Salesforce Salesforce-Slack-Administrator Exam Syllabus Topics:

Topic	Details
Topic 1	• User Lifecycle Management: This area focuses on managing user accounts throughout their lifecycle in Slack. Candidates will implement authentication options based on organizational requirements and recommend processes for new account creation.
Topic 2	• App Administration: This section evaluates the skills of Slack Administrators in managing applications within Slack. Candidates will summarize the value of interoperability for both decision-makers and end-users while learning to use Workflow Builder for automating tasks.
Topic 3	• Workspace Administration: This domain assesses the competencies of Salesforce administrators in creating and managing Slack workspaces to meet organizational needs. Candidates will determine when a new workspace should be created and manage the approval process for workspace creation.
Topic 4	• Enabling Slack Success: This section focuses on the skills of Admins to develop a vision for Slack within their organization. Candidates will use analytics dashboards to track usage and make recommendations based on data insights, such as channel archival or promoting best practices.
Topic 5	• Channel and User Group Administration: This section measures the skills of Salesforce Administrators in setting up and managing Slack channels. Candidates will learn when to use channels versus direct messages or group DMs, as well as when to opt for public or private channels.

Salesforce Salesforce-Slack-Administrator Exam Dumps - Pass Your Exam In First Attempt [2026]

The language of our Salesforce-Slack-Administrator qualification test guide is simple. The learners may come from many social

positions and their abilities to master our Salesforce-Slack-Administrator test materials are varied. Based on this consideration we apply the most simple and easy-to-be-understood language to help the learners no matter he or she is the students or the in-service staff, the novice or the experienced employee which have worked for many years. Salesforce-Slack-Administrator Certification guide use the simple language to explain the answers and detailed knowledge points to help pass the Salesforce-Slack-Administrator exam.

Salesforce Certified Slack Administrator Sample Questions (Q100-Q105):

NEW QUESTION # 100
You're a Workspace Owner for your company's new Slack Business+ workspace. You're working with your organization's security team to launch Slack globally. To maximize the value received from Slack, you want members to integrate Slack with their daily productivity apps from the first day.
What should you do to enable this activity?

- A. Turn on ape approvals, and have users individually request to install each app.
- B. Pre-approve daily productivity apps, and restrict apps that security has already deemed too risky.
- C. Pre approve dally productivity apps, and restrict apps that are not commonly used.
- D. Use an Admin API to manage and approve apps automatically.

Answer: D

NEW QUESTION # 101
Large Inc. is a consumer goods company that uses the Slack Enterprise Grid org.
Large Inc.'s Human Resources (HR) director is looking to streamline how they:
* Share department-specific policies, and
* Handle sensitive questions hiring managers may have regarding recruiting and candidate offers.
Each department has its own separate Enterprise Grid workspaces. How should the HR director use Slack for this use case? (Select the best answer.)

- A. Create a private channel in the HR workspace, and add the departmental hiring managers to that channel.
- B. Create a multi-workspace private channel for each department, and add the hiring managers to the appropriate channel.
- C. Create separate hiring manager group direct messages (group DMs) for each Department.
- D. Create a multi-workspace public channel for each department, and add the hiring managers to the appropriate channel.

Answer: B

Explanation:
Slack recommends using multi-workspace private channels to manage sensitive information securely across workspaces.
"Multi-workspace private channels allow members from multiple workspaces to securely collaborate, making them ideal for department-specific discussions and sensitive topics." Public channels (A) are inappropriate due to the sensitivity of the HR discussions. Private channels limited to one workspace (C) would restrict access. Group DMs (D) are not scalable or organized for ongoing collaboration.
(Reference: Slack Administration Study Guide - Managing Multi-Workspace Private Channels)
-

NEW QUESTION # 102
You're a Workspace Owner, responsible for setting up your company's Slack Business+ workspace for the first time. You know that your team will need to approve various types of requests that users make within Slack, such as inviting other users, approving apps and creating Slack Connect channels. You want to make sure that admins will have visibility into the status of requests, including which haven been approved.
What is the best way to set up an approval process within Slack that will require the least effort?

- A. Set up a #admins-approval channel, and change the settings for each request type to route approvals to the channel where Workspace Admins can approve.
- B. Do nothing, as Slack's default settings automatically route approval requests to Workspace Admins through a Slackbot direct message (DM).
- C. Post and pin a message with a request template in the #general channel that asks users to submit their requests in the #general channel.

- D. Use Workflow Builder to create multiple workflows that allow users to request the necessary approvals from a #help-slack channel.

Answer: A

NEW QUESTION # 103
You're an Org Admin for a company with only one Slack workspace. A teammate will be starting a new, complex project and requests a new workspace.
Which action should you take first before creating a new workspace?
(Select the best answer.)

- A. Determine if the project team is using Slack workflow's automate processes.
- B. Confirm the channel naming conventions they might use.
- C. Identify the tools the project team plans to use to track their progress.
- D. Ensure you have an available resource to serve as a Workspace Admin.

Answer: B

NEW QUESTION # 104
Your organization recently purchased the Slack Pro plan.
As the IT lead, you're responsible for setting up single sign-on (SSO).
Which provider is required for the Pro plan?
(Select the best answer.)

- A. G Suite Auth
- B. Auth0
- C. Azure SAML
- D. Okta

Answer: A

Explanation:
Slack Pro plan documentation states:
"Slack's Pro plan supports Google Workspace (formerly G Suite) authentication for single sign-on without needing a third-party SAML provider." Azure SAML, Auth0, and Okta are typically used with the Business+ and Enterprise Grid plans where SAML SSO is needed.
(Reference: Slack Administration Study Guide - Authentication and SSO by Plan)

NEW QUESTION # 105
......

As we all know, the influence of Salesforce-Slack-Administrator exam guides even have been extended to all professions and trades in recent years.
