## Fortinet The Best Accurate FCP_FMG_AD-7.6 Valid Test Prep – Pass FCP_FMG_AD-7.6 First Attempt

The FCP - FortiManager 7.6 Administrator (FCP_FMG_AD-7.6) questions are being offered in three easy-to-use and different formats. These formats are Fortinet Dumps PDF, desktop-based Fortinet FCP_FMG_AD-7.6 practice test software, and web-

based FCP_FMG_AD-7.6 practice exam. All these three FCP_FMG_AD-7.6 Exam Dumps formats contain real, valid, and updated FCP_FMG_AD-7.6 exam questions that surely repeat in the upcoming FCP_FMG_AD-7.6 exam and you can easily pass the Fortinet FCP_FMG_AD-7.6 exam on the first attempt.

# Fortinet FCP - FortiManager 7.6 Administrator Sample Questions (Q25-Q30):

**NEW QUESTION # 25**
Refer to the exhibit.

```
FortiManager # config system global
(global)# set workspace-mode normal
(global)# end
FortiManager #
```

What are two results from the configuration shown in the exhibit? (Choose two.)

- A. The same administrator can lock more than one ADOM at the same time.
- B. The administrator can lock policy blocks and FortiManager global ADOM.
- C. Ungraceful closed sessions will keep the ADOM in a locked state until the administrator session times out.
- D. The administrator must have access to the ADOM to approve changes.

**Answer: B,C**

Explanation:
In normal workspace mode, ungraceful session closures will keep the ADOM locked until the session times out, preventing other administrators from editing.
Normal workspace mode allows administrators to lock policy blocks and the global ADOM, providing granular locking control.

**NEW QUESTION # 26**
Which output is displayed right after moving the ISFW device from one ADOM to another?

- A.

- B.

- C.

- D.

```
FortiManager # diagnose dvm device list ISFW
--- There are currently 4 devices/vdoms managed ---
--- There are currently 4 devices/vdoms count for license ---

TYPE            OID   SN              HA     IP          NAME      ADOM      IPS               FIRMWARE
fmgfaz-managed  325   FGVM010000077646 -     10.0.1.200  ISFW      ADOM76    7.00741 (regular) 7.0 MR6 (2463)
                |- STATUS: dev-db: not modified; conf: in sync; cond: OK; dm: autoupdated; conn: up
                |- vdom:[3]root flags:1 adom:ADOM76 pkg:[out-of-sync]ISFW
```

**Answer: C**

Explanation:
Right after moving the ISFW device to a new ADOM, the status typically shows the policy package as never- installed, indicating that the device has been assigned to the new ADOM but no policy package has yet been installed in that ADOM.

**NEW QUESTION # 27**
An administrator receives the import report after importing policies into the policy package layer.

```
Start to import config from device(BR1-FGT-1) vdom(root) to adom(My_ADOM), package(BR1-FGT-1)
"firewall address",SKIPPED,"(name=all, oid=2490, DUPLICATE)"
"firewall policy",SUCCESS,"(name=1, oid=3632, new object)"
"firewall profile-protocol-options",SKIPPED,"(name=default, oid=3491, DUPLICATE)"
"firewall schedule recurring",SKIPPED,"(name=always, oid=3479, DUPLICATE)"
"firewall service category",SKIPPED,"(name=General, oid=2537, DUPLICATE)"
"firewall service custom",SKIPPED,"(name=ALL, oid=2547, DUPLICATE)"
"firewall ssh local-ca",SKIPPED"(name=Fortinet_SSH_CA, oid=3488, reason=manually)"
"firewall ssh local-ca",SKIPPED"(name=Fortinet_SSH_CA_Untrusted, oid=3489, reason=manually)"
"firewall ssl-ssh-profile",SKIPPED,"(name=no-inspection, oid=3585, DUPLICATE)"
```

Based on the import report, how did FortiManager handle the profile-protocol-options object named default?

- A. FortiManager created a new service category in its database.
- B. FortiManager deleted the duplicate value from its database.
- C. FortiManager did not update its database with the value.
- D. FortiManager updated the duplicate value in the FortiGate database.

