The Designing and Implementing Cisco Service Provider Cloud Network Infrastructure (300-540) certification is a valuable credential that every Cisco professional should earn it. The 300-540 certification exam offers a great opportunity for beginners and experienced professionals to demonstrate their expertise. With the Designing and Implementing Cisco Service Provider Cloud Network Infrastructure (300-540) certification exam everyone can upgrade their skills and knowledge. There are other several benefits that the Cisco 300-540 exam holders can achieve after the success of the Designing and Implementing Cisco Service Provider Cloud Network Infrastructure (300-540) certification exam.

We are so popular for that we have a detailed and perfect customer service system. Firstly, only 5 to 10 minutes after the customer's online payment of 300-540 actual exam is successful, you can receive an email from the customer service and immediately start learning. We also have dedicated staff to check and update 300-540 Exam Questions every day, so you can get the latest information of 300-540 exam materials whenever you buy it. Secondly, we provide 24-hour round-the-clock service to customers. We can solve any problems about 300-540 study materials for you whenever and wherever you need it.

## Top 300-540 Dumps & 300-540 Sample Questions Answers

We provide top quality verified 300-540 certifications preparation material for all the 300-540 exams. Our 300-540 certified experts have curated questions and answers that will be asked in the real exam, and we provide money back guarantee on 300-540 Preparation material. Moreover, we also offer 300-540 desktop practice test software that will help you assess your skills before real Cisco exams.

## Cisco Designing and Implementing Cisco Service Provider Cloud Network Infrastructure Sample Questions (Q45-Q50):

### NEW QUESTION # 45

Cloud infrastructure monitoring can be automated through the use of:

- A. Manual system checks
- B. Decreasing telemetry data
- C. Physical network adjustments
- **D. Cloud agents**

**Answer: D**

#### NEW QUESTION # 46

Which command must be run on a Cisco IOS device to configure six parallel iBGP and eBGP routes that can be installed into a routing table?

- A. maximum paths bgp routers 6
- **B. maximum paths bgp 6**
- C. multipath eibgp 6
- D. maximum-paths eibgp 6

**Answer: B**

Explanation:

Comprehensive and Detailed Explanation From Cisco SP Core Optimization Knowledge Cisco IOS supports BGP Multipath for installing multiple equal-cost BGP routes (both iBGP and eBGP) into the routing table. The correct global BGP command syntax to set the number of allowable parallel BGP paths is:

maximum-paths <number>

For BGP specifically, the form is:

maximum-paths bgp <number>

This enables the router to install up to the specified number of equal-cost BGP routes (iBGP and eBGP) into the RIB and then potentially into the FIB.

Setting:

maximum-paths bgp 6

allow six parallel ECMP paths learned via BGP-this matches the requirement in the question.

Why the other options are incorrect

\* B. multipath eibgp 6 Not a valid Cisco IOS command.

\* C. maximum paths bgp routers 6 Invalid syntax.

\* D. maximum-paths eibgp 6 The correct keyword is bgp, not eibgp. Cisco does not use "eibgp" in this context; IOS supports BGP multipath across iBGP/eBGP automatically when configured under maximum-paths bgp.

#### NEW QUESTION # 47

The primary use of SR-PM in cloud infrastructure is for:

- A. Performance management in software development
- **B. Segment routing path monitoring**
- C. Managing storage replication
- D. Reducing security protocols

**Answer: B**

#### NEW QUESTION # 48

TLS and mTLS are protocols used for:

- A. Routing
- B. Traffic shaping
- C. Access control
- **D. Encryption and secure communication**

**Answer: D**

### NEW QUESTION # 49

Which two tools should be used to manage container orchestration? (Choose two.)

- A. Docker
- B. Cisco vSmart
- C. Cisco vManage
- D. Kubernetes
- E. VMware vCenter

**Answer: A,D**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract from my knowledge of Designing and Implementing Cisco Service Provider Cloud Network Infrastructure Outlines without Any External URL or Links:

Container orchestration is the automated management of container lifecycle tasks such as deployment, scaling, failover, and updates. In Cisco cloud and NFV design guidance, typical orchestration platforms include Docker (with Swarm) and Kubernetes, which integrate with Cisco networking and security for cloud-native workloads.

\* Docker provides the container runtime and can also perform basic orchestration through Docker Swarm mode, managing multi-container, multi-host deployments.

\* Kubernetes is a full-featured orchestration system that automates deployment, scaling, and operations of application containers across clusters. It is the de-facto standard used with Cisco Container Platform and other Cisco cloud solutions.

VMware vCenter, Cisco vManage, and Cisco vSmart focus on virtual machines or SD-WAN control, not container orchestration. Therefore, the correct tools are Docker and Kubernetes (A, D).

### NEW QUESTION # 50

.....

As one of the hot exam of our website, Cisco dumps pdf has a high pass rate which reach to 85%. According to our customer's feedback, our 300-540 vce braindumps covers mostly the same topics as included in the real exam. So if you practice our 300-540 Test Questions seriously and review test answers, pass exam will be absolute.

**Top 300-540 Dumps:** <https://www.examcost.com/300-540-practice-exam.html>

Our 300-540 training braindump is not only cheaper than other dumps but also more effective, Our company has made many efforts to carry out the newest Cisco 300-540 exam torrent, which has many useful operations, The Top 300-540 Dumps - Designing and Implementing Cisco Service Provider Cloud Network Infrastructure PC test engine is designed for such kind of condition, which has renovation of production techniques by actually simulating the test environment, Cisco 300-540 Exam Flashcards We are restless year round.

To be clear, the design with actual subnets whose address ranges overlap is incorrect and should be changed, Cisco Live conferences, Our 300-540 training braindump is not only cheaper than other dumps but also more effective.

## Avail Excellent 300-540 Exam Flashcards to Pass 300-540 on the First Attempt

Our company has made many efforts to carry out the newest Cisco 300-540 exam torrent, which has many useful operations, The Designing and Implementing Cisco Service Provider Cloud Network Infrastructure PC test engine is designed for such kind of condition, Top 300-540 Dumps which has renovation of production techniques by actually simulating the test environment.

We are restless year round, You can give more than 300-540 one test and track the progress of your previous attempts to improve your marks on the next try.
