Splunk Enterprise Certified Architect Sample Questions (Q145-Q150):

NEW QUESTION # 145

Which of the following should be done when installing Enterprise Security on a Search Head Cluster? (Select all that apply.)

- A. Install Enterprise Security on the deployer.
- B. Install Enterprise Security on a staging instance.
- C. Use the deployer to deploy Enterprise Security to the cluster members.
- D. Copy the Enterprise Security configurations to the deployer.

Answer: A,C

NEW QUESTION # 146

Which search head cluster component is responsible for pushing knowledge bundles to search peers, replicating configuration changes to search head cluster members, and scheduling jobs across the search head cluster?

- A. Deployer

- B. Deployment server
- **C. Captain**
- D. Master

Answer: C

Explanation:

Explanation/Reference: <https://docs.splunk.com/Documentation/Splunk/7.3.2/DistSearch/SHCArchitecture>

NEW QUESTION # 147

A Splunk instance has the following settings in `SPLUNK_HOME/etc/system/local/server.conf`:

`[clustering]`

`mode = master`

`replication_factor = 2`

`pass4SymmKey = password123`

Which of the following statements describe this Splunk instance? (Select all that apply.)

- **A. This Splunk instance needs to be restarted.**
- B. This is a multi-site cluster.
- **C. This cluster's search factor is 2.**
- D. This instance is missing the `master_uri` attribute.

Answer: A,C

NEW QUESTION # 148

A monitored log file is changing on the forwarder. However, Splunk searches are not finding any new data that has been added.

What are possible causes? (select all that apply)

- A. The first 256 bytes of the monitored file are not changing.
- **B. The last 256 bytes of the monitored file are not changing.**
- **C. An admin has removed the Splunk fishbucket on the forwarder.**
- D. An admin ran `splunk clean eventdata -index <indexname>` on the indexer.

Answer: B,C

Explanation:

A monitored log file is changing on the forwarder, but Splunk searches are not finding any new data that has been added. This could be caused by two possible reasons:

B: An admin has removed the Splunk fishbucket on the forwarder.

C: The last 256 bytes of the monitored file are not changing. Option B is correct because the Splunk fishbucket is a directory that stores information about the files that have been monitored by Splunk, such as the file name, size, modification time, and CRC checksum. If an admin removes the fishbucket, Splunk will lose track of the files that have been previously indexed and will not index any new data from those files. Option C is correct because Splunk uses the CRC checksum of the last 256 bytes of a monitored file to determine if the file has changed since the last time it was read. If the last 256 bytes of the file are not changing, Splunk will assume that the file is unchanged and will not index any new data from it. Option A is incorrect because running the `splunk clean eventdata -index <indexname>` command on the indexer will delete all the data from the specified index, but it will not affect the forwarder's ability to send new data to the indexer. Option D is incorrect because Splunk does not use the first 256 bytes of a monitored file to determine if the file has changed.

NEW QUESTION # 149

Which of the following statements describe licensing in a clustered Splunk deployment? (Select all that apply.)

- A. Free licenses do not support clustering.
- B. Each cluster member requires its own clustering license.
- **C. Replicated data does not count against licensing.**
- **D. Cluster members must share the same license pool and license master.**

Answer: C,D

NEW QUESTION # 150

.....

The immediate downloading feature of our SPLK-2002 Certification guide is an eminent advantage of our products. Once the pay is done, our customers will receive an e-mail from our company. There is a linkage given by our e-mail, and people can begin their study right away after they have registered in. Our SPLK-2002 exam braindumps are available for downloading without any other disturbing requirements as long as you have paid successfully, which is increasingly important to an examinee as he or she has limited time for personal study. Therefore, our Splunk Enterprise Certified Architect guide torrent is attributive to high-efficient learning.

Valid SPLK-2002 Test Pattern: https://www.prep4pass.com/SPLK-2002_exam-braindumps.html
