If you are looking to advance in the fast-paced and technological world, NewPassLeader is here to help you achieve this aim. NewPassLeader provides you with the excellent Oracle 1z0-1057-25 practice exam, which will make your dream come true of passing the Oracle Project Management Cloud 2025 Implementation Professional certification exam on the first attempt.

## Oracle Project Management Cloud 2025 Implementation Professional Sample Questions (Q23-Q28):

### NEW QUESTION # 23

Stigma consulting has been hired by a client to implement Project Management Cloud. Which role should they assign to a user for using the rapid implementation feature to set up the Project Financial Management offering by populating and uploading a Microsoft Excel workbook?

- A. Project Executive
- **B. Project Integration Specialist**
- C. Project Application Administrator
- D. Project Administrator

**Answer: B**

Explanation:

The Project Integration Specialist role should be assigned to a user for using the rapid implementation feature to set up the Project Financial Management offering by populating and uploading a Microsoft Excel workbook. This role allows the user to access the Functional Setup Manager and perform the common setups for project costing and billing using predefined templates and spreadsheets. The user can also monitor and validate the setup data using reports and dashboards. Reference:

### NEW QUESTION # 24

Your customer wants to calculate Estimate to Complete (ETC) as the difference between Current Planned Cost and Actual Cost. In Progress Settings, which option would you use in conjunction with the ETC method to meet this requirement? (Choose the best answer.)

