed by using appropriate facilitation skills and techniques. Option C is not a correct answer, as it is not a reason why Paul did not use a workshop to avoid delays. It describes an objective that may be achieved by using a workshop, but not prevent or limit its use. If consensus from stakeholders needs to be established, it may be beneficial or essential to use a workshop, as it can help to reach a common understanding and agreement among stakeholders.

NEW QUESTION # 45

Paula is a business analyst working for a small bespoke furniture manufacturing company. The newly appointed chief executive, Beverly, has asked Paula to lead an initiative to refresh and restate (where necessary) the organization's plan for the next financial year. Paula recently led a planning workshop with senior managers and has made the following notes about issues raised in the workshop:

The company....

- a) Aims to supply 10% of the local bespoke furniture market by the end of the financial year.
 - b) Will invest in local radio advertising and appoint a creative team to develop an appropriate advertisement
 - c) Will await the final draft of the annual accounts before considering investing in a new range of high-tech chairs.
 - d) Will adopt new 3D printing technologies to gain an advantage when quoting for bespoke furniture designs
 - e) Recognises that bespoke furniture will always be more expensive than mass-produced, standard furniture
- Which of these notes will go into her MOST analysis?

- A. a, b and c.
- B. b, c and e.
- C. a, b and d.
- D. a, d and e

Answer: C

Explanation:

The notes that will go into the MOST analysis are a, b and d, as they correspond to the elements of Mission, Strategy and Tactics. The mission is to supply 10% of the local bespoke furniture market by the end of the financial year (a). The strategy is to adopt new 3D printing technologies to gain an advantage when quoting for bespoke furniture designs (d). The tactics are to invest in local radio advertising and appoint a creative team to develop an appropriate advertisement (b). Note c is not part of the MOST analysis, as it

is not related to any of the elements.

NEW QUESTION # 46

Nastya is the CEO of a large technology firm, which develops new and innovative nanotechnology. Below is an email she has sent to her management team:

Dear Team,

Recent media coverage has revealed that our competitors have lower costs. It is important that we get back to our suppliers to see if they can secure a better component price for the next version of our NanoVac range. Let's also consider the energy costs of our labs. I'm mindful that costs are rising due to investment in renewable power- I want us to negotiate with our energy supplier to get a better deal.

I've also been reading reports on social responsibility and sustainability and I'd like a full review of the biodegradability of the packaging of all our products- we don't want media attention for being a technology company that wastes natural resources. Our employment regulations also need revisiting as there have been changes to pension rules and paternity/maternity rights for workers and I want us to be aware of these. Finally, regarding the staff conference I want to launch a new staff development programme, which aims to identify and develop the rising stars in our business. People development should be a key priority in our next annual plan.

Thanks. Nastya."

Which elements of PESTLE are identified in this email?

- A. Environmental, Political, Socio-Cultural.
- **B. Economic, Environmental, Legal**
- C. Political, Legal, Economic
- D. Socio-Cultural, Technological, Economic

Answer: B

Explanation:

The elements of PESTLE that are identified in this email are Economic, Environmental and Legal. Economic factors are related to the costs and prices of the business and its competitors. In this email, Nastya mentions that their competitors have lower costs and that they need to secure a better component price and negotiate with their energy supplier (B). Environmental factors are related to the natural resources and sustainability of the business and its impact on the environment. In this email, Nastya mentions that she wants a full review of the biodegradability of the packaging of all their products and that she is mindful of the costs of renewable power (E). Legal factors are related to the laws and regulations that affect the business and its operations. In this email, Nastya mentions that their employment regulations need revisiting due to changes in pension rules and paternity/maternity rights (L).

NEW QUESTION # 47

A company produces kitchens to order. Customers specify the design of the kitchen by using a computer-aided design tool, provided on the company's website. The tool allows customers to select products, such as cabinets and cookers, and place them into a floor plan of the kitchen that they have specified.

Once the customer confirms the design, an order is placed and the customer is given a planned installation date for the kitchen. The company orders the raw materials for the kitchen and the kitchen is built by its skilled carpenters. The customer can track the progress of the build on the Internet. If the kitchen is likely to be delivered later than originally promised, a control action is taken to bring it back on schedule. A Business Activity Model (BAM) developed for the company has 'sell bespoke kitchens' as its doing activity.

Which of the following activities would be directly linked by a logical dependency arrow to or from this doing activity?

- A. Define carpentry skills
- B. Track build
- **C. Determine range of products.**
- D. Take control action

Answer: C

Explanation:

Explanation

A logical dependency arrow on a BAM shows that one activity depends on another activity for its completion or initiation. In this question, the doing activity of 'sell bespoke kitchens' depends on the planning activity of 'determine range of products', as the customers need to select products from a predefined range when they design their kitchens. Therefore, option C is the correct answer.

NEW QUESTION # 48

The management of a chain of hotels has decided that one of its critical success factors (CSF) is to 'provide excellent customer service'. The below measures have been suggested.

Which THREE of these are appropriate key performance indicators (KPIs) for the CSF 'provide excellent customer service'?

- A. The percentage of customers who use the leisure facilities
- B. The number of customers who complain.
- C. The percentage of customers who return
- D. The percentage of customers who join the hotel loyalty scheme
- E. The number of customers who make use of their in-room mini bar

Answer: B,C,D

Explanation:

A key performance indicator (KPI) is a measurable value that demonstrates how effectively an organisation is achieving a key business objective or critical success factor (CSF). A KPI should be relevant, specific, measurable, achievable, realistic and time-bound (SMART). Therefore, options C, D and E are appropriate KPIs for the CSF 'provide excellent customer service', as they measure aspects of customer satisfaction and loyalty that are directly related to the quality of service provided by the hotel chain. Option A is not an appropriate KPI, as it does not measure customer service, but rather customer consumption. Option B is not an appropriate KPI, as it does not measure customer service, but rather customer preference.
