- ✓ Up to Date products, reliable and verified.
- ✓ Questions and Answers in PDF Format.

What's more, part of that ExamsReviews OGEA-101 dumps now are free: <https://drive.google.com/open?id=1IPMA0puByK3ndE9fKQDht14PNy8XqaJI>

ExamsReviews is unlike other similar platforms, our OGEA-101 real test can be downloaded for free trial before purchase, which allows you to understand our sample questions and software usage. It will also enable you to make a decision based on your own needs and will not regret. And we have organized a group of professionals to revise our OGEA-101 Preparation materials. The simple and easy-to-understand language of OGEA-101 guide torrent frees any learner from studying difficulties, whether for students or office workers. And the pass rate of our OGEA-101 exam questions is as high as 99% to 100%.

The Open Group OGEA-101 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Fundamental Concepts of Enterprise Architecture: This topic covers the definition, purpose, and benefits of enterprise architecture, emphasizing its role in aligning business objectives with IT strategies. It measures the understanding of TOGAF practitioners about foundational principles essential for effective enterprise architecture practice, crucial for passing the OGEA-101 exam.
Topic 2	<ul style="list-style-type: none">• Architecture Vision: Aspiring TOGAF practitioners learn to develop an architecture vision that aligns with business goals and drivers. This topic evaluates the skills in articulating a clear and compelling vision, a necessary competency for successfully navigating the OGEA-101 exam and implementing enterprise architecture.

Topic 3	<ul style="list-style-type: none"> • ADM Phase Requirements: This topic of the TOGAF Enterprise Architecture Part 1 exam focuses on the specific requirements for each ADM phase, including stakeholder identification and architecture scope definition. It measures the ability of aspiring TOGAF Practitioner to apply these requirements in real-world scenarios.
Topic 4	<ul style="list-style-type: none"> • Architecture Governance: This topic of The Open Group OGEA-101 Exam covers the governance framework and responsibilities of architecture boards. It evaluates the skills of TOGAF practitioners in establishing governance structures.
Topic 5	<ul style="list-style-type: none"> • Business Architecture: This topic of The Open Group OGEA-101 exam emphasizes the development of business architecture, including baseline and target architectures. It measures the understanding of TOGAF practitioners about business capabilities and processes.

Valid Braindumps OGEA-101 Ppt - OGEA-101 Exam Papers

ExamsReviews is the website that has been known to learn IT technology. ExamsReviews gets high praise from our customers in real test questions and answers. It is the real website that can help you to pass The Open Group OGEA-101 certificate. Why is ExamsReviews very popular? Because ExamsReviews has a group of IT elite which is committed to provide you with the best test questions and test answers. Therefore, ExamsReviews will provide you with more and better certification training materials to satisfy your need.

The Open Group TOGAF Enterprise Architecture Part 1 Exam Sample Questions (Q153-Q158):

NEW QUESTION # 153

Complete the following sentence. In the ADM documents which are under development and have not undergone any formal review and approval process are _____.

- A. Called "draft"
- B. Invalid
- C. Known as "Version 0.1"
- D. In between phases

Answer: A

Explanation:

In the ADM documents which are under development and have not undergone any formal review and approval process are called "draft". This indicates that they are subject to change and refinement as the architecture development progresses. Reference: The TOGAF Standard | The Open Group Website, Section 4.2.5 Architecture Deliverables.

NEW QUESTION # 154

Refer to the table below:

Phase	Output & Outcome	Essential Knowledge
?	Completion of the projects to implement the changes necessary to reach the adjusted target state.	Purpose and constraints on the implementation team. (Gap, Architecture Requirement Specification, Control) How stakeholder priority and preference adjust in response to success, value, effort, and risk of change. (Stakeholder Requirements)

Which ADM Phase does this describe?

- A. Phase F
- **B. Phase G**
- C. Phase E
- D. Phase A

Answer: B

Explanation:

The table describes the output, outcome, and essential knowledge of an ADM phase that oversees the implementation of changes necessary to reach the adjusted target state. This corresponds to Phase G, also known as Implementation Governance, which ensures that the architecture defined in earlier phases is realized, and it oversees the development and implementation of projects to align with this architecture. The essential knowledge required during this phase includes understanding constraints on the implementation team and adjusting stakeholder priority and preference in response to success, value, effort, and risk of change.

