### NEW QUESTION # 19

At which level do you activate SAP S/4HANA output management for purchasing documents?

- **A. Document type**
- B. Purchasing organization
- C. Application object
- D. Document category

**Answer: A**

Explanation:

Explanation

You activate SAP S/4HANA output management for purchasing documents at the document type level. You can assign an output determination procedure to each document type and define output parameters such as output type, channel, recipient, timing, etc. You do not activate output management at the document category, application object, or purchasing organization level. ### NEW QUESTION # 20

Which of the following steps can be part of a subcontracting process? Note: There are 3 correct answers to this question

- **A. Purchase components for direct delivery to the subcontractor**
- B. Create a sales order for components to be provided
- **C. Create an outbound delivery for components to be provided**
- D. Invoice the subcontractor for consumed components
- **E. Post subsequent adjustment of component consumption**

**Answer: A,C,E**

Explanation:

Explanation

A subcontracting process involves sending components to a vendor who provides a service and returns an assembled or processed product. Some steps that can be part of this process are:

Post subsequent adjustment of component consumption, which means that you can correct the actual quantity of components consumed by the vendor after receiving the finished product.

Create an outbound delivery for components to be provided, which means that you can ship the components from your plant to the vendor's location using the shipping functionality.

Purchase components for direct delivery to the subcontractor, which means that you can order components from another vendor and have them delivered directly to the subcontractor without storing them in your own plant.
