C-CPI-2506 Exam Format & Online C-CPI-2506 Test

Only if you download our software and practice no more than 30 hours will you attend your test confidently. Because our C-CPI-2506 exam torrent can simulate limited-timed examination and online error correcting, it just takes less time and energy for you to prepare the C-CPI-2506 exam than other study materials. As is known to us, maybe you are a worker who is busy in your career. Therefore, purchasing the C-CPI-2506 Guide Torrent is the best and wisest choice for you to prepare your test. If you buy our C-CPI-2506 questions torrent, the day of regretting will not come anymore. It is very economical that you just spend 20 or 30 hours then you have the C-CPI-2506 certificate in your hand, which is typically beneficial for your career in the future.

SAP Certified Associate - Integration Developer Sample Questions (Q51-Q56):

NEW QUESTION # 51
What must you do to find out which entity sets are available in the OData V2.0 interface?

- A. Retrieve the service document from the interface.
- B. Search in the Global Directory of all available OData interfaces.
- C. Retrieve the metadata document form the interface.
- D. Contact the OData interface manufacturer

Answer: C

Explanation:
To find out which entity sets are available in the OData V2.0 interface, you must retrieve the metadata document from the interface. The metadata document is an XML document that describes the data model of the OData service, including the entity types, entity sets, associations, functions, and actions. The metadata document can be accessed by appending $metadata to the service root URL of the OData service. For example, if the service root URL is https://services.odata.org/OData/OData.svc/, then the metadata document URL is https://services.odata.org/OData/OData.svc/$metadata. The metadata document can be used to discover the structure and capabilities of the OData service and to generate client code or proxies. Reference: Overview (OData Version 2.0) | OData - The Best Way to REST, OData API v2 Reference | SAP Help Portal

NEW QUESTION # 52
In which of the following must you call getBody() to access the payload in a Groovy script?

- A. header
- B. message
- C. property
- D. camelcontext

Answer: B

Explanation:
To access the payload in a Groovy script, you must use the message object and call the getBody() method on it. The message object represents the current message that is being processed in the integration flow. It has methods to get and set the message body, headers, properties, and attachments. The getBody() method returns the message body as an object of the specified type, such as java.lang.String, java.io.InputStream, or org.w3c.dom.Document. Reference: General Scripting Guidelines | SAP Help Portal, Message | SAP Help Portal

NEW QUESTION # 53
You want to implement a synchronous call to a remote HTTP API as an integration flow component. Which adapter can you use?

- A. AMQP
- B. SFTP
- C. OData
- D. Mail

Answer: C

Explanation:
You can use an OData adapter to implement a synchronous call to a remote HTTP API as an integration flow component. An OData adapter allows you to send and receive messages using the OData protocol. OData stands for Open Data Protocol and is a standard for exposing and consuming data over HTTP or HTTPS. You can use an OData adapter to communicate with OData services that support CRUD (Create, Read, Update, Delete) operations on resources. Reference: Integration Software | SAP Integration Suite, Modernize Integration with SAP Integration Suite | openSAP

NEW QUESTION # 54
You want to set up an SAP backend system through the Cloud Connector with an API provider. Which connection type do you use?

- A. Internet
- B. Cloud Integration
- C. Open Connectors
- D. On-premise

Answer: D

Explanation:
To connect an SAP backend system through the Cloud Connector with an API provider, you must use the on-premise connection type. The Cloud Connector acts as a link between SAP Integration Suite and on-premise systems, enabling secure and controlled access to the backend resources. The on-premise connection type allows you to specify the internal host and port of the backend

system, as well as the virtual host and port that will be exposed to SAP Integration Suite. You can also define access control rules and protocols for the on-premise connection. Reference: Part 2: Connect to on-premise APIs from SAP Cloud Platform API Management Cloud Foundry Environment | SAP Blogs, How to configure SAP Cloud Connector & Create API using SCP API Management | SAP Blogs

NEW QUESTION # 55
You have created an API provider of the type Internet. What http response code indicates success?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: A

Explanation:
The http response code that indicates success is 200. The 200 response code means that the request was successfully processed and the response contains the expected data. Other response codes in the 2xx range also indicate success, but with some variations. For example, 201 means that a resource was created, 202 means that a request was accepted but not completed yet, and 204 means that there is no content in the response. NEW QUESTION # 56
......

It is necessary to strictly plan the reasonable allocation of C-CPI-2506 test time in advance. Many students did not pay attention to the strict control of time during normal practice, which led to panic during the process of examination, and even some of them are not able to finish all the questions. If you purchased C-CPI-2506 learning dumps, each of your mock exams is timed automatically by the system. C-CPI-2506 learning dumps provide you with an exam environment that is exactly the same as the actual exam. It forces you to learn how to allocate exam time so that the best level can be achieved in the examination room. At the same time, C-CPI-2506 Test Question will also generate a report based on your practice performance to make you aware of the deficiencies in your learning process and help you develop a follow-up study plan so that you can use the limited energy where you need it most. So with C-CPI-2506 study tool you can easily pass the exam.