NEW QUESTION # 155

In which part of the ADM cycle do building block gaps become associated with work packages that will address the gaps?

- **A. Phase E**
- B. Phases G and H
- C. Phases F
- D. Phases B C and D

Answer: A

Explanation:

The TOGAF ADM uses Gap Analysis during Phases B, C, and D (Business, Information Systems, and Technology Architectures) to identify building block gaps—the differences between the Baseline Architecture and the Target Architecture. However, simply identifying gaps does not complete the process.

The association of gaps with work packages happens later in the cycle:

* Phase E: Opportunities and Solutions is where the identified gaps are analyzed and translated into work packages, projects, or initiatives that will deliver the required changes.

* In Phase E, architects also determine whether Transition Architectures are needed, and they generate the initial Architecture Roadmap.

* This is the phase where gaps become actionable, linked with specific work packages that can be executed to close them. Phase F (Migration Planning) takes this further by finalizing the roadmap and building the detailed Implementation and Migration Plan, but the initial association of gaps with work packages occurs in Phase E.

NEW QUESTION # 156

Which of the following best summarizes the purpose of Enterprise Architecture?

- A. Governing the Stakeholders.
- **B. Guiding effective change.**

- C. Taking major improvement decisions.
- D. Controlling the bigger changes.

Answer: B

Explanation:

EA applies architecture principles and practices to analyze, design, plan, and implement enterprise analysis that supports digital transformation, IT growth, and the modernization of IT². EA also helps organizations improve the efficiency, timeliness, and reliability of business information, as well as the alignment, agility, and adaptability of the architecture to the changing needs and requirements³. Therefore, the best summary of the purpose of EA is to guide effective change.

NEW QUESTION # 157

Which of the following is a responsibility of an Architecture Board?

- **A. Establishing targets for re-use of components**
- B. Conducting assessments of the maturity level of architecture discipline within the organization
- C. Creating the Statement of Architecture Work
- D. Allocating resources for architecture projects

Answer: A

Explanation:

* An Architecture Board is an executive-level group responsible for the review and maintenance of the strategic architecture and all of its sub-architectures¹. It is a key element in a successful Architecture Governance strategy².

* An Architecture Board is typically made responsible, and accountable, for achieving some or all of the following goals²:

oProviding the basis for all decision-making with regard to the architectures
oConsistency between sub-architectures
oEstablishing targets for re-use of components
oFlexibility of the Enterprise Architecture: To meet changing business needs To leverage new technologies
oEnforcement of Architecture Compliance
oImproving the maturity level of architecture discipline within the organization
oEnsuring that the discipline of architecture-based development is adopted
oSupporting a visible escalation capability for out-of-bounds decisions

* Therefore, the correct answer is option D, which captures one of the goals of an Architecture Board as stated in the TOGAF Standard, Version 9.2².

* Option A is incorrect, because conducting assessments of the maturity level of architecture discipline within the organization is not a direct responsibility of an Architecture Board, but rather a part of the Architecture Capability Framework³.

* Option B is incorrect, because allocating resources for architecture projects is not a direct responsibility of an Architecture Board, but rather a part of the Architecture Governance Framework⁴.

* Option C is incorrect, because creating the Statement of Architecture Work is not a direct responsibility of an Architecture Board, but rather a part of the Architecture Development Method⁵. Reference:

* 1: Architecture Board - The Open Group³

* 2: TOGAF Standard, Version 9.2 - Part VI: Architecture Governance Framework - Architecture Board

* 3: TOGAF Standard, Version 9.2 - Part VI: Architecture Governance Framework - Architecture Capability Framework

* 4: TOGAF Standard, Version 9.2 - Part VI: Architecture Governance Framework - Architecture Governance Framework

* 5: TOGAF Standard, Version 9.2 - Part II: Architecture Development Method - Phase A: Architecture Vision

NEW QUESTION # 158

.....

Actually, most people do not like learning the boring knowledge. It is hard to understand if our brain rejects taking the initiative.

Now, our company has researched the OGEA-101 practice guide, a kind of high efficient learning tool. Firstly, we have deleted all irrelevant knowledge, which decreases your learning pressure. Secondly, the displays of the OGEA-101 Study Materials are varied to cater to all fo your different study interest and hobbies. It is interesting to study with our OGEA-101 exam questions.
