## HPE0-J68 Practice Exams | Latest HPE0-J68 Exam Experience

There are three versions for HPE0-J68 exam braindumps, all three have free demo for you to have a try. HPE0-J68 PDF materials are printable, and instant download. HPE0-J68 Software engine offer you the real test environment for you, it supports MS operating system and has two modes for practice, it can also change the order of the HPE0-J68 Training Materials, so that you can perform well in the real exam. HPE0-J68 Online test engine have the test history and performance review.

## HPE Storage Solutions Sample Questions (Q296-Q301):

### NEW QUESTION # 296

Which functionality available in an HPE 3 Par StoreServ 8400 system that is not available in an HPE 3par Storesrv 7200

- A. Persistent Checksum end-to-end data integrity (correct)
- B. Data at Rest Encryption
- C. Adaptive optimization and dynamic Optimization
- D. Online import license

Answer: A

### NEW QUESTION # 297

A customer is evaluating an HPE 3PAR StoreServ system in a proof-of-concept project. The customer wants to receive emails about important storage system events and alerts.

What feature do you need to configure?

- A. Real-time Alert Processing

- B. Local Notification Service
- C. HPE OneView integration
- D. Secure Service Agent

**Answer: B**

#### NEW QUESTION # 298

How does the HPE StoreVirtual VSA storage platform scale performance and capacity?

- A. recreates storage pools on multiple devices
- B. eliminates the need for storage controllers
- C. enables access through multiple protocols
- D. aggregates all resources into a single storage pool

**Answer: D**

Explanation:

The HPE StoreVirtual VSA platform scales performance and capacity by aggregating all resources (storage, compute, and networking) into a single, unified storage pool. This approach allows for seamless scalability as additional resources can be added to the storage pool without disrupting operations. The unified pool of resources ensures that the storage platform can efficiently handle growing workloads and increasing data storage demands.