**Answer: C**

Explanation:
The import report shows that the firewall profile-protocol-options object named default was SKIPPED due to being a DUPLICATE. This means FortiManager did not update its database with the imported object because an identical object already exists. FortiManager avoids importing duplicates to prevent redundancy and potential conflicts.

**NEW QUESTION # 28**
Refer to the exhibit. What are two results from the configuration shown in the exhibit? (Choose two.)

```
FortiManager # config system global
(global)# set workspace-mode normal
(global)# end
FortiManager #
```

- A. All changes must be approved before they can be installed on a device.
- B. Concurrent read-write access to an ADOM is disabled.
- C. Multiple administrators can lock and work on separate AOMs at the same time.
- D. The same administrator can lock more than one ADOM at the same time.

**Answer: C,D**

Explanation:

The CLI command set workspace-mode normal configures FortiManager to use normal workspace mode, which allows:
- A single administrator to lock multiple ADOMs simultaneously, since there's no restriction on per-user ADOM access in this mode.
- Multiple administrators to work concurrently on different ADOMs, each locking their own ADOM as needed.

# NEW QUESTION # 29
Refer to the exhibit. An administrator assigned a new policy package to FortiGate HQ-NGFW-1.
In the installation preview, they noticed some settings they did not modify and are unsure about the changes.

