FCP_FGT_AD-7.6 Latest Study Notes | High Pass Rate | 100%

Perhaps you have wasted a lot of time to playing computer games. It doesn't matter. It is never too late to change. There is no point in regretting for the past. Our FCP_FGT_AD-7.6 exam questions can help you compensate for the mistakes you have made in the past. You will change a lot after learning our FCP_FGT_AD-7.6 Study Materials. And most of all, you will get reward by our FCP_FGT_AD-7.6 training engine in the least time with little effort.

Fortinet FCP - FortiGate 7.6 Administrator Sample Questions (Q111-Q116):

NEW QUESTION # 111

Which two statements about the Security Fabric rating are true? (Choose two.)

- A. The root FortiGate provides executive summaries of all the FortiGate devices in the Security Fabric.
- B. Security Rating Insights are available only in the Security Rating page.
- C. The Security Posture category provides PCI compliance results.
- D. A license is required to obtain an executive summary in the Security Rating section.

Answer: A,D

Explanation:

A license is required to obtain an executive summary in the Security Rating section → Without the license, only limited Security Fabric rating details are shown.

The root FortiGate aggregates and provides executive summaries for all FortiGate devices in the Security Fabric, giving a consolidated security posture overview.

NEW QUESTION # 112

What are two features of FortiGate FSSO agentless polling mode? (Choose two.)

- A. FortiGate directs the collector agent to use a remote LDAP server.
- B. FortiGate uses the AD server as the collector agent.
- C. FortiGate does not support workstation check.
- D. FortiGate uses the SMB protocol to read the event viewer logs from the DCs.

Answer: C,D

NEW QUESTION # 113

Refer to the exhibit.

Web categories	
Finance and Banking	x
Health and Wellness	x

Addresses	
adobe	x
Adobe Login	x
android	x
apple	x
appstore	x

The predefined deep-inspection and custom-deep-inspection profiles exclude some web categories from SSL inspection, as shown in the exhibit.

For which two reasons are these web categories exempted? (Choose two.)

- A. The resources utilization is optimized because these websites are in the trusted domain list on FortiGate.
- B. The legal regulation aims to prioritize user privacy and protect sensitive information for these websites.

- C. The FortiGate temporary certificate denies the browser's access to websites that use HTTP Strict Transport Security.
- D. These websites are in an allowlist of reputable domain names maintained by FortiGuard.

Answer: B,C

Explanation:

FortiGate's temporary SSL certificate may cause access denial to sites using HTTP Strict Transport Security (HSTS), so such sites are exempted from deep SSL inspection.

Legal regulations require exemption of certain categories to protect user privacy and sensitive information, so these web categories are excluded from SSL inspection.

NEW QUESTION # 114

Refer to the exhibit.

Priority	Details	Type	Action
1	ABC.Com	Application	Allow
2	Excessive-Bandwidth	Filter	Block

An administrator has configured an Application Overrides for the ABC.Com application signature and set the Action to Allow. This application control profile is then applied to a firewall policy that is scanning all outbound traffic. Logging is enabled in the firewall policy. To test the configuration, the administrator accessed the ABC.Com web site several times.

Why are there no logs generated under security logs for ABC.Com?

- A. The ABC.Com Action is set to Allow.
- B. The ABC.Com Type is set as Application instead of Filter.
- C. The ABC.Com is hitting the category Excessive-Bandwidth.
- D. The ABC.Com is configured under application profile, which must be configured as a web filter profile.

Answer: A

Explanation:

When the action is set to Allow in an application override, traffic matching this override is allowed without generating security logs because it bypasses deeper inspection and blocking.

NEW QUESTION # 115

Refer to the exhibit. Which two statements are true about the routing entries in this database table? (Choose two.)

FortiGate routing database

```
Local-FortiGate # get router info routing-table database
Codes: K - kernel, C - connected, S - static, R - RIP, B - BGP
      O - OSPF, IA - OSPF inter area
      N1 - OSPF NSSA external type 1, N2 - OSPF NSSA external type 2
      E1 - OSPF external type 1, E2 - OSPF external type 2
      i - IS-IS, L1 - IS-IS level-1, L2 - IS-IS level-2, ia - IS-IS inter area
      V - BGP VPNv4
      > - selected route, * - FIB route, p - stale info
```

```
Routing table for VRF=0
S  0.0.0.0/0 [20/0] via 10.200.2.254, port2, [1/0]
S  *> 0.0.0.0/0 [10/0] via 10.200.1.254, port1, [1/0]
C  *> 10.0.1.0/24 is directly connected, port3
C  *> 10.200.1.0/24 is directly connected, port1
C  *> 10.200.2.0/24 is directly connected, port2
C  *> 172.16.100.0/24 is directly connected, port8
```

- A. All of the entries in the routing database table are installed in the FortiGate routing table.
- B. The port2 interface is marked as inactive.
- C. Both default routes have different administrative distances.
- D. The default route on port2 is marked as the standby route.

Answer: C,D

Explanation:

The default route via port2 has the same prefix as the route via port1 but a higher administrative distance [20/0] vs [10/0] and is not marked with ">" or "*". This indicates it is kept as a standby/backup route, to be used only if the better route via port1 fails.

The two static default routes clearly show different administrative distances in the brackets: [20/0] for port2 and [10/0] for port1, confirming that their administrative distances are different.

NEW QUESTION # 116

.....

The FCP - FortiGate 7.6 Administrator (FCP_FGT_AD-7.6) PDF dumps are suitable for smartphones, tablets, and laptops as well. So you can study actual FCP - FortiGate 7.6 Administrator (FCP_FGT_AD-7.6) questions in PDF easily anywhere.
