## Reliable C-S4CPB-2508 Exam Sims | New C-S4CPB-2508 Test Pass4sure

For the complete SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud Public Edition exam preparation and success, the TorrentValid C-S4CPB-2508 exam practice test questions are the best choice. With the SAP C-S4CPB-2508 Exam Questions, you will get everything that you need to learn, prepare and succeed in the SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud Public Edition certification exam. You must add SAP C-S4CPB-2508 Exam Questions in your preparation and should not ignore them.

## SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud Public Edition Sample Questions (Q24-Q29):

### NEW QUESTION # 24

When using the Local SAP S/4HANAA Database Schema migration approach, what is the maximum file size? Note: There are 2 correct answers to this question.

- A. 160 MB per ZIP file
- B. 100 MB per ZIP file
- C. 160 MB per file

- D. 100 MB per file

**Answer: B,D**

#### NEW QUESTION # 25

How can you migrate data to SAP S/4HANA Cloud Public Edition? Note: There are 2 correct answers to this question.

- A. With XML or CSV templates
- B. With a separate SAP HANA database
- C. With the zero downtime service
- D. With Core Data Services

**Answer: A,B**

Explanation:

You can migrate data to SAP S/4HANA Cloud Public Edition using the SAP S/4HANA Migration Cockpit, a tool that provides multiple methods of migrating data from legacy systems, SAP or non-SAP, to the target system<sup>1</sup>. The SAP S/4HANA Migration Cockpit supports the following migration methods<sup>2</sup>:

\* With XML or CSV templates: You can use predefined templates in XML or CSV format to fill in your source data and upload them to the staging tables in the SAP S/4HANA Cloud system. The templates are based on the predefined migration objects that cover the most common business data, such as master data, transaction data, and configuration data. You can download the templates from the SAP S

/4HANA Migration Cockpit or from the SAP Best Practices Explorer.

\* With a separate SAP HANA database: You can use a separate SAP HANA database as a staging area to store your source data and transfer it to the SAP S/4HANA Cloud system. You can use any tool or method to extract your source data from your legacy system and load it to the SAP HANA database.

You can also use the predefined migration objects or create your own custom objects using the migration object modeler.

\* Directly from an SAP ERP system: You can connect your SAP ERP system to the SAP S/4HANA Cloud system and transfer your source data directly without using a staging area. You can use the predefined migration objects or create your own custom objects using the migration object modeler.

This method requires the installation of the SAP S/4HANA Migration Cockpit add-on in your SAP ERP system.

The other two options, with the zero downtime service and with Core Data Services, are not valid methods of migrating data to SAP S/4HANA Cloud Public Edition. The zero downtime service is a tool that enables you to upgrade your SAP S/4HANA system with minimal downtime, but it is not used for data migration<sup>3</sup>. Core Data Services (CDS) are a set of domain-specific languages and services for defining and consuming semantically rich data models, but they are not used for data migration<sup>4</sup>. References = Migrating Data to SAP S/4HANA Cloud, Public Edition, Migrating Data with the SAP S/4HANA Migration Cockpit, Zero Downtime Service for SAP S/4HANA, Core Data Services (CDS)

#### NEW QUESTION # 26

Which activities can you complete in the Maintain Business Roles SAP Fiori app? Note: There are 2 correct answers to this question.

- A. Maintain technical catalogs
- B. Maintain restrictions
- C. Assign business catalogs to a business role
- D. Assign PFCG profiles to a business role

**Answer: B,C**

#### NEW QUESTION # 27

In which deployment models is application management the responsibility of the customer? Note: There are 3 correct answers to this question.

- A. Software as a Service
- B. On premise
- C. Private Cloud
- D. Infrastructure as a Service

- E. Platform as a Service

**Answer: B,C,E**

Explanation:

In different deployment models, the responsibility for application management varies, with the customer typically taking on more responsibility in certain models:

\* Platform as a Service (PaaS): In this model, the customer is responsible for managing the applications they develop or deploy on the platform, even though the provider manages the underlying infrastructure, operating systems, and middleware.

\* On premise: In an on-premise deployment, the customer has full responsibility for managing both the applications and the infrastructure they run on. This includes maintenance, updates, security, and compliance for both the applications and the hardware/software infrastructure.

\* Private Cloud: Similar to on-premise deployments, customers in a private cloud model are typically responsible for managing their applications, including SAP S/4HANA Cloud Public Edition. The cloud provider may manage the cloud infrastructure and virtualization layer, but the customer often handles application-level management tasks, including updates, customization, and user management.

These deployment models contrast with Software as a Service (SaaS), where the service provider is generally responsible for managing the application, including its maintenance, updates, and availability.

### NEW QUESTION # 28

Which of the following would prevent SAP from running a Post-Upgrade Test (PUT) on a customer's behalf? Note: There are 2 correct answers to this question.

- A. The process steps have been reordered.
- B. Data marked for deletion is picked for execution.
- C. The test process failed the execution pre-check.
- D. An execution variant has not been maintained.

**Answer: A,D**

### NEW QUESTION # 29

.....

Under the guidance of our C-S4CPB-2508 preparation materials, you are able to be more productive and efficient, because we can provide tailor-made exam focus for different students, simplify the long and boring reference books by adding examples and diagrams and our IT experts will update C-S4CPB-2508 guide torrent on a daily basis to avoid the unchangeable matters. And you are able to study C-S4CPB-2508 study torrent on how to set a timetable or a to-do list for yourself in your daily life, thus finding the pleasure during the learning process of our C-S4CPB-2508 study materials.
