Free PDF 2026 Cisco Newest 100-160 Exam Dumps Free

P.S. Free 2026 Cisco 100-160 dumps are available on Google Drive shared by RealValidExam: https://drive.google.com/open?id=1az894bWdT2dWBVBdUnlI12HELtb5V_2a

Among global market, 100-160 guide question is not taking up such a large share with high reputation for nothing. And we are the leading practice materials in this dynamic market. To facilitate your review process, all questions and answers of our 100-160 test question is closely related with the real exam by our experts who constantly keep the updating of products to ensure the accuracy of questions, so all 100-160 Guide question is 100 percent assured. It is a mutual benefit job, that is why we put every exam candidates' goal above ours, and it is our sincere hope to make you success by the help of 100-160 guide question and elude any kind of loss of you and harvest success effortlessly.

Cisco 100-160 Exam Syllabus Topics:

Topic	Details
Topic 1	• Vulnerability Assessment and Risk Management: This section of the exam measures the skills of a Risk Management Analyst and entails identifying and assessing vulnerabilities, understanding risk priorities, and applying mitigation strategies that help manage threats proactively within an organization's systems
Topic 2	• Essential Security Principles: This section of the exam measures the skills of a Cybersecurity Technician and covers foundational cybersecurity concepts such as the CIA triad (confidentiality, integrity, availability), along with basic threat types and vulnerabilities, laying the conceptual groundwork for understanding how to protect information systems.
Topic 3	• Incident Handling: This section of the exam measures the skills of an Incident Responder and centers on recognizing security incidents, responding appropriately, and containing threats—forming the essential foundation of incident response procedures.
Topic 4	• Basic Network Security Concepts: This section of the exam measures the skills of a Network Defender and focuses on understanding network-level protections, including firewalls, VPNs, and intrusion detection • prevention systems, providing insight into how threats are mitigated within network environments.

Topic 5	• Endpoint Security Concepts:This section of the exam measures the skills of an Endpoint Security Specialist and includes securing individual devices, understanding protections such as antivirus, patching, and access control at the endpoint level, essential for maintaining device integrity.

Pass your 100-160 exam in 2026 Smoothly!

If you want to study with computers, our online test engine and the windows software of the 100-160 exam materials will greatly motivate your spirits. The exercises can be finished on computers, which can help you get rid of the boring books. The operation of the 100-160 Study Guide is extremely smooth because the system we design has strong compatibility with your computers.

Cisco Certified Support Technician (CCST) Cybersecurity Sample Questions (Q134-Q139):

NEW QUESTION # 134
Which compliance framework lays out guidelines for protecting the privacy of student education records in educational institutions?

- A. PCI-DSS
- B. FERPA
- C. GDPR
- D. HIPAA

Answer: B

Explanation:
The Family Educational Rights and Privacy Act (FERPA) is a compliance framework that safeguards the privacy of student education records in educational institutions. FERPA provides guidelines for the control and release of these records, ensuring that students' personally identifiable information (PII) is protected and not disclosed without consent.

NEW QUESTION # 135
Which of the following statements best defines a business continuity plan (BCP)?

- A. A data restoration process after a disruptive event occurs
- B. A plan that details how an organization will maintain essential functions during and after a disaster
- C. A backup strategy that involves periodic copying of data to secondary storage
- D. A document that outlines procedures for recovering critical systems and processes after a disaster

Answer: B

Explanation:
A business continuity plan (BCP) is a comprehensive plan that outlines the strategies and procedures an organization will follow to ensure essential functions can be maintained during and after a disaster. It includes processes, resources, and steps to help minimize the impact of a disruption and ensure business continuity.

NEW QUESTION # 136
Which of the following is NOT a component of AAA?

- A. Authorization
- B. Accurate accounting
- C. Accountability
- D. Authentication

Answer: B

Explanation:
The components of AAA are Authentication, Authorization, and Accounting. Accounting refers to the process of tracking and logging user activities, but its focus is not on accuracy. Instead, accounting provides information about resource usage, user activities, and system utilization for auditing and analysis purposes.

NEW QUESTION # 137
Which compliance framework is specifically related to protecting the personal data and privacy of European Union (EU) citizens?

- A. PCI-DSS
- B. FERPA
- C. GDPR
- D. HIPAA

Answer: C

Explanation:
The General Data Protection Regulation (GDPR) is a compliance framework implemented by the European Union to protect the personal data and privacy of EU citizens. It focuses on the collection, processing, and storage of personal data, and it applies to any organization that handles EU citizens' data, regardless of its location.

NEW QUESTION # 138
Which of the following is true about security policies and procedures?

- A. They should be regularly reviewed and updated to reflect changing threats and technologies
- B. They should be kept confidential and not shared with employees.
- C. They should be documented once and never changed.
- D. They should only be accessible to the IT department.

Answer: A

Explanation:
Option 1: Correct: Security policies and procedures should be regularly reviewed and updated to ensure they align with changing threats and technologies. This helps to maintain the effectiveness of the policies and processes.
Option 2: Incorrect: Security policies and procedures should be accessible to relevant employees and stakeholders, not restricted only to the IT department. It is important for everyone to understand and adhere to the policies and procedures.
Option 3: Incorrect: Security policies and procedures should be regularly updated as needed, not documented once and never changed. The changing threat landscape and evolving technologies necessitate the periodic review and update of security policies and procedures.
Option 4: Incorrect: Security policies and procedures should be communicated and shared with employees to ensure everyone understands and follows them. Keeping them confidential and not sharing them would hinder their effectiveness.

NEW QUESTION # 139
......

We consider the actual situation of the test-takers and provide them with high-quality learning materials at a reasonable price.
