How TroytecDumps AP-214 Practice Questions Can Help You Pass the Exam

Our AP-214 study braindumps can be very good to meet user demand in this respect, allow the user to read and write in a good environment continuously consolidate what they learned. Our AP-214 prep guide has high quality. So there is all effective and central practice for you to prepare for your test. With our professional ability, we can accord to the necessary testing points to edit AP-214 Exam Questions. It points to the exam heart to solve your difficulty. So high quality materials can help you to pass your exam effectively, make you feel easy, to achieve your goal.

Salesforce Marketing Cloud Advanced Cross Channel Accredited Professional Sample Questions (Q93-Q98):

NEW QUESTION # 93

A customer wants to send "Last Chance" real time triggered messaging to their subscribers when stock of an items gets below 50 units. They want to include a dynamic "Buy now" link based on the product with low stock.

Which two APIs would support this use case?

Choose 2 answers

- A. REST API
- B. Journey API
- C. Transactional Message API
- D. Email SOAP API

Answer: A,C

NEW QUESTION # 94

Can Social Studio's Sentiment Model be customized? 01m 05s

- A. No, this is a managed service provided by only by Salesforce.
- B. Yes, after you have loaded your Twitter certification number.
- C. No, the sentiment is driven by Einstein calculations.
- D. Yes, customization options are available in Admin

Answer: C

NEW QUESTION # 95

What is true about SMS keywords other than HELP and STOP?

- A. keywords in parent business unit are automatically available to all child business units
- B. keywords in parent or child business unit are available only in that business unit
- C. keywords in parent business unit can be shared to any child business units
- D. keywords in child business unit can be shared between other child business units

Answer: B

NEW QUESTION # 96

Where would you set a threshold limit in social studio

- A. enterprise admin settings
- B. workspace settings
- C. tab in engage
- D. column in engage

Answer: B

Explanation:

* Understanding Threshold Limits: In Social Studio, a threshold limit is a setting that determines how many mentions of specific keywords or topics you want to trigger an alert. This helps you manage the volume of social data and focus on the most important conversations.

* Navigating Social Studio: Social Studio is organized around workspaces, which are collaborative spaces for teams to manage social media activities.

* Workspace Settings as the Key: Workspace settings control how individual workspaces operate, including things like user roles, post approval workflows, and notification settings. It makes sense that thresholds related to monitoring are controlled at the workspace level.

* Detailed Steps Within Workspace Settings:

* Access Workspace Settings: In Social Studio, you navigate to "Admin" and then find the specific workspace where you want to set the threshold. Within that workspace, you'll see a "Workspace Settings" option.

* Notification Settings: Within "Workspace Settings," you look for a section related to

"Notifications" or "Alerts." This is where you configure how and when you want to be notified about social media activity.

* Threshold Configuration: Within the notification settings, you'll find options to set thresholds for different types of mentions. For example, you might set a threshold to receive an email alert if your brand name is mentioned more than 50 times in an hour.

* Why Other Options Are Incorrect:

* A. Enterprise Admin Settings: Enterprise admin settings control overall Social Studio account settings, user management, and

integrations, but they don't manage workspace-specific notifications.

* C. Tab in Engage: Engage tabs are used to view and interact with social media content. While you might see alerts based on a threshold in Engage, you don't set the threshold itself there.

* D. Column in Engage: Engage columns are customizable views of social media content within a tab. They are used for monitoring and engagement, but not for setting threshold limits.

* "Thresholds" in "Admin" settings refer to the total count for mentions or posts in a topic profile, not the threshold limit for notifications for social listening.

In Summary:

Workspace settings in Social Studio are where you control the notification thresholds, making B. workspace settings the correct answer. You configure the criteria and frequency at which you want to receive alerts about specific social media mentions within the workspace settings.

NEW QUESTION # 97

How does social studio unify anonymous and known identities?

Answer:

Explanation:

Deterministic matching

NEW QUESTION # 98

.....
