PECB Certified EMS ISO 14001 Lead Auditor Exam 認定 ISO-14001-Lead-Auditor 試験問題 (Q18-Q23):

質問 # 18

Considering the requirements of clauses 6.1.2 and 6.1.4 of ISO 14001:2015, put the actions in the correct order to complete a process/task.

1. Determine environmental impacts

1.

2.

3.

4.

5. Plan actions to be taken

6. Determine how to evaluate the effectiveness of the actions taken

To complete the sequence click on the blank section you want to complete so it is highlighted in red and then click on the applicable text from the options below. Alternatively, drag and drop the options to the appropriate blank section.

Establish criteria to determine the significance of impacts

Determine environmental aspects

Determine which impacts are significant

Determine which aspects are significant

正解:

解説:

1. Determine environmental impacts

2. Determine environmental aspects

3. Establish criteria to determine the significance of impacts

4. Determine which impacts are significant

5. Determine which aspects are significant

6. Plan actions to be taken

7. Determine how to evaluate the effectiveness of the actions taken

To complete the sequence click on the blank section you want to complete so it is highlighted in red and then click on the applicable text from the options below. Alternatively, drag and drop the options to the appropriate blank section.

Establish criteria to determine the significance of impacts

Determine environmental aspects

Determine which impacts are significant

Determine which aspects are significant

Explanation:

Question NO: 1

Considering the requirements of clauses 6.1.2 and 6.1.4 of ISO 14001:2015, put the actions in the correct order to complete a process/task.

1. Determine environmental impacts

2. Determine environmental aspects

3. Establish criteria to determine the significance of impacts

4. Determine which aspects are significant

5. Determine which impacts are significant

6. Plan actions to be taken

7. Determine how to evaluate the effectiveness of the actions taken

To complete the sequence click on the blank section you want to complete so it is highlighted in red and then click on the applicable text from the options below. Alternatively, drag and drop the options to the appropriate blank section.

Establish criteria to determine the significance of impacts

Determine environmental aspects

Determine which impacts are significant

Determine which aspects are significant

Determine environmental aspects

Determine environmental impacts

Establish criteria to determine the significance of impacts

Determine which impacts are significant

Determine which aspects are significant

Plan actions to be taken

Determine how to evaluate the effectiveness of the actions taken

According to ISO 14001:2015 clause 6.1.2 (Environmental Aspects), an organization must determine the environmental aspects of its activities, products, and services that it can control and influence, and their associated environmental impacts.

Once identified, the organization shall:

Determine the aspects that can have significant impact on the environment using established criteria for evaluating significance.

(Reference: ISO 14001:2015, clause 6.1.2) Then, as per clause 6.1.4 (Planning action), the organization needs to:

Plan actions to address significant environmental aspects, legal requirements, and risks/opportunities.

Determine how to evaluate the effectiveness of these actions to ensure continual improvement.

This logical sequence ensures a structured and risk-based approach to identifying and managing environmental impacts.

Reference: ISO 14001:2015 - Clause 6.1.2 and 6.1.4

質問 # 19

What are the primary purposes of implementing an EMS based on ISO 14001:2015? Select two.

- A. It is used to demonstrate to external parties that the organisation has met all its legal requirements.
- B. It enables the organisation to tender for government-funded contracts.
- **C. It provides a means by which environmental impacts are addressed at relevant stages of the life cycle.**
- D. It improves the organisation's financial results.
- **E. It provides a framework for protecting the environment.**
- F. It ensures that organisations operate fully online management systems.

正解: C、E

解説:

According to ISO 14001:2015 Clause 1 (Scope) and Clause 6.1.2:

Clause 1:

"The purpose of this International Standard is to provide organizations with a framework to protect the environment and respond to changing environmental conditions in balance with socio-economic needs." Clause 6.1.2:

"The organization shall determine the environmental aspects of its activities, products and services that it can control and influence, considering a life cycle perspective." Demonstrating legal compliance (B) is part of the intended outcomes but not the primary purpose.

Tender eligibility (C), financial results (E), and system format (F) are not stated objectives of ISO 14001:2015.

Reference: ISO 14001:2015 Clauses 1, 6.1.2.

質問 # 20

You are leading a recertification audit of XM, a manufacturer of cosmetics products. After the initial certification, XM moved to another site.

After the opening meeting, you are visiting the new site with the production manager (PM). The dialogue is as follows:

You: It seems that you are doing some work in the right-hand corner of the site.

