

# Exam 350-701 Learning - 350-701 Valid Learning Materials

Cisco 350-701 Endpoint Protection and Detection Core Security Data Technology

## 350-701 Valid Mock Exam | Most 350-701 Reliable Questions

The Cisco Valid Learning 350-701 exam materials by offering to their writers, reaching their objectives, and offering them with exam questions. The exam candidate has benefits and gains before choosing any software. They want a platform that includes them and provides to help them prepare for the 350-701 exam.

It can't be denied that online certification is an efficient way for employees to show their skills and 350-701 answers. In order to get more chances, more and more people need to add online points, for example a certification to their resumes. What you need to do first is to choose a right 350-701 exam material, which will save your time and money in the preparation of the 350-701 exam. Our 350-701 latest questions is one of the most useful reviewing 350-701 study training material in our industry, to choose it, and together we will make a brighter future.

### Most 350-701 Reliable Questions, 350-701 Test Quiz

Over the past few years, 350-701 certification can be a valuable investment in your professional career. As it can help you to stand out in a competitive market, more career opportunities, and advancement of your career. To gain all these advantages you just need to invest in the Cisco 350-701 Certification Exam and put all your efforts to pass this challenging 350-701 exam with 80% or more.

### Endpoint Protection & Detection - 15%

• Expanding the size of the attack as well as the role of a multi-factor authentication (MFA) methodology.

350-701 Valid Mock Exam New 350-701 Reliable Questions

2026 Latest Pass4cram 350-701 PDF Dumps and 350-701 Exam Engine Free Share: [https://drive.google.com/open?id=1BgIUgSBem8xP19k\\_iBpvr5uaRgrkK7pj](https://drive.google.com/open?id=1BgIUgSBem8xP19k_iBpvr5uaRgrkK7pj)

In order to adapt to different level differences in users, the 350-701 exam questions at the time of writing teaching materials with a special focus on the text information expression, as little as possible the use of crude esoteric jargon, as much as possible by everyone can understand popular words to express some seem esoteric knowledge, so that more users through the 350-701 Prep Guide to know that the main content of qualification examination, stimulate the learning enthusiasm of the user, arouse their interest in learning.

Cisco 350-701 Exam is a two-hour exam that consists of 90-110 questions. 350-701 exam is available in English and Japanese languages and can be taken in-person or online. It is a challenging exam that requires a deep understanding of Cisco security technologies and their application in real-world scenarios. 350-701 exam assesses the candidate's knowledge in implementing and operating Cisco security solutions like Cisco Identity Services Engine (ISE), Cisco Advanced Malware Protection (AMP), and Cisco Firepower Next-Generation Firewall (NGFW).

## Necessary Prerequisites

In all, there are no mandatory requirements for attempting such an exam. Still, it will be great to have the following skills before registering for the official test:

- Be familiar with TCP/IP and Ethernet networking;
- Should have worked with the Cisco IOS networking facets and the related concepts;
- Be familiar with the fundamentals of security for networks.
- Have proven skills in utilizing the Windows OS;

What do you know about Pass4cram? Have you ever used Pass4cram exam dumps or heard Pass4cram dumps from the people around you? As professional exam material providers in Cisco certification exam, Pass4cram is certain the best website you've seen. Why am I so sure? No website like Pass4cram can not only provide you with the Best 350-701 Practice test materials to pass the test, also can provide you with the most quality services to let you 100% satisfaction.

Cisco 350-701 exam tests the candidate's understanding of security concepts and technologies, as well as their ability to apply them in real-world scenarios. 350-701 exam consists of 90-110 questions and has a duration of 120 minutes. The questions are a combination of multiple-choice, drag-and-drop, and simulation-based formats. 350-701 Exam is available in English and Japanese and can be taken at Pearson VUE test centers globally.

## Cisco Implementing and Operating Cisco Security Core Technologies Sample Questions (Q448-Q453):

### NEW QUESTION # 448

When NetFlow is applied to an interface, which component creates the flow monitor cache that is used to collect traffic based on the key and nonkey fields in the configured record?

- A. records
- B. flow exporter
- C. flow sampler
- D. flow monitor

**Answer: D**

### NEW QUESTION # 449

What is a feature of the open platform capabilities of Cisco DNA Center?

- A. application adapters
- B. domain integration
- C. automation adapters
- D. intent-based APIs

**Answer: D**

Explanation:

Cisco DNA Center is an open and extensible platform that allows third-party applications and processes to exchange data and intelligence with Cisco DNA Center<sup>1</sup>. One of the features of the open platform capabilities of Cisco DNA Center is the intent-based APIs, which enable DNA Center to provide automation to applications<sup>2</sup>. Intent-based APIs allow applications to express their intent or desired outcome, and let DNA Center translate that intent into network configurations and policies<sup>3</sup>. Intent-based APIs simplify the interaction between applications and the network, and enable faster and more consistent service delivery.

1: Cisco DNA Center 2.3.5 Data Sheet - Cisco 2: Intent-Based Networking's Next Evolution: The DNA Center Platform - Cisco Blogs 3: Unlocking the Power of Open Platforms with Cisco DNA Center Platform

### NEW QUESTION # 450

A customer has various external HTTP resources available including Intranet Extranet and Internet, with a proxy configuration running in explicit mode. Which method allows the client desktop browsers to be configured to select when to connect direct or when to use the proxy?

- A. Transport mode
- B. Bridge mode
- C. Forward file
- D. PAC file

**Answer: A**

#### **NEW QUESTION # 451**

An organization is trying to implement micro-segmentation on the network and wants to be able to gain visibility on the applications within the network. The solution must be able to maintain and force compliance. Which product should be used to meet these requirements?

- A. Cisco Umbrella
- B. Cisco Tetration
- C. Cisco Stealthwatch
- D. Cisco AMP

**Answer: B**

Explanation:

Micro-segmentation secures applications by expressly allowing particular application traffic and, by default, denying all other traffic. Micro-segmentation is the foundation for implementing a zero-trust security model for application workloads in the data center and cloud.

Cisco Tetration is an application workload security platform designed to secure your compute instances across any infrastructure and any cloud. To achieve this, it uses behavior and attribute-driven microsegmentation policy generation and enforcement. It enables trusted access through automated, exhaustive context from various systems to automatically adapt security policies. To generate accurate microsegmentation policy, Cisco Tetration performs application dependency mapping to discover the relationships between different application tiers and infrastructure services. In addition, the platform supports "what-if" policy analysis using real-time data or historical data to assist in the validation and risk assessment of policy application pre-enforcement to ensure ongoing application availability. The normalized microsegmentation policy can be enforced through the application workload itself for a consistent approach to workload microsegmentation across any environment, including virtualized, bare-metal, and container workloads running in any public cloud or any data center. Once the microsegmentation policy is enforced, Cisco Tetration continues to monitor for compliance deviations, ensuring the segmentation policy is up to date as the application behavior change.

Micro-segmentation secures applications by expressly allowing particular application traffic and, by default, denying all other traffic. Micro-segmentation is the foundation for implementing a zero-trust security model for application workloads in the data center and cloud.

Cisco Tetration is an application workload security platform designed to secure your compute instances across any infrastructure and any cloud. ### NEW QUESTION # 452

Which network monitoring solution uses streams and pushes operational data to provide a near real-time view of activity?

- A. SMTP
- B. SNMP
- C. model-driven telemetry
- D. syslog

**Answer: C**

Explanation:

Explanation/Reference: <https://developer.cisco.com/docs/ios-xe/#!streaming-telemetry-quick-start-guide>
