It requires a comprehensive understanding of the required skills and test topics. To help candidates pass the SC-401 exam, PracticeMaterial has hired qualified experts to compile such Microsoft SC-401 Exam Dumps that will be essential for your successful preparation in a short time. Our experts have designed such Administering Information Security in Microsoft 365 (SC-401) practice test material that eliminates your chances of failing the Administering Information Security in Microsoft 365 (SC-401) exam.

Microsoft SC-401 Exam Syllabus Topics:

Topic	Details
Topic 1	• Implement Information Protection: This section measures the skills of Information Security Analysts in classifying and protecting data. It covers identifying and managing sensitive information, creating and applying sensitivity labels, and implementing protection for Windows, file shares, and Exchange. Candidates must also configure document fingerprinting, trainable classifiers, and encryption strategies using Microsoft Purview.
Topic 2	• Implement Data Loss Prevention and Retention: This section evaluates Data Protection Officers on designing and managing data loss prevention (DLP) policies and retention strategies. It includes setting policies for data security, configuring Endpoint DLP, and managing retention labels and policies. Candidates must understand adaptive scopes, policy precedence, and data recovery within Microsoft 365.
Topic 3	• Protect Data Used by AI Services: This section evaluates AI Governance Specialists on securing data in AI-driven environments. It includes implementing controls for Microsoft Purview, configuring Data Security Posture Management (DSPM) for AI, and monitoring AI-related security risks to ensure compliance and protection.
Topic 4	• Manage Risks, Alerts, and Activities: This section assesses Security Operations Analysts on insider risk management, monitoring alerts, and investigating security activities. It covers configuring risk policies, handling forensic evidence, and responding to alerts using Microsoft Purview and Defender tools. Candidates must also analyze audit logs and manage security workflows.

Free Sample Microsoft SC-401 Questions - SC-401 Exam Simulations

As is known to us, getting the newest information is very important for all people to pass the exam and get the certification in the shortest time. In order to help all customers gain the newest information about the SC-401 exam, the experts and professors from our company designed the best SC-401 test guide. The experts will update the system every day. If there is new information about the exam, you will receive an email about the newest information about the SC-401 Learning Materials. We can promise that you will never miss the important information about the SC-401 exam.

Microsoft Administering Information Security in Microsoft 365 Sample Questions (Q247-Q252):

NEW QUESTION # 247
You have a Microsoft 365 E5 subscription that has data loss prevention (DLP) implemented.
You need to create a custom sensitive info type. The solution must meet the following requirements:
*Match product serial numbers that contain a 10-character alphanumeric string.
*Ensure that the abbreviation of SN appears within six characters of each product serial number.
*Exclude a test serial number of 1111111111 from a match.
Which pattern settings should you configure for each requirement? To answer, drag the appropriate settings to the correct requirements. Each setting may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.

Answer:

Explanation:

NEW QUESTION # 248
You have a Microsoft 365 ES subscription.
You have a Microsoft SharePoint Online document library that contains Microsoft Word and Excel documents. The documents contain the following types of information:
* Credit card numbers
* Physical addresses in the UK
* National hearth service numbers from the UK
* Sensitive projects that contain the following words: Project Tailspin. Project Contoso, and Project falcon You have email messages m Microsoft Exchange Online that contain the following information types:
* Credit card numbers
* User sign-in credentials
* National health service numbers from the UK
You plan to use sensitive information types (SITs) for compliance policies.
What is the minimum number of SITs required to classify all the information types?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: B

NEW QUESTION # 249
You have a Microsoft 365 E5 subscription.
Microsoft Purview Compliance Manager has the improvement actions shown in the following table.
Automatic testing is disabled for all improvement actions.
For which improvement actions can you update the Test status?

- A. Action1 only
- B. Action1, Action2, Action3 and Action4
- C. Action2 only

- D. Action2 and Action3 only
- E. Action1 and Action4 only

Answer: D

Explanation:
When "Automatic Testing" is disabled for all improvement actions, you can update the Test status for actions that are either implemented or have an alternative implementation.
* Action2 (Configure external sharing links to expire) - Implemented
* Action3 (Update antivirus definitions) - Alternative implementation

NEW QUESTION # 250
You have a Microsoft 36S ES subscription.
From the Microsoft Purview Data Security Posture Management for Al portal, you review the recommendations for Al data security You plan to create a one-click policy to block elevated risk users from pasting or uploading sensitive data to Al websites How will the policy be configured? To answer, select the appropriate options in the answer area NOTE: Each correct selection is worth one point.

Answer:

Explanation:
Explanation:

NEW QUESTION # 251
You have a Microsoft 365 E5 subscription that contains a Microsoft SharePoint Online site named Site! and the data loss prevention (DLP) policies shown in the following table.
The DLP rules are configured as shown In the following table.
All the policies are assigned to Site1.
You need to ensure that if a user uploads a document to Site1 that matches all the rules, the user will be shown the Tip 2 policy tip.
What should you do?

- A. Change the priority of DLP2 to 3.
- B. Prevent additional processing of the policies if there is a match for Rule2
- C. Enable additional processing of the policies if there is a match for Rule1.
- D. Change the priority of DLP2 to 0.

Answer: D

Explanation:
Current setup:
DLP1 (priority 0, Rule1) # Stop processing additional rules enabled # means if Rule1 matches, later rules (including Rule2 with Tip2) will never be evaluated.
Requirement: Ensure that if all rules match, the user sees Tip2 (Rule2's policy tip).
To fix this: Move DLP2 above DLP1 in priority (i.e., set DLP2 = priority 0). Then Rule2 will be evaluated first, and its policy tip (Tip2) will be displayed.
Why not others?
B). Prevent additional processing of the policies if there is a match for Rule2: That would stop processing later, but DLP1 would still block earlier due to its higher priority.
C). Change the priority of DLP2 to 3: That pushes it even lower, making it worse.
D). Enable additional processing for Rule1: Rule1 already has stop processing enabled. Changing that does not ensure Rule2 runs before Rule1, because priority is evaluated first.
Reference:
Microsoft Learn: Order of rule processing in DLP
Policies with lower priority numbers run first, and "Stop processing" ends evaluation.

NEW QUESTION # 252
