This can be achieved through classroom training, self-study, and practice exams.

### IAPP Certified Information Privacy Professional/United States (CIPP/US) Sample Questions (Q69-Q74):

#### NEW QUESTION # 69

One of the most significant elements of Senate Bill No. 260 relating to Internet privacy is the introduction of what term into Nevada law?

- A. Data Ethics
- B. Artificial Intelligence.
- C. Transfer Mechanism
- **D. Data Brokers**

**Answer: D**

Explanation:

One of the most significant changes introduced by Nevada Senate Bill 260 (SB 260) is the inclusion of the term "Data Brokers" into Nevada privacy law. The bill requires data brokers to register with the Nevada Secretary of State and comply with new privacy requirements, such as responding to consumer opt-out requests. This addition aligns Nevada's privacy framework more closely with laws like Vermont's data broker law.

Key Provisions of SB 260:

Definition of Data Brokers:

A data broker is defined as a company that collects, sells, or licenses consumer data and does not have a direct relationship with the consumer.

Registration Requirements:

Data brokers must register annually with the Nevada Secretary of State.

Consumer Rights:

Consumers are granted the right to opt out of the sale of their personal information, extending the scope of Nevada's existing privacy law.

#### NEW QUESTION # 70

A company based in United States receives information about its UK subsidiary's employees in connection with the centralized HR service it provides.

How can the UK company ensure an adequate level of data protection that would allow the restricted data transfer to continue?

- A. By submitting to the ICO a new application for the UK BCRs using the UK BCR application forms, as their existing authorized EU BCRs are not recognized.
- B. By signing up to an approved code of conduct under UK GDPR to demonstrate compliance with its requirements, both for the parent and the subsidiary companies.
- **C. By revising the contract with the United States parent company incorporating EU SCCs, as it continues to be valid for restricted transfers under the UK regime.**
- D. By allowing each employee the option to opt-out to the restricted transfer, as it is necessary to send their names in order to book the sales bonuses.

**Answer: C**

Explanation:

The UK company can ensure an adequate level of data protection for the restricted data transfer to the US parent company by using

the EU Standard Contractual Clauses (SCCs), which are contractual terms that provide safeguards for personal data transferred from the UK to third countries. The UK GDPR recognizes the validity of the EU SCCs adopted before the end of the Brexit transition period, and allows the UK Information Commissioner's Office (ICO) to issue new SCCs in the future. The other options are not correct because:

\* A. Signing up to an approved code of conduct under the UK GDPR is not sufficient to ensure an adequate level of data protection for restricted transfers, as it is not a transfer mechanism on its own.

The UK company would still need to use another appropriate safeguard, such as SCCs or Binding Corporate Rules (BCRs), to transfer personal data to the US parent company.

\* C. Submitting a new application for the UK BCRs is not necessary, as the UK GDPR recognizes the existing authorized EU BCRs as valid for restricted transfers from the UK. The UK company can continue to rely on its EU BCRs, as long as they are updated to reflect the UK GDPR requirements and the role of the ICO as the competent supervisory authority.

\* D. Allowing each employee the option to opt-out to the restricted transfer is not a valid transfer mechanism under the UK GDPR, as it does not provide adequate safeguards for the personal data of the employees. The UK company would need to obtain the explicit consent of each employee for the restricted transfer, which must be freely given, specific, informed, and unambiguous.

## NEW QUESTION # 71

### SCENARIO

Please use the following to answer the next QUESTION:

A US-based startup company is selling a new gaming application. One day, the CEO of the company receives an urgent letter from a prominent EU-based retail partner. Triggered by an unresolved complaint lodged by an EU resident, the letter describes an ongoing investigation by a supervisory authority into the retailer's data handling practices.

The complainant accuses the retailer of improperly disclosing her personal data, without consent, to parties in the United States.

Further, the complainant accuses the EU-based retailer of failing to respond to her withdrawal of consent and request for erasure of her personal data. Your organization, the US-based startup company, was never informed of this request for erasure by the EU-based retail partner. The supervisory authority investigating the complaint has threatened the suspension of data flows if the parties involved do not cooperate with the investigation. The letter closes with an urgent request: "Please act immediately by identifying all personal data received from our company." This is an important partnership. Company executives know that its biggest fans come from Western Europe; and this retailer is primarily responsible for the startup's rapid market penetration.

As the Company's data privacy leader, you are sensitive to the criticality of the relationship with the retailer.

At this stage of the investigation, what should the data privacy leader review first?

- A. The text of the original complaint
- B. Prevailing regulation on this subject
- C. The company's data privacy policies
- **D. Available data flow diagrams**

**Answer: D**

Explanation:

Data flow diagrams are graphical representations of how data moves within an organization or between different entities. They can help identify the sources, destinations, and processing of personal data, as well as the legal basis, retention periods, and security measures for each data flow. Reviewing the available data flow diagrams can help the data privacy leader to quickly and accurately respond to the urgent request from the EU-based retail partner, as well as to assess the potential risks and compliance gaps in the data transfer process. Data flow diagrams are also a key component of data protection impact assessments (DPIAs), which are required by the GDPR for high-risk processing activities. References:

## NEW QUESTION # 72

Which federal act does NOT contain provisions for preempting stricter state laws?

- A. The Telemarketing Consumer Protection and Fraud Prevention Act
- B. The Children's Online Privacy Protection Act (COPPA)
- C. The Fair and Accurate Credit Transactions Act (FACTA)
- D. The CAN-SPAM Act

**Answer: A**

#### NEW QUESTION # 73

Under the Fair and Accurate Credit Transactions Act (FACTA), what is the most appropriate action for a car dealer holding a paper folder of customer credit reports?

- A. To follow the Red Flags Rule by mailing the reports to customers
- B. To follow the Disposal Rule by having the reports shredded
- C. To follow the Privacy Rule by notifying customers that the reports are being stored
- D. To follow the Safeguards Rule by transferring the reports to a secure electronic file

**Answer: B**

Explanation:

"The Disposal Rule requires any individual or entity that uses a consumer report, or information derived from a consumer report, for a business purpose to dispose of that consumer information in a way that prevents unauthorized access and misuse of the data. Consumer reports can be electronic or written. The rule applies to both small and large organizations, including consumer reporting agencies, lenders, employers, insurers, landlords, car dealers, attorneys, debt collectors, and government agencies." and "Examples of acceptable, reasonable measures include developing and complying with policies to: Burn, pulverize or shred papers containing consumer report information so that the information cannot be read or reconstructed Destroy or erase electronic files or media containing consumer report information so that the information cannot be read or reconstructed Conduct due diligence and hire a document destruction contractor to dispose of material specifically identified as consumer report information consistent with the rule"
