EUNA_2024 Training Pdf, EUNA_2024 Training Tools

We can promise that you would like to welcome this opportunity to kill two birds with one stone. If you choose our EUNA_2024 Test Questions as your study tool, you will be glad to study for your exam and develop self-discipline, our EUNA_2024 latest question adopt diversified teaching methods, and we can sure that you will have passion to learn by our products. We believe that our products will help you successfully pass your exam and hope you will like our product.

Esri ArcGIS Utility Network Associate 2024 Sample Questions (Q52-Q57):

NEW QUESTION # 52

Which structural feature type is used to outline large groups of related domain features, such as all equipment in a substation?

- A. Structure line
- **B. Structure boundary**
- C. Structure junction

Answer: B

Explanation:

A structure boundary outlines collections of domain features, e.g., the extent of a substation.

NEW QUESTION # 53

When creating association roles in ArcGIS Utility Network, what would an unspecified deletion semantic allow if a user attempts to delete a structure feature?

- A. Automatically deletes all associated features along with the structure
- **B. Allows deletion of the structure while keeping associated network features in place**
- C. Prevents deletion of the structure until all associated features are removed

Answer: B

Explanation:

Unspecified deletion semantic removes associations but leaves network features intact when the container or structure is deleted.

NEW QUESTION # 54

When configuring valves or switches in ArcGIS Utility Network, are terminals necessary if both sides of the device are equal?

- A. No, terminals are only required if the device is a subnetwork controller
- **B. No, terminals are only required when sides differ, multiple ports exist, or flow is directional**
- C. Yes, all devices must have terminals

Answer: B

Explanation:

If both sides of a device are identical, terminals are unnecessary. Terminals are used when sides differ or multiple ports exist.

NEW QUESTION # 55

In ArcGIS Utility Network, connectivity is governed by specific properties that define which features can connect to each other and how. Which set of properties defines valid connectivity in the network?

- **A. Edge connectivity, association roles, and network rules**
- B. Containment associations, subnetwork controllers, and categories
- C. Asset groups, network categories, and terminals

Answer: A

Explanation:

Connectivity is defined by edge connectivity, association roles, and network rules. Together, these ensure only valid feature connections are allowed.

NEW QUESTION # 56

When modeling underground pipelines, which type of structural feature would represent the casing that contains those pipes?

- **A. Structure line**
- B. Structure boundary
- C. Structure junction

Answer: A

Explanation:

Structure lines are used to contain domain network line features, such as pipe casings.

NEW QUESTION # 57

.....

In order to provide a convenient study method for all people, our company has designed the online engine of the EUNA_2024 study practice dump. The online engine is very convenient and suitable for all people to study, and you do not need to download and install any APP. We believe that the EUNA_2024 exam questions from our company will help all customers save a lot of installation

troubles. You just need to have a browser on your device you can use our study materials. We can promise that the EUNA_2024 Prep Guide from our company will help you prepare for your exam well. If you decide to buy and use the study materials from our company, it means that you are not far from success.
