## SY0-701 test dumps & SY0-701 pass rate & SY0-701 Test king

These CompTIA SY0-701 updated dumps are launched in the market after suggestions from experienced professionals. Therefore, this CompTIA SY0-701 exam study material is kept to the point and concise. The CompTIA SY0-701 practice material for Exams. Choice are essential for your successful learning. Often applicants for the exam run on a tight daily schedule before the final CompTIA SY0-701 Exam, so actual CompTIA Security+ Certification Exam exam questions are fruitful to prepare successfully on the first try.

### CompTIA Security+ Certification Exam Sample Questions (Q32-Q37):

#### NEW QUESTION # 32

A company plans to secure its systems by:  
 Preventing users from sending sensitive data over corporate email  
 Restricting access to potentially harmful websites  
 Which of the following features should the company set up? (Select two).

- A. File integrity monitoring
- B. DLP software
- C. Stateful firewall
- D. DNS filtering

Answer: D

#### NEW QUESTION # 33

An organization is looking to optimize its environment and reduce the number of patches necessary for operating systems. Which of the following will best help to achieve this objective?

- A. Virtualization
- B. Microservices
- C. Containers
- D. Real-time operating system

Answer: C

#### NEW QUESTION # 34

A U.S.-based cloud-hosting provider wants to expand its data centers to new international locations. Which of the following should the hosting provider consider first?

- A. Local data protection regulations
- B. Risks from hackers residing in other countries
- C. Time zone differences in log correlation
- D. Impacts to existing contractual obligations

**Answer: A**

Explanation:

Explanation

Local data protection regulations are the first thing that a cloud-hosting provider should consider before expanding its data centers to new international locations. Data protection regulations are laws or standards that govern how personal or sensitive data is collected, stored, processed, and transferred across borders. Different countries or regions may have different data protection regulations, such as the General Data Protection Regulation (GDPR) in the European Union, the Personal Information Protection and Electronic Documents Act (PIPEDA) in Canada, or the California Consumer Privacy Act (CCPA) in the United States. A cloud-hosting provider must comply with the local data protection regulations of the countries or regions where it operates or serves customers, or else it may face legal penalties, fines, or reputational damage.

Therefore, a cloud-hosting provider should research and understand the local data protection regulations of the new international locations before expanding its data centers there. ### NEW QUESTION # 35

A security administrator recently reset local passwords and the following values were recorded in the system:

Which of the following in the security administrator most likely protecting against?

- **A. Pass-the-hash attacks**
- B. Password compromise
- C. Account sharing
- D. Weak password complexity

**Answer: A**

Explanation:

The scenario shows MD5 hashed password values. The most likely reason the security administrator is focusing on these values is to protect against pass-the-hash attacks. In this type of attack, an attacker can use a captured hash to authenticate without needing to know the actual plaintext password. By managing and monitoring these hashes, the administrator can implement strategies to mitigate this type of threat.

### NEW QUESTION # 36

A company is implementing a policy to allow employees to use their personal equipment for work.

However, the company wants to ensure that only company-approved applications can be installed. Which of the following addresses this concern?

- **A. MDM**
- B. Containerization
- C. FIM
- D. DLP

**Answer: A**

### NEW QUESTION # 37

.....

According to different kinds of questionnaires based on study condition among different age groups, we have drawn a conclusion that the majority learners have the same problems to a large extend, that is low-efficiency, low-productivity, and lack of plan and periodicity. As a consequence of these problem, our SY0-701 test prep is totally designed for these study groups to improve their
