Salesforce Certified Experience Cloud Consultant Sample Questions (Q122-Q127):

NEW QUESTION # 122

Get Cloud Consultant (GCC) is implementing a Salesforce- based solution for a global coffee brand. The coffee company works with agrp research and coffee growers from around the work. These researcher will submit their recommendation in the system which will go through an approval process before reaching coffee growers who will ultimately use those recommendation during cultivation.

The Design team estimates the need for at least 20 custom objects given that the coffee company plans to use Salesforce to also manage incentives. Compensations, distribution, and projections.

Which user license Should GCC recommend for the researchers?

- A. Customer Community
- B. Customer Community Plus
- C. Partner Community Plus
- **D. External Apps**

Answer: D

Explanation:

External Apps is a user license type that allows users to access up to 10 custom objects per app and unlimited standard CRM objects. This license type is suitable for the researchers who need to access at least 20 custom objects for the coffee company's solution.

NEW QUESTION # 123

Dreamscape Flowers needs to create a digital experience that meets the following requirements:

- * It allows for collaboration between customer and partner users.
- * Self-service for customer users is available.
- * Partner users create or resolve cases for their customers and need to see case data on a dashboard.

* Partner users do not manage Leads, Opportunities, or Campaigns.
Which license type should a Salesforce Admin use for these partner users?

- A. Customer Community
- B. Employee Community
- **C. Customer Community Plus**
- D. Partner Community

Answer: C

Explanation:

Customer Community Plus licenses allow users to access standard CRM objects, such as cases and accounts, and custom objects. They also allow users to collaborate with other users through Chatter groups, files, and topics. Customer Community Plus licenses are suitable for partner users who need to create or resolve cases for their customers and see case data on a dashboard, but do not manage leads, opportunities, or campaigns.

NEW QUESTION # 124

Universal Containers (UC) wants to build a product registration site to allow guest users to register a product. The functionality will involve a multi-step flow. How should UC enable the guest user to run the flow?

- **A. Assign a single screen to multi-step flow and give the guest user access via page layout.**
- B. Set the "Enable Lightning Flows for Guest User" toggle option to ON in Setup.
- C. Save the flow with the "System Context Without Sharing-Access All Data" option.
- D. Convert multi-step flow into individual flows and give the guest user access to each flow separately.

Answer: A

NEW QUESTION # 125

Which step denotes the completion of an Experience Cloud site setup?

- A. Setting up SSO
- **B. Activating the site**
- C. Assigning roles to users
- D. Assigning profiles to users

Answer: B

NEW QUESTION # 126

Which step denotes the completion of an Experience Cloud site setup?

- A. Setting up SSO
- **B. Activating the site**
- C. Assigning roles to users
- D. Assigning profiles to users

Answer: B

Explanation:

The step that denotes the completion of an Experience Cloud site setup is activating the site. Activating the site is the final step that makes your Experience Cloud site live and accessible to your users and visitors. Before activating the site, you need to complete other steps such as creating pages, adding components, configuring settings, assigning permissions, and testing functionality. After activating the site, you can still make changes and updates as needed.

NEW QUESTION # 127
