**Answer: C,D**

### NEW QUESTION # 11

What can the categories in the service catalog be used for? Note: There are 3 correct answers to this question.

- A. A filter option for the case summary
- B. Business role assignment
- C. Case responsibility determination
- D. To control validity of the service catalog
- E. Service level determination

**Answer: A,C,E**

#### NEW QUESTION # 12

Which of the following are required to grant access to business users? Note: There are 2 correct answers to this question.

- **A. Employee**
- B. Access restriction
- C. Assignment to an organizational unit
- **D. User ID**

**Answer: A,D**

Explanation:

To grant access to business users in SAP Service Cloud V2, a User ID is required to create a user account with login credentials. Additionally, associating the user with an Employee record is necessary to link the user to organizational roles and permissions. According to SAP documentation, "Creating a User ID and linking it to an Employee record are essential steps to grant access to business users." Access restriction (C) is configured via business roles, not a direct requirement. Assignment to an organizational unit (D) is optional and depends on the organizational structure.