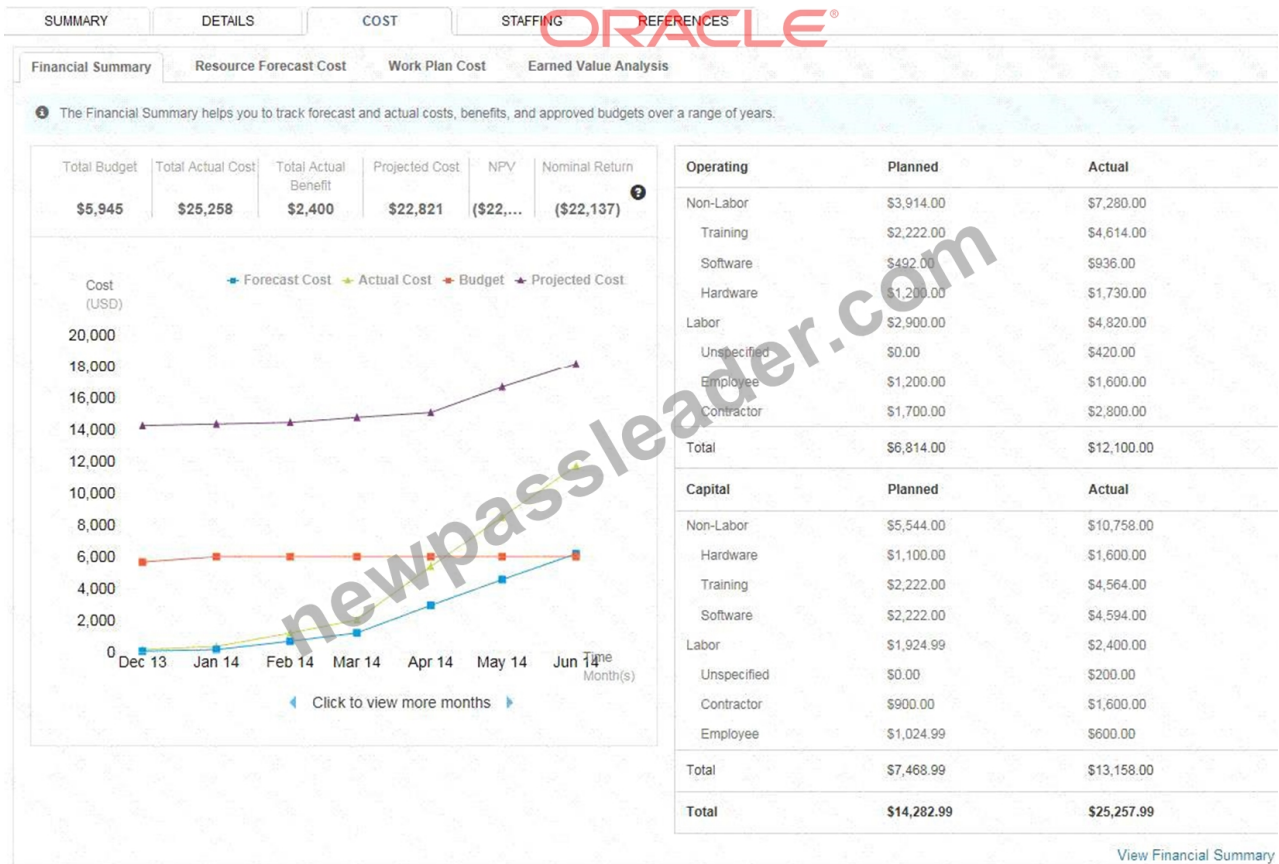

- A. Remaining Plan
- B. Effort
- **C. Cost**
- D. Manual Entry

**Answer: C**

Explanation:

Reference [https://ppm-help.saas.hpe.com/en/9.42/Help/Content/UG/PjMUG/view\\_pj\\_cost\\_data\\_costtab.htm](https://ppm-help.saas.hpe.com/en/9.42/Help/Content/UG/PjMUG/view_pj_cost_data_costtab.htm) Below is an example of the Financial Summary view on the Cost tab of the Project Overview page.

### NEW QUESTION # 25

Your client uses Resource Breakdown Structures (RBS) and Resource Mapping to associate amounts to resources. After making some changes to the resources at project level, forecasts are regenerated. After reviewing the cost amounts associated with the resources, you suspect that the cost association does not match your client's expectations. Identify two valid rules based on which cost association works. (Choose two.)

- A. If one branch contains a user-defined resource type, precedence is given to the branch that contains a user-defined resource type.
- B. If a transaction maps to more than one level, Oracle PPM Cloud sums the precedence numbers for all resource type in the branch and gives precedence to the resource element in the branch with the highest sum.
- C. If there is only one level in RBS to which the transaction maps, the cost amounts are mapped to that level.
- D. If the sum of precedence numbers is the same for more than one branch, precedence is given to the branch with the lowest number at the lowest level.

**Answer: C,D**

Explanation:

Reference [https://docs.oracle.com/cd/E37583\\_01/doc.1116/e22598/F458900AN13D82.htm](https://docs.oracle.com/cd/E37583_01/doc.1116/e22598/F458900AN13D82.htm) How Resource Mapping Is Calculated You can track the cost impact of every resource that has been assigned to a project task and use the resource breakdown structure to view the breakdown of these costs. Oracle Fusion Projects associates the costs of the resources used for tasks with branches and levels in the resource breakdown structure. The process for determining the correct association is managed by rules of precedence.

Oracle Fusion Projects uses the following rules to associate cost amounts with resources:

- \* Select the lowest level in the resource breakdown structure to which a transaction can map.
- \* If there is only one level to which the transaction maps, the cost amounts are mapped to that level.
- \* If the transaction maps to more than one level, Oracle Fusion Projects sums the precedence numbers for all resource types in the branch and gives precedence to the resource element in the branch with the lowest sum.
- \* If more than one branch has the lowest precedence number at the lower level, the application uses the precedence number of the next level up.
- \* If the sum of precedence numbers is the same for more than one branch, precedence is given to the branch with the lowest number at the lowest level.
- \* If one branch contains a user-defined resource type, precedence is given to the branch that does not contain a user-defined

resource type.

Note Oracle Fusion Projects gives more precedence to a lower precedence number. For example, a resource element with a precedence number of 1 is given precedence over a resource element with a precedence number of 10.

### NEW QUESTION # 26

Your customer has implemented Oracle Project Portfolio Management Cloud recently and they have hired new employees for their Professions Services business. These employees are set up in Oracle Human Capital Management Cloud, but the Project Administrators are unable to add them as resources in the Planning Resource Breakdown Structure.

What are three conditions for new employees to show up in the list? (Choose three.)

