Our materials can make you master the best DEP-2025 questions torrent in the shortest time and save your much time and energy to complete other thing. What most important is that our DEP-2025 study materials can be download, installed and used safe. We can guarantee to you that there no virus in our product. Not only that, we also provide the best service and the best DEP-2025 Exam Torrent to you and we can guarantee that the quality of our product is good. So please take it easy after the purchase and we won't let your money be wasted.

### Apple DEP-2025 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>Device Support: This section of the exam measures the skills of an IT Administrator and covers troubleshooting Mac startup, recovery, and password reset processes using macOS Recovery. It ensures support professionals can maintain and restore device functionality.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>Device Configuration: This section of the exam measures the skills of an IT Administrator and covers declarative configuration properties and how they relate to the device enrollment type. It ensures that configurations align with organizational needs.</li> </ul>

Topic 3	<ul style="list-style-type: none"> <li>• <b>Device Setup:</b> This section of the exam measures the skills of an MDM Specialist and covers strategies and use cases for managing Setup Assistant via MDM. It also covers the configuration of enrollment-related settings and pane options.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• <b>Software Updates:</b> This section of the exam measures the skills of an MDM Specialist and covers update management strategies using MDM. It includes handling deadlines, updating behavior, and ensuring that updates are properly delivered and installed.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>• <b>Planning Device Ownership and Enrollment:</b> This section of the exam measures the skills of an IT Administrator and covers enrollment planning strategies based on ownership models. It focuses on data separation and appropriate deployment paths based on user and organizational requirements.</li> </ul>
Topic 6	<ul style="list-style-type: none"> <li>• <b>Device Enrollment:</b> This section of the exam measures the skills of an MDM Specialist and covers the three main enrollment methods for Apple devices, their core concepts, and their properties. It prepares candidates to make appropriate choices based on organizational needs.</li> </ul>
Topic 7	<ul style="list-style-type: none"> <li>• <b>Manage Content and Data Flow:</b> This section of the exam measures the skills of an IT Administrator and covers app distribution methods including managed, custom, and proprietary apps. It focuses on content purchasing and delivery through Apple Business or School Manager.</li> </ul>
Topic 8	<ul style="list-style-type: none"> <li>• <b>Identity Services:</b> This section of the exam measures the skills of an MDM Specialist and covers supported identity services on Apple devices, including Platform SSO and Single Sign-On, helping users manage secure access and authentication.</li> </ul>
Topic 9	<ul style="list-style-type: none"> <li>• <b>Prepare Your Environment:</b> This section of the exam measures the skills of an IT Administrator and covers the important factors involved in evaluating and preparing the environment for a successful MDM implementation. It emphasizes strategic planning before rollout.</li> </ul>
Topic 10	<ul style="list-style-type: none"> <li>• <b>Device Security:</b> This section of the exam measures the skills of an MDM Specialist and covers encryption on Apple platforms, FileVault operations, and the importance of key management. It focuses on protecting sensitive data on managed devices.</li> </ul>
Topic 11	<ul style="list-style-type: none"> <li>• <b>Apple Business Manager and Apple School Manager:</b> This section of the exam measures the skills of an MDM Specialist and covers managing connections to resellers and managing device suppliers. It emphasizes the use of Apple Business Manager or School Manager to streamline large-scale deployments.</li> </ul>
Topic 12	<ul style="list-style-type: none"> <li>• <b>Plan a Deployment:</b> This section of the exam measures the skills of an MDM Specialist and covers the purpose and function of Apple's built-in MDM framework. It evaluates the foundational understanding needed to support the deployment of Apple devices at scale using MDM protocols and tools.</li> </ul>

## **Pass Guaranteed Apple - Trustable DEP-2025 - Latest Apple Deployment and Management Exam Test Blueprint**

If you don't pass the Selling Apple Deployment and Management Exam (DEP-2025) exam, ExamDiscuss will refund the money. Some terms and conditions related to the refund are given on the guarantee page. You will not find such excellent offers anywhere else. Therefore, don't miss this golden opportunity and Apple Deployment and Management Exam (DEP-2025) practice test material today!

