ABPMP International Certified Business Process Associate (CBPA) Exam Sample Questions (Q13-Q18):

NEW QUESTION # 13

Which statement is true regarding process modeling?

- **A. The model represents the process sufficiently for generating the expected result.**
- B. It is a responsibility of the Information Technology (IT) department.
- C. It is the most important tool to secure the future of an organization.
- D. It is a tool that is primarily used by the managers and process owners.

Answer: A

Explanation:

Process models should be created to accurately and sufficiently represent how a process works, ensuring alignment with real operations and objectives. It's not limited to a specific department (like IT), but used across roles for analysis, improvement, and communication.

"A process model is a representation of the actual or desired process, sufficient for its intended purpose, such as understanding, analysis, communication, or automation."
