## Quiz Salesforce - Valid JS-Dev-101 - Clear Salesforce Certified JavaScript Developer - Multiple Choice Exam

We have applied the latest technologies to the design of our JS-Dev-101 exam prep not only on the content but also on the displays. As a consequence you are able to keep pace with the changeable world and remain your advantages with our JS-Dev-101 training braindumps. Besides, you can consolidate important knowledge for you personally and design customized study schedule or to-do list on a daily basis. As long as you follow with our JS-Dev-101 Study Guide, you are doomed to achieve your success.

## Salesforce Certified JavaScript Developer - Multiple Choice Sample Questions (Q133-Q138):

### NEW QUESTION # 133

Given the code below:

```
Setcurrent URL ();  
console.log('The current URL is: ' +url );  
functionsetCurrentUrl() {  
Url = window.location.href  
}
```

What happens when the code executes?

- A. The url variable has global scope and line 02 throws an error.
- **B. The url variable has global scope and line 02 executes correctly.**
- C. The url variable has local scope and line 02 throws an error.
- D. The url variable has local scope and line 02 executes correctly.

**Answer: B**

### NEW QUESTION # 134

A developer wants to use a try...catch statement to catch any error that countSheep() may throw and pass it to a handleError() function.

What is the correct implementation of the try...catch?

- A. 

```
try {  
  countSheep();  
} finally {  
  handleError(e);  
}
```
- **B. 

```
setTimeout(function() {  
  try {  
    countSheep();  
  } catch (e) {  
    handleError(e);  
  }  
}, 1000);
```**
- C. 

```
try {  
  countSheep();  
} handleError (e){  
  catch(e);  
}
```
- D. 

```
try {  
  setTimeout(function() {  
    countSheep();  
  }, 1000);  
} catch (e) {  
  handleError(e);  
}
```

**Answer: B**

Explanation:

Comprehensive and Detailed

Errors thrown inside setTimeout callbacks occur asynchronously, in a different tick of the event loop. A try...catch around setTimeout itself (as in D) cannot catch errors thrown later in the scheduled callback.

To catch errors from countSheep() when it's called asynchronously, the try...catch must wrap the call inside the timeout callback:

```
setTimeout(function() {  
  try {  
    countSheep();  
  } catch (e) {  
    handleError(e);  
  }  
})
```

```
handleError(e);
}
}, 1000);
```

B uses finally incorrectly and references e out of scope.

C is not valid JavaScript syntax.

D's catch can only handle synchronous errors thrown before setTimeout returns, not those thrown inside the callback.

---

### NEW QUESTION # 135

Refer to the code below:

```
Let str = 'javascript';
```

```
Str[0] = 'J';
```

```
Str[4] = 'S';
```

After changing the string indexvalues, the value of str is 'javascript'. What is the reason for this value:

- A. Non-primitive values are immutable.
- B. Non-primitive values are mutable.
- C. Primitive values are mutable.
- **D. Primitive values are immutable.**

**Answer: D**

### NEW QUESTION # 136

Refer to code below:

```
Let first = 'who';
```

```
Let second = 'what';
```

```
Try{
```

```
Try{
```

```
Throw new error('Sad trombone');
```

```
} catch (err){
```

```
First ='Why';
```

```
} finally {
```

```
Second ='when';
```

```
} catch (err) {
```

```
Second ='Where';
```

```
}
```

What are the values for first and second once the code executes ?

- A. First is Who and second is When
- **B. First is why and second is when**
- C. First is why and second is where
- D. First is who and second is where

**Answer: B**

### NEW QUESTION # 137

developer uses the code below to format a date.

After executing, what is the value of formattedDate?

- A. May 10, 2020
- **B. June 10, 2020**
- C. October 05, 2020
- D. November 05, 2020

**Answer: B**

## NEW QUESTION # 138

.....

Our JS-Dev-101 practice tests have established impressive recognition throughout the industry, diversified modes of learning enables the JS-Dev-101 exam candidates to capture at the real exam scenario. Tremendous quality of our JS-Dev-101 products makes the admirable among the professionals. Our practice tests are on demand, attending the needs of JS-Dev-101 Exams more comprehensively and dynamically as well. Lift up your learning tendency with Prep4pass practice tests training. Conceptual understanding matters the most for your success, technical excellence is certain with Prep4pass training as our experts keep it on high priority.