PM: Yes, when we moved to this site, there was a very old, three-stories high building; it was almost empty, and we decided to demolish it and to build a new office for the administrative personnel. DEMO services are doing the job, which is almost over.

You: Do you know what the old building was used for?

PM: I was told that it was a warehouse for chemical storage, including a laboratory and toilets for the personnel. It had also a chimney, I do not know what for.

You: Did you consider it necessary to refer to some parts of the EMS for this work?

PM: No, we were busy moving all equipment and materials to the new site, we did not have time to care about something that was going to disappear.

Which four audit trail issues would you follow?

- A. DEMO's environmental policy
- B. Business information on DEMO
- C. DEMO's quality policy
- D. Audit DEMO's head office personnel

- E. XM's contract with DEMO to conduct the work
- F. XM's supervision of DEMO when doing the work
- G. Regulatory approval for DEMO's activities
- H. Environmental impacts related to the demolition

正解: E、F、G、H

解説:

According to ISO 14001:2015:

Clause 6.1.2 & 6.1.4 (Environmental aspects and planning actions): demolition impacts must be identified and controlled (C).

Clause 8.1 (Operational planning and control): control of outsourced processes (supervision and contract requirements) (B, E).

Clause 9.1.2 (Compliance obligations): regulatory approvals for demolition (H).

The subcontractor's internal policies (A, D, F, G) are generally not part of XM's EMS obligations.

Reference: ISO 14001:2015 Clauses 6.1.2, 6.1.4, 8.1, 9.1.2.

質問 # 21

ABC is a large lubricant oils manufacturer located in country A. Due to tax exemption and other economic issues, they decided to move the whole plant to a neighbouring country B. They moved every single piece of the plant (equipment, systems); the new plant has the same layout, the same dimensions, the same suppliers of raw materials and the same customers. Even more, most personnel accepted to move to country B.

They operate a third-party certified EMS; the certificate was transferred to the new plant after a half-day audit from the certification body. You are auditing ABC's EMS in the new location, representing ABC's largest customer. When interviewing the Environmental Manager (EM), you ask:

You: Can I see the plan you developed to keep under control the impact of the EMS due to the change of site?

EM: We listed all elements and processes of the EMS that might need to be changed and selected those that we considered needed a careful review and probably a revision.

Below you will find that list; select six that you consider will need to be revised.

- A. Maintenance of infrastructure
- B. Personnel competence
- C. Significant environmental aspects
- D. Environmental conditions
- E. Roles and their responsibilities
- F. Requirements ABC chooses to comply with
- G. Legal requirements
- H. ABC's Environmental policy
- I. External issues related to the context of the organisation
- J. Process for assessing risks
- K. Emergencies from external conditions

正解: B、C、D、G、I、K

質問 # 22

A multi-level shopping centre is open every day to the public from 09:00-21:00 hours. During an external audit of the centre to ISO 14001, you establish that there are 40 vending machines that are permanently switched on. Thirty of them do not sell perishable foodstuffs. You also note that there are eight escalators in the complex that run constantly during public access. When asked about environmental performance improvement objectives, the Centre Manager says that there are plans to increase the natural daylight by installing more skylights thus saving on lighting costs, but the estimated budget for this has not yet been approved by the board.

You: I note that energy consumption is a significant environmental aspect in the centre. How do you mitigate the impacts of this?

EMS Manager: We try to reduce our energy costs by negotiating a better deal from the energy company. We are considering changing to one that only supplies electricity from renewable sources.

You: What steps have you taken to reduce overall consumption?

EMS Manager: We conducted awareness training for staff. For example, turning off lights in staff areas not being used.

You: I see that the escalators account for the highest usage of energy. Are there any objectives to try and reduce this?

EMS Manager: No, it would be too costly to change them.

You: How do you measure electricity consumption?

EMS Manager: We have meters installed in each floor of the centre. We take readings every hour and we plot the consumption graph for every staff shift.

You continue the interview and find that energy consumption has increased steadily over the past five years.
Select the two statements that are true.

- A. The vending machines are switched on permanently.
- B. The organisation should take action to address its energy consumption.
- C. The escalators are switched on permanently.
- D. The centre staff are responsible for energy consumption in the staff areas.
- E. The Centre Manager is trained in energy awareness.
- F. The organisation's energy supplier sources renewable energy.

正解: A、B
