NEW QUESTION # 357

You are implementing a solution for an animal hospital.

The animal hospital must contact owners regarding their pets.

You need to model the owner and pet object information by using Microsoft Dataverse. The solution must minimize the amount of customization required:

- * owner first name
- * owner last name
- * owner email address
- * owner date of birth
- * pet name
- * pet breed
- * pet owner

Which component should you use? To answer, drag the appropriate components to the correct data. Each component may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content. NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

Answer Area

 Microsoft
Data
The owner object
The pet object
The owner's email address
Reference a pet record as belonging to an owner record
