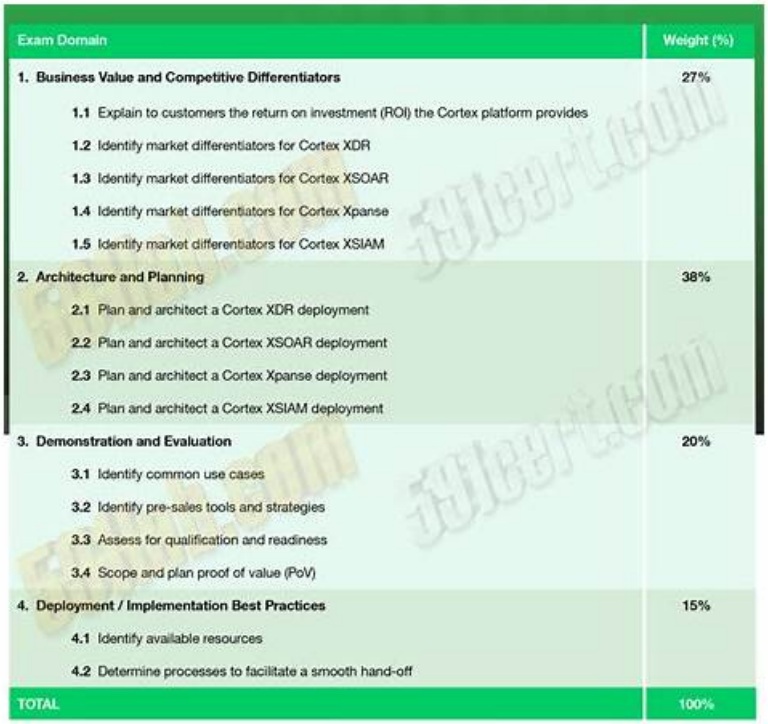
PSE-Cortex-Pro-24 Exam Prep & New PSE-Cortex-Pro-24 Exam Cram



Exam Domain	Weight (%)
1. Business Value and Competitive Differentiators	27%
1.1 Explain to customers the return on investment (ROI) the Cortex platform provides	
1.2 Identify market differentiators for Cortex XDR	
1.3 Identify market differentiators for Cortex XSOAR	
1.4 Identify market differentiators for Cortex Xpanse	
1.5 Identify market differentiators for Cortex XSIAM	
2. Architecture and Planning	38%
2.1 Plan and architect a Cortex XDR deployment	
2.2 Plan and architect a Cortex XSOAR deployment	
2.3 Plan and architect a Cortex Xpanse deployment	
2.4 Plan and architect a Cortex XSIAM deployment	
3. Demonstration and Evaluation	20%
3.1 Identify common use cases	
3.2 Identify pre-sales tools and strategies	
3.3 Assess for qualification and readiness	
3.4 Scope and plan proof of value (PoV)	
4. Deployment / Implementation Best Practices	15%
4.1 Identify available resources	
4.2 Determine processes to facilitate a smooth hand-off	
TOTAL	100%

Now you do not need to worry about the relevancy and top standard of TrainingDumps Palo Alto Networks Systems Engineer Professional - Cortex (PSE-Cortex-Pro-24) exam questions. These Palo Alto Networks PSE-Cortex-Pro-24 dumps are designed and verified by qualified Palo Alto Networks Systems Engineer Professional - Cortex (PSE-Cortex-Pro-24) exam trainers. Now you can trust TrainingDumps Palo Alto Networks Systems Engineer Professional - Cortex (PSE-Cortex-Pro-24) practice questions and start preparation without wasting further time.

The PSE-Cortex-Pro-24 practice test is supported by all major browsers such as Chrome, IE, Firefox, Safari, and Opera. This Palo Alto Networks Systems Engineer Professional - Cortex (PSE-Cortex-Pro-24) practice test consists of real Palo Alto Networks Systems Engineer Professional - Cortex (PSE-Cortex-Pro-24) exam questions and thousands of customers have successfully cleared the PSE-Cortex-Pro-24 Exam with confidence. The Palo Alto Networks Systems Engineer Professional - Cortex (PSE-Cortex-Pro-24) practice exam is customizable and allows you to track your progress. This feature enables you to identify and correct mistakes before attempting the final Palo Alto Networks Systems Engineer Professional - Cortex (PSE-Cortex-Pro-24) exam.

>> PSE-Cortex-Pro-24 Exam Prep <<

First-hand Palo Alto Networks PSE-Cortex-Pro-24 Exam Prep: Palo Alto Networks Systems Engineer Professional - Cortex - New PSE-Cortex-Pro-24 Exam Cram

With the development of computer hi-tech, the computer application is widely used in recent years. The demand of the higher position about computer is increasing. PSE-Cortex-Pro-24 exam vce files help people who are interested in Palo Alto Networks company. If you have a useful certification, you will have outstanding advantage over other applicants while interviewing. Our PSE-Cortex-Pro-24 Exam Vce files help you go through examination and get certifications.

