You can try the demo version of CrowdStrike Certified Falcon Hunter (CCFH-202b) practice dumps before payment.

CrowdStrike Certified Falcon Hunter Sample Questions (Q61-Q66):

NEW QUESTION # 61

What information is provided when using IP Search to look up an IP address?

- A. Suspicious IP addresses
- B. Internal IPs only
- C. Both internal and external IPs
- D. External IPs only

Answer: D

Explanation:

IP Search is an Investigate tool that allows you to look up information about external IPs only. It shows information such as geolocation, network connection events, detection history, etc. for each external IP address that has communicated with your hosts.

It does not show information about internal IPs, suspicious IPs, or both internal and external IPs.

NEW QUESTION # 62

Which document provides information on best practices for writing Splunk-based hunting queries, predefined queries which may be customized to hunt for suspicious network connections, and predefined queries which may be customized to hunt for suspicious processes?

- A. Real Time Response and Network Containment
- B. Events Data Dictionary
- C. Incident and Detection Monitoring
- **D. Hunting and Investigation**

Answer: D

Explanation:

The Hunting and Investigation document provides information on best practices for writing Splunk-based hunting queries, predefined queries which may be customized to hunt for suspicious network connections, and predefined queries which may be customized to hunt for suspicious processes. As explained above, the Hunting and Investigation document is a guide that provides sample hunting queries, select walkthroughs, and best practices for hunting with Falcon. The other documents do not provide the same information.

NEW QUESTION # 63

What is the difference between a Host Search and a Host Timeline?

- A. You access a Host Search from a detection to show you every recorded process event related to the detection and you can only populate the Host Timeline fields manually
- **B. A Host Search organizes the data in useful event categories like process executions and network connections, a Host Timeline provides an uncategorized view of recorded events in chronological order**
- C. There is no difference. You just get to them different ways
- D. Host Search is used for detection investigation and Host Timeline is used for proactive hunting

Answer: B

Explanation:

This is the difference between a Host Search and a Host Timeline. A Host Search is an Investigate tool that allows you to view events by category, such as process executions, network connections, file writes, etc. A Host Timeline is an Investigate tool that allows you to view all events in chronological order, without any categorization. Both tools can be used for detection investigation and proactive hunting, depending on the use case and preference. You can access a Host Search from a detection or manually enter the host details. You can also populate the Host Timeline fields manually or from other pages in Falcon.

NEW QUESTION # 64

Which SPL (Splunk) field name can be used to automatically convert Unix times (Epoch) to UTC readable time within the Falcon Event Search?

- A. time
- B. conv_time
- C. utc_time
- **D. _time**

Answer: D

Explanation:

`_time` is the SPL (Splunk) field name that can be used to automatically convert Unix times (Epoch) to UTC readable time within the Falcon Event Search. It is a default field that shows the timestamp of each event in a human-readable format. `utc_time`, `conv_time`, and `time` are not valid SPL field names for converting Unix times to UTC readable time.

NEW QUESTION # 65

Which pre-defined reports offer information surrounding activities that typically indicate suspicious activity occurring on a system?

- A. Sensor reports
- B. Timeline reports
- C. Scheduled searches
- **D. Hunt reports**

Answer: D

Explanation:

Hunt reports are pre-defined reports that offer information surrounding activities that typically indicate suspicious activity occurring on a system. They are based on common threat hunting use cases and queries, and they provide visualizations and summaries of the results. Hunt reports can help threat hunters quickly identify and investigate potential threats in their environment.

NEW QUESTION # 66

.....

We provide free PDF demo for each exam. This free demo is a small part of the official complete CrowdStrike CCFH-202b training dumps. The free demo can show you the quality of our exam materials.
