NS0-185 VCE Dumps - VCE NS0-185 Exam Simulator

Passing the Network Appliance NS0-185 exam at first attempt is a goal that many candidates strive for. However, some of them think that good NetApp Storage Installation Engineer, ONTAP Professional Exam (NS0-185) study material is not important, but this is not true. The right NS0-185 preparation material is crucial for success in the exam. And applicants who don't find updated Network Appliance NS0-185 prep material ultimately fail in the real examination and waste money. That's why PDFVCE offers actual Network Appliance NS0-185 exam questions to help candidates pass the exam and save their resources.

Network Appliance NetApp Storage Installation Engineer, ONTAP Professional Exam Sample Questions (Q85-Q90):

NEW QUESTION # 85

A customer has a 2-node FAS8200 cluster with four DS212C shelves with 10 TB SATA drives.

Supported RAID Configurations - FAS8200 9.5 ONTAP

Data Aggregate	Root Aggregate	RAID Group Size (in number of drives)		
Drive Type	Minimum	Default	Maximum ▲	
RAID-4				
RAID-DP				
MSATA (6TB, 8TB)	5	14	14	
SATA or NL-SAS (6TB, 8TB)	5	14	14	
MSATA < 6TB	5	14	20	
SATA or NL-SAS < 6TB	5	14	20	
SAS	5	16	28	
SSD	5	24	28	
MSATA >= 10TB	Not Supported	Not Supported	Not Supported	
SATA or NL-SAS >= 10TB	Not Supported	Not Supported	Not Supported	
RAID-TEC				
MSATA	7	21	29	
SATA or NL-SAS	7	21	29	
SAS	7	24	29	
SSD	7	24	29	

Referring to the exhibit, an aggregate will be created with which default RAID type?

- A. RAID4
- B. RAID-TEC
- C. RAID-DP
- D. RAID1

Answer: C

Explanation:

ONTAP 9.x defaults to RAID-DP for SATA, NL-SAS, SAS, and SSD aggregates unless specific conditions require RAID-TEC. RAID-DP provides double-parity protection, allowing the system to withstand two simultaneous disk failures, which is essential for large-capacity SATA drives such as 10 TB disks.

RAID-TEC is reserved for very large aggregates with higher disk counts and is not the default. RAID4 and RAID1 are not used as default aggregate RAID types in ONTAP 9.

Therefore, the aggregate will be created with RAID-DP.

NEW QUESTION # 86

You are configuring Storage Virtual Machines (SVMs) to support client access. Which two features are directly associated with SVM configuration and provide logical separation of workloads within the ONTAP cluster?

- A. Disk ownership assignment
- B. Namespace configuration
- C. RAID-DP configuration
- D. Logical Interface (LIF) assignment