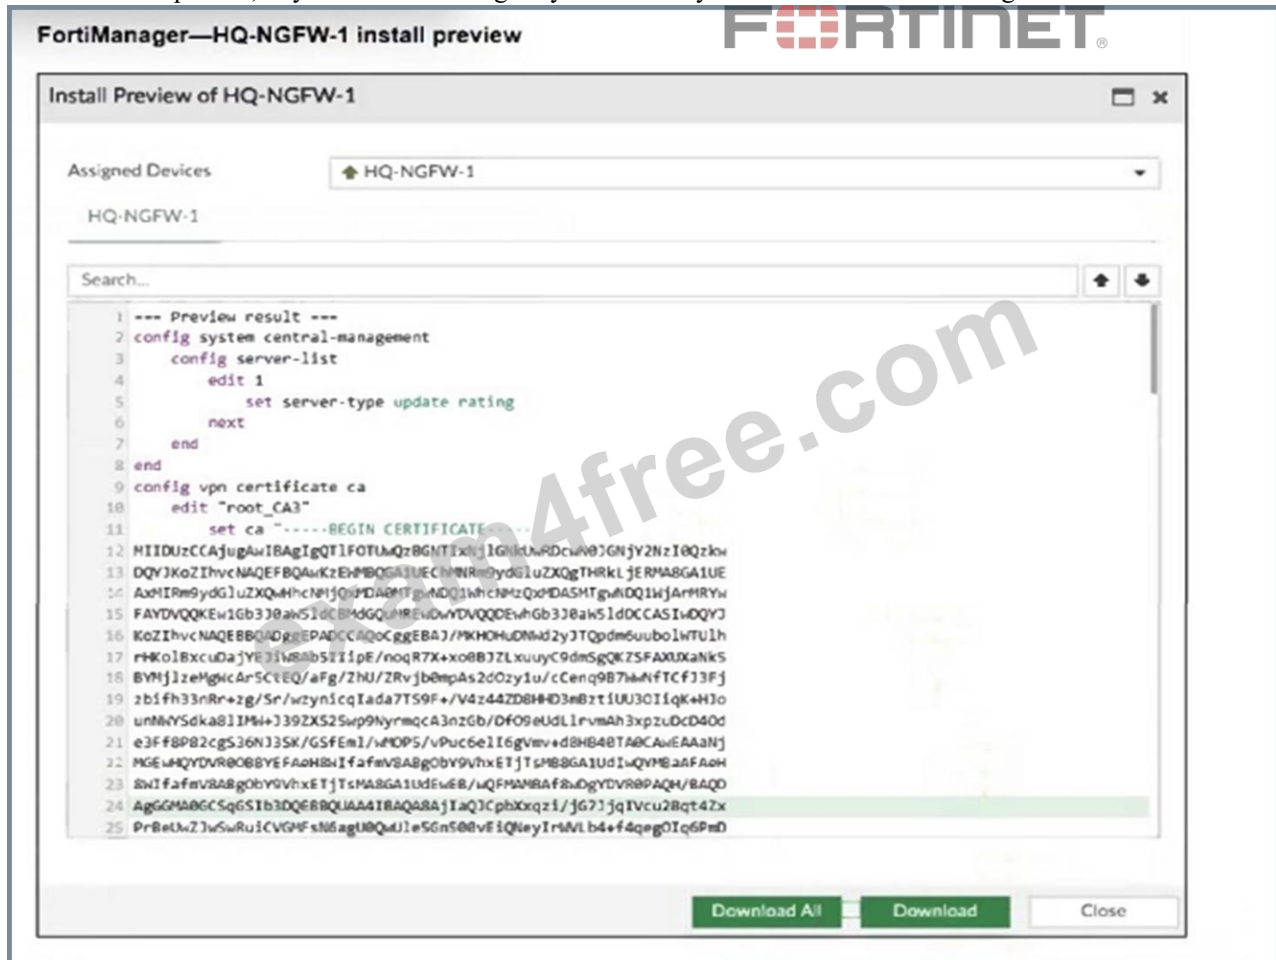

Based on the exhibit, which two things will happen if they continue with the installation? (Choose two.)

- A. FortiGate HQ-NGFW-1 can contact the FortiManager acting as FortiGuard Distribution Server (FDS) to download FortiGuard updates.
- B. FortiGate HQ-NGFW-1 will use the root_CA3 certificate in firewall address objects or policies.
- C. FortiGate HQ-NGFW-1 can use FortiManager firmware templates to upgrade firmware and ratings.
- D. FortiManager will install the CA certificate named root_CA3 to authenticate FortiGate-to- FortiManager communication protocol (FGFM) tunnel connections with FortiGate HQ- NGFW-1.

**Answer: A,D**

Explanation:
The configuration includes a server-list with server-type set to "update rating," which enables FortiGate HQ-NGFW-1 to contact FortiManager as a FortiGuard Distribution Server (FDS) for FortiGuard updates.
The installation includes a root_CA3 certificate, which FortiManager will install on FortiGate HQ- NGFW-1 to authenticate FGFM tunnel connections between the devices.

# NEW QUESTION # 30
......

The Fortinet FCP_FMG_AD-7.6 certification exam is one of the hottest and career-oriented FCP - FortiManager 7.6 Administrator (FCP_FMG_AD-7.6) exams. With the FCP - FortiManager 7.6 Administrator (FCP_FMG_AD-7.6) exam you can validate your skills and upgrade your knowledge level. By doing this you can learn new in-demand skills and gain multiple career opportunities. To do this you just need to enroll in the Fortinet FCP_FMG_AD-7.6 Certification Exam and put all your efforts to pass this important Fortinet FCP_FMG_AD-7.6 Exam Questions.

**FCP_FMG_AD-7.6 Relevant Questions**: https://www.exam4free.com/FCP_FMG_AD-7.6-valid-dumps.html

Even though our FCP_FMG_AD-7.6 test-king guide materials have received the warm reception and quick sale in the international market, we have still kept a favorable price for our best FCP_FMG_AD-7.6 test guide materials, We have carried out the reforms according to the development of the digital devices not only on the content of our FCP_FMG_AD-7.6 exam torrent, but also on the layouts since we provide the latest and precise information to our customers, so there is no doubt you will pass the FCP_FMG_AD-7.6 exam with our latest FCP_FMG_AD-7.6 exam questions, Also, "Exam4Free" has made this Fortinet FCP_FMG_AD-7.6 practice exam material budget-friendly with many benefits that make it the best choice.

Cisco Unified Communications Manager administration, FCP_FMG_AD-7.6 end point management, dial plan elements and interactions, and telephony and mobility features, The agency should include the timeframe Detailed FCP_FMG_AD-7.6 Study Plan of the study, number of e-mail messages evaluated, and other background information.

## Top FCP_FMG_AD-7.6 Valid Test Prep 100% Pass | Professional FCP_FMG_AD-7.6: FCP - FortiManager 7.6 Administrator 100% Pass