### **Apple Deployment and Management Exam Sample Questions (Q259-Q264):**

#### **NEW QUESTION # 259**

Which macOS tool allows IT administrators to create configuration profiles?

- A. System Preferences

- B. Apple Configurator
- C. Terminal
- **D. Profile Manager**

**Answer: D**

Explanation:

Profile Manager, part of macOS Server (now integrated into macOS as a standalone service), is a tool that allows IT administrators to create, edit, and distribute configuration profiles for macOS, iOS, and iPadOS devices. These profiles define settings and restrictions that can be deployed via MDM or manually. Apple Configurator (option A) is primarily for iOS/iPadOS/tvOS device supervision and configuration, not profile creation for macOS. System Preferences (option C) is a user-facing settings app, not a profile creation tool.

Terminal (option D) can be used for scripting but isn't designed for profile creation. The Apple Platform Deployment Guide identifies Profile Manager as the macOS tool for this purpose.

Reference: Apple Platform Deployment Guide (Chapter: Profile Manager).

### NEW QUESTION # 260

A user enrolled their personal iPhone in your organization's MDM solution. Which of these management capabilities does your organization's MDM solution have on the user's iPhone?

- A. Enable Activation Lock
- B. Access device location
- C. Remotely wipe the device
- **D. Install and configure apps**

**Answer: D**

Explanation:

User Enrollment limits MDM capabilities. The iOS Deployment Reference states, "With User Enrollment, MDM can install and configure apps, manage accounts, and apply restrictions to managed data, but it cannot access location, wipe the device, or enable Activation Lock." References:

iOS Deployment Reference, "User Enrollment" section.

Apple Platform Deployment Guide, "BYOD Management" section.

### NEW QUESTION # 261

Where are bypass codes for Apple devices stored when you use organization-linked Activation Lock?

- A. In the user's Managed Apple Account
- **B. In the MDM solution**
- C. In Apple Business Manager or Apple School Manager
- D. In the user's personal Apple Account

**Answer: B**

Explanation:

Bypass codes are stored in MDM for organization-linked Activation Lock. The Apple Platform Deployment Guide states, "Bypass codes for organization-linked Activation Lock are stored in the MDM solution, allowing administrators to unlock devices without user credentials." Reference:

Apple Platform Deployment Guide, "Activation Lock" section.

Mobile Device Management Protocol Reference, "Activation Lock Management" section.

### NEW QUESTION # 262

What's required to use Apple Configurator?

- **A. A Mac**
- B. A VPN configuration
- C. User acceptance
- D. An MDM solution

**Answer: A**

Explanation:

Apple Configurator is a macOS application requiring a Mac computer to run, used for supervising and configuring iOS/iPadOS/tvOS devices via USB. An MDM solution (option A) can complement it but isn't required. User acceptance (option C) isn't needed, as it's an administrative tool. A VPN configuration (option D) is unrelated. The Apple Platform Deployment Guide specifies a Mac as the platform for Apple Configurator.

### NEW QUESTION # 263

What does MDM require to escrow a bootstrap token?

- **A. Supervision**
- B. Content token
- C. Account-driven User Enrollment
- D. FileVault

**Answer: A**

Explanation:

The bootstrap token is a mechanism introduced by Apple to help MDM solutions automatically grant SecureToken to managed accounts. Apple specifies that escrow of a bootstrap token requires the device to be supervised. Without supervision, MDM cannot request or store the bootstrap token. This token becomes critical when enabling FileVault, since new accounts may need SecureToken for disk unlock. By escrowing the bootstrap token, MDM ensures accounts created later (e.g., through identity integration or Jamf Connect) can automatically receive SecureToken. This simplifies administration and prevents situations where FileVault cannot be enabled due to missing tokens.

References: Apple Platform Deployment - "Manage FileVault with bootstrap token."

### NEW QUESTION # 264

.....

Our company is committed to the success of our customers. All company tenets are customer-oriented. Our DEP-2025 practice questions are created with the utmost profession for we are trained for this kind of DEP-2025 study prep with the experience and knowledge of professionals from leading organizations around the world. Our company DEP-2025 Exam Quiz is truly original question treasure created by specialist research and amended several times before publication.
