GIAC Strategic Planning, Policy, and Leadership (GSTRT) Sample Questions (Q52-Q57):

NEW QUESTION # 52

When analyzing the business environment to inform a cybersecurity strategy, why is it important to consider the organization's competitive landscape?

Response:

- A. To ensure cybersecurity measures are more expensive than those of competitors
- B. To ignore cybersecurity and focus on market share
- C. To understand industry-specific risks and align security strategies with the organization's position in the market
- D. To prevent collaboration with business leaders

Answer: C

NEW QUESTION # 53

Your organization is planning to adopt a cloud-based solution to manage sensitive customer data. The IT and legal departments have raised concerns about ensuring compliance with existing cybersecurity policies and cloud provider security standards. How would you update your policy management strategy to address these concerns?

Response:

- A. Implement the cloud solution without updating the policy, assuming current policies are sufficient
- B. **Update the policy to include specific security requirements for cloud providers, conduct a risk assessment of the new solution, and ensure the policy covers data protection and compliance measures**
- C. Assume the cloud provider will handle all security and compliance responsibilities
- D. Delay the cloud adoption until all departments fully agree with the decision

Answer: B

NEW QUESTION # 54

Which of the following elements is critical to include in a cybersecurity policy to ensure accountability?

Response:
