Professional Scrum Master I certification is highly valued by employers as it demonstrates the expertise and commitment of the Scrum Master in delivering successful projects. Professional Scrum Master I certification is also beneficial for professionals who want to advance their career in the field of Scrum and improve their job prospects.

Scrum Professional Scrum Master I Sample Questions (Q206-Q211):

NEW QUESTION # 206

Which two of the following are true about the Scrum Master role? (Choose two.)

- A. The Scrum Master assigns tasks to Development Team members when they need work.
- B. At the Sprint Review, the Scrum Master identifies what has been "done" and what has not been "done".
- **C. The Scrum Master teaches the Development Team to keep the Scrum meetings to their time-box.**
- **D. The Scrum Master helps those outside the team interact with the Scrum Team.**
- E. The Scrum Master is responsible for updating the Sprint Burndown.

Answer: C,D

Explanation:

According to the Scrum Guide 1, the Scrum Master is accountable for establishing Scrum as defined in the Scrum Guide. They do this by helping everyone understand Scrum theory and practice, both within the Scrum Team and the organization. The Scrum Master serves the Developers in several ways, including:

- * Coaching them in self-management and cross-functionality;
- * Helping them to create high-value products;
- * Removing impediments to their progress;
- * Facilitating Scrum events as requested or needed; and,
- * Coaching them in organizational environments in which Scrum is not yet fully adopted and understood.

The Scrum Master serves the Product Owner in several ways, including:

- * Helping find techniques for effective Product Goal definition and Product Backlog management;
- * Helping the Scrum Team understand the need for clear and concise Product Backlog items;
- * Helping establish empirical product planning for a complex environment; and,
- * Facilitating stakeholder collaboration as requested or needed.

The Scrum Master serves the organization in several ways, including:

- * Leading, training, and coaching the organization in its Scrum adoption;
- * Planning and advising Scrum implementations within the organization;
- * Helping employees and stakeholders understand and enact an empirical approach for complex work; and,
- * Removing barriers between stakeholders and Scrum Teams.

Therefore, two things that are true about the Scrum Master role are:

- * The Scrum Master teaches the Development Team to keep the Scrum meetings to their time-box, as they help everyone understand Scrum theory and practice.
- * The Scrum Master helps those outside the team interact with the Scrum Team, as they serve both the Product Owner and the organization.

The other options are not true about the Scrum Master role, as they imply that they have authority or responsibility over things that are not within their accountability.

NEW QUESTION # 207

The Product Owner must release each Increment to production.

- A. Whenever the product is free of defects.
- **B. When it makes sense.**
- C. Without exception.
- D. To make sure the Development Team is done every Sprint.

Answer: B

NEW QUESTION # 208

Who creates the definition of "Done"?

- A. The Scrum Team, in a collaborative effort where the result is the common denominator of all members' definition.
- B. The Product Owner as he/she is responsible for the product's success.
- C. The Scrum Master as he/she is responsible for the Development Team's productivity.
- **D. The development organization (or Development Team if none is available from the development organization).**

Answer: D

Explanation:

According to the Scrum Guide 1 , the definition of "Done" is a formal description of the state of the Increment when it meets the quality measures required for the product. The definition of "Done" is created by the development organization (or Development Team if none is available from the development organization).

The definition guides the Development Team in creating a "Done" Increment.

NEW QUESTION # 209

True or False: A scrum Master Fulfills me same role as a traditional project Manager.

- A. False
- B. True

Answer: A

Explanation:

A Scrum Master fulfills a different role than a traditional project manager, as stated in 2: "A project manager helps manage the project timeline, resources, and scope in order to meet business requirements. A Scrum Master, however, helps ensure the Scrum Team follows Scrum theory, practices, and rules. The Scrum Master is a servant-leader who helps optimize the value created by the Scrum Team."

NEW QUESTION # 210

Which statement best describes a Product Owner's responsibility?

- A. Keeping stakeholders at bay.
- B. Managing the project and ensuring that the work meets the commitments to the stakeholders.
- C. Directing the Development Team
- D. Optimizing the value of the work the Development Team does.

Answer: D

NEW QUESTION # 211
