

# CloudSec-Pro Exam Overview | CloudSec-Pro Latest Test Braindumps

What's more, part of that Pass4suresVCE CloudSec-Pro dumps now are free: <https://drive.google.com/open?id=1njikv1XqsLTBT8mg97nbheVi6ZIwhutm>

The best way of passing Palo Alto Networks actual test is choosing accurate exam braindumps. Pass4suresVCE has latest test questions and accurate exam answers to ensure you clear CloudSec-Pro Real Exam. You just need spend your spare time to practice Palo Alto Networks top questions and review the key points of study guide, it will be easy to clear exam.

Our product is revised and updated according to the change of the syllabus and the latest development situation in the theory and the practice. The CloudSec-Pro exam torrent is compiled elaborately by the experienced professionals and of high quality. The contents of CloudSec-Pro guide questions are easy to master and simplify the important information. It conveys more important information with less answers and questions, thus the learning is easy and efficient. The language is easy to be understood makes any learners have no obstacles. The CloudSec-Pro Test Torrent is suitable for anybody no matter he or she is in-service staff or the student, the novice or the experience people who have worked for years. The software boosts varied self-learning and self-assessment functions to check the results of the learning.

## CloudSec-Pro Latest Test Braindumps & CloudSec-Pro Customizable Exam Mode

Three versions of CloudSec-Pro study materials are available. We can meet your different needs. CloudSec-Pro PDF version is printable and you can print it into hard one, and you can take them anywhere. CloudSec-ProOnline test engine supports all web browsers, and you can have a brief review before your next practicing. CloudSec-Pro Soft test engine can stimulate the real exam environment, and it can help you know the process of the real exam, this version will relieve your nerves. Just have a try, and there is always a suitable version for you!

## Palo Alto Networks Cloud Security Professional Sample Questions (Q69-Q74):

### NEW QUESTION # 69

Which action would be applicable after enabling anomalous compute provisioning?

- A. It detects potential creation of an unauthorized network of compute instances with AutoFocus.
- B. It detects the activity caused by the spambot.
- C. It detects unusual server port activity or unusual protocol activity from a client within or outside the cloud environment.
- **D. It detects potential creation of an unauthorized network of compute instances either accidentally or for cryptojacking.**

**Answer: D**

Explanation:

Enabling anomalous compute provisioning in Prisma Cloud allows for the detection of unusual and potentially unauthorized activities related to the creation of compute instances. This feature is particularly useful for identifying scenarios where an unauthorized network of compute instances might be established, either accidentally due to misconfigurations or maliciously for purposes such as cryptojacking. Cryptojacking involves the unauthorized use of someone else's compute resources to mine cryptocurrency, and anomalous compute provisioning can help in identifying such activities by highlighting unusual patterns in the provisioning of compute resources.

### NEW QUESTION # 70

What should be used to associate Prisma Cloud policies with compliance frameworks?

- A. Compliance
- B. Policies
- **C. Custom compliance**
- D. Alert rules

**Answer: C**

Explanation:

In the context of associating Prisma Cloud policies with compliance frameworks, the most appropriate option is "Custom compliance." Prisma Cloud provides a comprehensive set of security and compliance policies that can be applied to cloud environments. While predefined policies cover a wide range of compliance standards and best practices, every organization has unique requirements and may follow specific compliance frameworks that are not directly included in the predefined policies. Custom compliance allows organizations to define their own compliance frameworks and associate specific Prisma Cloud policies with these custom frameworks. This flexibility ensures that organizations can maintain compliance with their specific regulatory and industry standards, tailoring the Prisma Cloud policies to meet their unique compliance needs. Custom compliance frameworks can be created within Prisma Cloud to include a collection of policies that address the specific controls and requirements of the organization's chosen compliance standards, providing a tailored approach to cloud security and compliance.

### NEW QUESTION # 71

Where can a user submit an external new feature request?

- A. Feature Request
- B. Help Center
- C. Support Portal
- **D. Aha**

**Answer: D**

Explanation:

<https://prismacloud.ideas.aha.io/ideas>

To submit an external new feature request for Prisma Cloud, users can utilize the Aha platform. By accessing the Palo Alto Networks Aha portal, users can submit their feature requests, suggest enhancements, and contribute to shaping the future of Prisma Cloud. Aha provides a structured way to collect and prioritize customer feedback, ensuring that valuable insights reach the product development teams.

For those seeking to propose new features or improvements, visiting the Aha portal and submitting their ideas is the recommended approach. It allows users to participate in the ongoing evolution of Prisma Cloud by sharing their requirements and vision for the platform.

### NEW QUESTION # 72

Which RQL query will help create a custom identity and access management (IAM) policy to alert on Lambda functions that have permission to terminate EC2 instances?

- A. iam from cloud.resource where cloud.type equals 'AWS' AND cloud.resource.type equals 'lambda function' AND cloud.service.name = 'ec2' AND action.name equals 'ec2:TerminateInstances'
- B. config from iam where dest.cloud.type = 'AWS' AND source.cloud.service.name = 'ec2' AND source.cloud.resource.type = 'instance' AND dest.cloud.service.name = 'lambda' AND action.name = 'ec2:TerminateInstances'
- C. iam from cloud.resource where dest.cloud.type = 'AWS' AND source.cloud.service.name = 'lambda' AND source.cloud.resource.type = 'function' AND dest.cloud.service.name = 'ec2' AND action.name = 'ec2:TerminateInstances'
- **D. config from iam where dest.cloud.type = 'AWS' AND source.cloud.service.name = 'lambda' AND source.cloud.resource.type = 'function' AND dest.cloud.service.name = 'ec2' AND action.name = 'ec2:TerminateInstances'**

**Answer: D**

### NEW QUESTION # 73

What is the function of the external ID when onboarding a new Amazon Web Services (AWS) account in Prisma Cloud?

- A. It is the default name of the PrismaCloudApp stack.
- B. It is a unique identifier needed only when Monitor & Protect mode is selected.
- C. It is the resource name for the Prisma Cloud Role.
- **D. It is a UUID that establishes a trust relationship between the Prisma Cloud account and the AWS account in order to extract data.**

**Answer: D**

Explanation:

The external ID plays a crucial role when onboarding a new Amazon Web Services (AWS) account in Prisma Cloud. It serves as a UUID (Universally Unique Identifier) that establishes a trust relationship between the Prisma Cloud account and the AWS account. This trust relationship is essential for allowing Prisma Cloud to securely extract data and perform security monitoring and compliance checks within the AWS environment.

The use of an external ID ensures that Prisma Cloud can access the necessary information from the AWS account without compromising the security of the AWS account's credentials, adhering to the principle of least privilege and enhancing the overall security posture.

### NEW QUESTION # 74

.....

Our Pass4suresVCE provides CloudSec-Pro braindumps and training materials in PDF and software, which contains CloudSec-Pro exam dumps and answers. Moreover, the content of CloudSec-Pro braindumps and training materials covers largely and more reliably, and it will help you most to prepare CloudSec-Pro test. If you fail the CloudSec-Pro certification exam with our CloudSec-Pro dumps, please don't worry. We will refund fully.
