## Oracle Project Management Cloud 2024 Implementation Professional Sample Questions (Q111-Q116):

### NEW QUESTION # 111

You are implementing Project Portfolio Management for a global professional services organization. In their Consulting Services line of business, it is common to use resources from different business units based on the skills required. Therefore, cross-charge transactions happen between business units within the same legal entity. Transfer price calculations need to be based on raw costs, with no further adjustments to transfer price.

Identify two setups that can drive this borrowed and lent agreement. (Choose two.)

- **A. Transfer price basis must be Raw Cost and calculation method must be Basis Only.**
- B. Transfer price basis must be Raw Cost and calculation method must be Rate Schedule.
- **C. A document entry such as straight time must be enabled for cross-charge transactions.**
- D. Transfer price basis must be Burdened Cost, and calculation method must be Burden Rate Schedule.

**Answer: A,C**

### NEW QUESTION # 112

As part of maintaining (importing new employees that were added last week) project enterprise labor resources in your organization, you submit the Maintain Project Enterprise Labor Resources process to create and update resources based on changes in HCM. You define maintenance conditions on the Manage Project Enterprise Labor Resource page to process both employees and contingent workers. (Choose the best answer.)

- **A. Person Type**
- B. attributes that the project enterprise resources are assigned after creation
- C. Pool Membership
- D. Jobs

**Answer: A**

Explanation:

Reference: [https://docs.oracle.com/cloud/farel8/projects\\_gs/OAPEX/F1082603AN23E61.htm](https://docs.oracle.com/cloud/farel8/projects_gs/OAPEX/F1082603AN23E61.htm) Manage Project Enterprise Labor Resource Maintenance Conditions Project Enterprise Labor Resources: How They Are Automatically Created and Maintained Run the Maintain Project Enterprise Labor Resources process to create resources, remove resource availability for staffing, and maintain the resource search index.

Settings That Affect the Maintain Project Enterprise Labor Resources Process Create and maintain project enterprise labor resources by defining a set of conditions that specify the employees and contingent workers in Oracle Fusion Human Capital Management (HCM) to create as resources in Oracle Fusion Project Portfolio Management. Define the resource attribute values, such as the resource calendar and primary project role, to assign to the new resources.

The following table lists the criteria that you define for selecting HCM persons to create as project enterprise labor resources.

Selection Criteria

Description

Person type

Select the HCM person type for the process to use as criteria when selecting HCM persons to create as resources. Available person types are employees, contingent workers, or both employees and contingent workers.

Option to select people based on job

Select this option for the process to create resources for HCM persons with specific jobs.

Caution If you do not select job criteria for this condition, the process will create resources for all eligible people based only on the person type.

Jobs

If you selected the option to select people based on job, then select the jobs for the process to use as HCM person selection criteria.

The following table lists the attributes for which you specify values to assign to resources that are created for the condition.

Resource Attribute

Description

Option to manage resource availability and staffing

Select this option for resource managers to manage the availability and project staffing of resources who are created based on the condition. Resources who are managed in Oracle Fusion Project Resource Management are eligible to fulfill project resource requests.

Calendar

Select the resource calendar for resources that are created based on the condition. The resource calendar defines the work schedule for project enterprise labor resources, and includes working days and hours and any exceptions, such as holidays.

Primary project role

Select the primary project role for resources that are created based on the condition. Project roles are maintained in Oracle Fusion Project Management.

Cost rate and currency

Enter the cost rate and currency for resources that are created based on the condition.

Bill rate and currency

Enter the bill rate and currency for resources that are created based on the condition.

#### NEW QUESTION # 114

You search for resources to fulfill a project resource request but are unable to proceed after receiving the following error message: "The search for resources cannot be completed because the project resource search index is not available. Contact your help desk." Identify the cause for this error message. (Choose the best answer.)

- A. The index is not in the process.
- B. The most recent update of the index finished successfully.
- C. The index has been built.
- **D. The index is in the process of being updated.**

**Answer: D**

Explanation:

Ref: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19a/fapfm/implementing-project-execution-management-applications.html#FAPFM1724547> Topic - Submitting the Process to Maintain Project Resource Search Index: Procedure Submit the Maintain Project Resource Search Index job set to update the resources that appear on the Search and Evaluate Resources page when a resource manager searches for resources to fulfill project resource requests. The job set consists of a set of processes that facilitate efficient and rapid searches for qualified resources.

Resource managers can't search for resources or view resource details if the search index isn't available for a project resource request with qualifications or keywords. For project resource requests without qualifications and keywords, resource managers can search for and evaluate resources based on resource availability even if the search index isn't current or available.

Caution: The search index isn't available if the Maintain Project Resource Search Index job set process fails, or while the process is running.