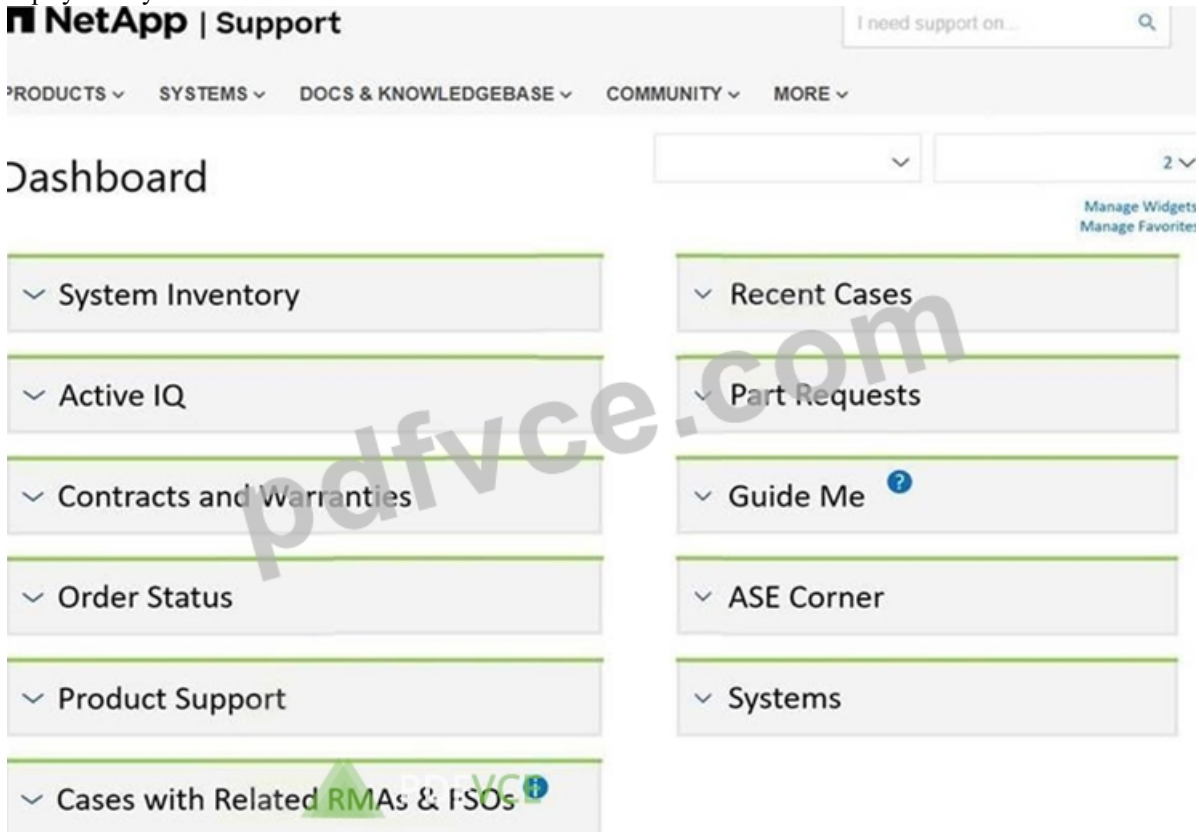

Answer: B,D

Explanation:

SVMs define namespaces and manage LIFs for client connectivity, enabling multi-tenancy. RAID-DP and disk ownership are physical storage configurations performed at the node level, not within SVM configuration.

NEW QUESTION # 87

During an ONTAP cluster handover procedure, your customer asks how to identify and solve issues that might occur on the newly deployed array.

Referring to the exhibit, which two widgets would the customer use to help with these issues? (Choose two.)

- A. ASE Corner
- B. Active IQ
- C. Contracts and Warranties
- D. Guide Me

Answer: B,D

Explanation:

During post-installation and handover, NetApp provides diagnostic and guidance tools through the support dashboard. Two critical widgets used to identify and resolve issues are Guide Me and Active IQ.

Guide Me provides step-by-step workflows, recommended actions, and guided troubleshooting based on system state. It helps administrators follow NetApp best practices during deployment, validation, and issue resolution.

Active IQ delivers proactive analytics, risk detection, configuration validation, and health insights. It identifies potential issues before they impact operations and provides corrective recommendations.

Contracts and Warranties is administrative, and ASE Corner is informational, not operational.

Thus, the correct answers are A and B.

NEW QUESTION # 88

You completed a 2-node AFF A700 installation according to the poster. You run the disk show -fields owner command and notice that all drives are assigned to node 1.

In this scenario, which tool would you use to access documentation and guidelines to solve the issue?

- A. NET2
- B. Active IQ Unified Manager
- C. NetApp Docs
- D. Active IQ One Collect

Answer: C

Explanation:

NetAppDocs provides official installation documentation, posters, and step-by-step guidelines. It is the correct resource for resolving disk ownership and installation workflow issues.

NEW QUESTION # 89

After the installation of a new ONTAP 9.8 cluster, you have to verify if AutoSupport works. In this scenario, which two commands would you use to accomplish this task? (Choose two.)

- A. system node autosupport invoke
- B. system node autosupport history show
- C. system node autosupport destination show
- D. system node autosupport check show

Answer: B,D

Explanation:

<https://docs.netapp.com/us-en/ontap-cli-93/system-node-autosupport-history-show.htm#description>

NEW QUESTION # 90

.....

Sometimes, most candidates have to attend an exam, they may feel nervous and don't know what to do. If you happen to be one of them, our NS0-185 learning materials will greatly reduce your burden and improve your possibility of passing the exam. Our advantages of time-saving and efficiency can make you no longer be afraid of the NS0-185 Exam, and you will find more about the benefits of our NS0-185 exam questions later on.

NS0-185 VCE Dumps: <https://www.pdfvce.com/NetworkAppliance/NS0-185-exam-pdf-dumps.html>

There is no such scene with PDFVCE NS0-185 VCE Dumps, The NS0-185 desktop practice exam software and NS0-185 web-based practice test is very beneficial for the applicants in their preparation because these Network Appliance NS0-185 practice exam provides them with the Network Appliance NS0-185 actual test environment, There are two versions of PDFVCE NS0-185 VCE Dumps dumps.

These details may also be fairly loose with the idea that the team NS0-185 can get clarification at any time because Business people and developers must work together daily throughout the project.

Free PDF 2026 Network Appliance NS0-185: High Pass-Rate NetApp Storage Installation Engineer, ONTAP Professional Exam Interactive Practice Exam

This streamlined connection process will help reduce the amount of clicking around you must do to get online, There is no such scene with PDFVCE, The NS0-185 desktop practice exam software and NS0-185 web-based practice test is very beneficial for the applicants in their preparation because these Network Appliance NS0-185 practice exam provides them with the Network Appliance NS0-185 actual test environment.

There are two versions of PDFVCE dumps, In order to survive in the society and realize our own values, learning our NS0-185 study materials is the best way.
