問題 #157

What is the primary function of the 'Contact Washing Machine' in Oracle Eloqua?

- **A. Cleaning and maintaining contact data hygiene**
- B. Segmentation of contacts based on specific criteria
- C. Importing contacts from external sources
- D. Automating lead nurturing campaigns

答案：A

解題說明：

The Contact Washing Machine is a feature in Oracle Eloqua that helps clean and maintain the hygiene of contact data. It can be used to remove duplicates, standardize data formats, validate email addresses, and perform other data cleansing operations to ensure the accuracy and quality of your contact database.

問題 #158

How does closed-loop reporting benefit marketers in Oracle Eloqua?

- A. It enables real-time A/B testing of email content
- **B. It provides insights into the ROI of marketing campaigns**
- C. It streamlines the lead nurturing process
- D. It automates the creation of landing pages

答案： B

解題說明：

Closed-loop reporting in Oracle Eloqua allows marketers to measure the return on investment (ROI) of their marketing campaigns. By tracking leads from initial engagement to final conversion, marketers can determine which campaigns and activities are generating the most revenue. This information enables them to make data-driven decisions, optimize their marketing strategies, and allocate resources more effectively.

問題 #159

What are the major milestones and key deliverables of the available implementation offerings for Oracle Eloqua Marketing 2023?

- A. User acceptance testing, System integration, Lead scoring implementation, Email template creation, Performance measurement
- B. Project planning, Data migration, Campaign creation, Reporting and analysis, Optimization
- C. Data cleansing, Marketing automation setup, Lead nurturing implementation, CRM integration, Performance monitoring
- **D. Requirement gathering, System design, Installation and configuration, Training, Testing, Go-live**

答案： D

解題說明：

The major milestones and key deliverables of the available implementation offerings for Oracle Eloqua Marketing 2023 include the following steps: - Requirement gathering: This involves understanding the specific needs and goals of the client or organization. - System design: This includes designing the architecture and functionality of the Oracle Eloqua Marketing system based on the gathered requirements. - Installation and configuration: This step involves setting up and configuring the Oracle Eloqua Marketing software and its components. - Training: This is the process of providing training to the users, administrators, and stakeholders on how to use and manage the Oracle Eloqua Marketing system. - Testing: This involves testing the system for functionality, performance, and compatibility. - Go-live: This is the final step of the implementation process, where the Oracle Eloqua Marketing system is launched and made available for use. Option B (Project planning, Data migration, Campaign creation, Reporting and analysis, Optimization) includes some activities that may be part of the implementation process, but it does not cover all the major milestones and key deliverables. Option C (User acceptance testing, System integration, Lead scoring implementation, Email template creation, Performance measurement) includes some important activities, but it does not cover all the major milestones and key deliverables. Option D (Data cleansing, Marketing automation setup, Lead nurturing implementation, CRM integration, Performance monitoring) includes some relevant activities, but it does not cover all the major milestones and key deliverables.

問題 #160

What is the purpose of using seed lists in Oracle Eloqua?

- A. To tag contacts based on their interests and behaviors for targeted messaging
- B. To exclude certain contacts from receiving a specific campaign
- **C. To test email deliverability and rendering across different email clients and devices**
- D. To designate specific contacts as the primary recipients of a campaign

答案： C

解題說明：

Seed lists in Oracle Eloqua are typically used to test email deliverability and rendering across different email clients and devices. By including seed contacts in the lists, marketers can ensure that the emails are displayed correctly and reach the recipients' inboxes as intended.

問題 #161

Which statement accurately describes the subscription and preference management options available within Eloqua?

- A. Subscription and preference management options within Eloqua allow marketers to automatically manage subscriber preferences and send targeted communications.
- B. Eloqua offers limited subscription and preference management options through third-party integrations.
- C. Subscription and preference management options in Eloqua can only be accessed by advanced users with a separate subscription.
- D. Eloqua does not offer any subscription or preference management options.

答案：A

解題說明：

Eloqua provides built-in subscription and preference management options that allow marketers to collect and manage subscriber preferences. These options allow marketers to automate subscriber management and ensure that they receive targeted and relevant communications based on their preferences. The subscription and preference management options are an essential feature of Eloqua that enables marketers to enhance subscriber engagement and deliver personalized experiences.