- A. All new employees created as persons must have an active project role.
- B. Current date is before the effective date of the resource, and you did not enable the "Include people with future-dated effective start dates" option during the search.
- C. All new employees created as persons must have an active supervisor.
- D. All new employees created as persons must be assigned to a department.
- E. All new employees created as persons must have an active assignment.

**Answer: B,D,E**

Explanation:

Ref: [https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19b/oapfm/project-foundation-configuration-define-project-resource-breakdown-structures.html#OAPFM180158\\_2](https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19b/oapfm/project-foundation-configuration-define-project-resource-breakdown-structures.html#OAPFM180158_2) Why can't I find persons in the list of resources when I enter team members, planning resources, or person rate schedules?

You can't find persons in the list of resources when you enter team members, planning resources, or person rate schedules in the following situations:

\* The administrator didn't assign a department while creating users. Persons must have an active assignment and be assigned to a department in Oracle Fusion Human Capital Management before they can be added as team members or entered as resources on the planning resource breakdown structure or person rate schedule.

\* The resource isn't active in Oracle Fusion Human Capital Management because the current date is before the effective date of the resource. If you want to include persons who will start in the future, select the Include people with future-dated effective start dates option when you search for the person.

\* Persons assigned as project managers aren't active as of the project start date.

\* The assignment of the person is terminated, and an appropriate value isn't set for the number of days to display people with terminated assignments. You can set the profile value appropriately at the site profile level using the Specify Number of Days to Display People with Terminated Assignments task in the Setup and Maintenance work area.

### NEW QUESTION # 27

Your organization has created an Enterprise Project Structure (EPS) and your executives review the overall project labor demand by using the EPS. Identify two correct statements about the periodic project labor demand. (Choose two.)

- A. Labor Demand FTE is calculated as Quarterly Allocation hours divided by Quarterly FTE hours, if a quarter is used as the basis for viewing labor demand.
- B. Labor Demand FTE is calculated as Monthly Allocation hours divided by Monthly FTE hours, if a period is used as the basis for viewing labor demand.
- C. Labor Demand FTE is calculated as Yearly Allocation hours divided by Yearly FTE hours, if a year is used as the basis for viewing labor demand.
- D. Labor Demand FTE is calculated as Project Allocation hours divided by Project FTE hours, if project duration is used as the basis for viewing labor demand.

**Answer: A,C**

Explanation:

Reference [https://docs.oracle.com/cloud/farell0/projects\\_gs/OAPEM/OAPEM1461017.htm#OAPEM1313472](https://docs.oracle.com/cloud/farell0/projects_gs/OAPEM/OAPEM1461017.htm#OAPEM1313472)

Project Labor Demand: How It's Calculated

Project executives want to track the labor demand in projects in their organization. The Project Hierarchy Viewer provides project executives a hierarchical view of the enterprise project structure (EPS) along with the labor demand in terms of full-time equivalent (FTE).

Settings That Affect Project Labor Demand

Project application administrators must do the following to set up how project labor demand is calculated:

- \* Organize projects into hierarchical groups on the Manage Enterprise Project Structure page.

- \* Change the quarterly FTE hours for the organization on the Define Project Management Implementation Options page, if different from 520 hours.

Note: You can choose to view labor demand annually instead of quarterly. The Project Hierarchy Viewer uses the current date to determine which year or quarter to display.

How Project Labor Demand Is Calculated

The Project Hierarchy Viewer calculates project labor demand in the following manner:

- \* Spreads the allocation hours from the Manage Project Resources page evenly over the days that the resources are allocated to the project.

- \* Divides the quarterly project allocation hours by the quarterly FTE hours to get the labor demand.

- \* Rolls up the quarterly and annual labor demand up the hierarchy.

## NEW QUESTION # 28

.....

At NewPassLeader, we are aware that every applicant of the Oracle Project Management Cloud 2025 Implementation Professional (1z0-1057-25) examination is different. We know that everyone has a distinct learning style, situations, and set of goals, therefore we offer Oracle 1z0-1057-25 updated exam preparation material in three easy-to-use formats to accommodate every exam applicant's needs. This article will go over the three formats of the Oracle Project Management Cloud 2025 Implementation Professional (1z0-1057-25) practice material that we offer.