Palo Alto Networks Systems Engineer Professional - Cortex Sample

Questions (Q167-Q172):

NEW QUESTION # 167
What should be configured for a Cortex XSIAM customer who wants to automate the response to certain alerts?

- A. Playbook triggers
- B. Incident scoring
- C. Correlation rules
- D. Data model rules

Answer: A

Explanation:
To automate the response to certain alerts in Cortex XSIAM, playbook triggers should be configured.
Playbooks allow automated workflows to be executed based on specific conditions or alerts, enabling faster and more consistent responses to security events.

NEW QUESTION # 168
A Cortex XSOAR customer wants to send a survey to users asking them to input their manager's email for a training use case so the manager can receive status reports on the employee's training. However, the customer is concerned users will provide incorrect information to avoid sending status updates to their manager.
How can Cortex XSOAR most efficiently sanitize user input prior to using the responses in the playbook?

- A. Create a task that sends the survey responses to the analyst via email. If the responses are incorrect, the analyst fills out the correct response in the survey.
- B. Create a manual task to ask the analyst to validate the survey response in the platform.
- C. Create a conditional task comparison to check if the response contains a valid email address.
- D. Create a sub-playbook and import a list of manager emails into XSOAR. Use a conditional task comparison to check if the response matches an email on the list. If no matches are found, loop the sub- playbook and send the survey back to the user until a match is found.

Answer: D

Explanation:

NEW QUESTION # 169
Which Cortex XSIAM license is required if an organization needs to protect a cloud Kubernetes host?

- A. Attack Surface Management
- B. Cortex XSIAM Enterprise Plus
- C. Identity Threat Detection and Response
- D. Cortex XSIAM Enterprise

Answer: B

Explanation:
25 web pages
As a Palo Alto Cortex Professional, I'll provide a detailed explanation for Question 165: Which Cortex XSIAM license is required if an organization needs to protect a cloud Kubernetes host? based on Palo Alto Networks' documentation and licensing structure for Cortex XSIAM.
D: Cortex XSIAM Enterprise Plus
Cortex XSIAM (Extended Security Intelligence and Automation Management) is an AI-driven security operations platform that unifies endpoint, network, cloud, and identity protection into a single solution.
Protecting a cloud Kubernetes host involves securing containerized workloads in a Kubernetes environment, which requires specific capabilities such as agent-based or agentless detection, runtime protection, and integration with cloud-specific telemetry. Let's evaluate the licensing options provided-A. Attack Surface Management, B. Cortex XSIAM Enterprise, C. Identity Threat Detection and Response, and D. Cortex XSIAM Enterprise Plus-to determine which one meets this requirement.
Cortex XSIAM Licensing Overview:

Cortex XSIAM offers tiered licensing plans, each providing different levels of functionality:
* Attack Surface Management (ASM): Focuses on discovering and managing external attack surfaces (e.g., internet-facing assets). It does not include endpoint or cloud host protection capabilities like those needed for Kubernetes.
* Cortex XSIAM Enterprise: The base tier that includes core SOC capabilities such as SIEM, XDR (endpoint detection and response), SOAR (security orchestration, automation, and response), and basic endpoint protection. It supports standard endpoint protection but lacks advanced cloud workload protection for Kubernetes.
* Identity Threat Detection and Response (ITDR): An add-on or standalone module focused on detecting and responding to identity-based threats (e.g., credential misuse). It does not provide host- level protection for cloud environments like Kubernetes.
* Cortex XSIAM Enterprise Plus: The highest tier, which extends the Enterprise license with advanced capabilities, including enhanced cloud workload protection for environments like Kubernetes, additional analytics packs, and broader data ingestion.
Kubernetes Protection Requirements:
Protecting a cloud Kubernetes host with Cortex XSIAM involves:
* Agent-Based Protection: Deploying the Cortex XDR agent as a DaemonSet on Kubernetes nodes to monitor processes, network activity, and file events at the host and container levels.
* Agentless Protection: Leveraging cloud telemetry and analytics for unmanaged Kubernetes clusters.
* Cloud Workload Security: Detecting and responding to threats in containerized environments, which requires integration with Kubernetes-specific data (e.g., pod metadata, container runtime details).
Palo Alto Networks introduced Kubernetes-specific security features in Cortex XDR and XSIAM, including a specialized Linux agent and analytics packs for managed and unmanaged clusters. These capabilities are tied to advanced licensing tiers beyond the base Enterprise offering.
Option Analysis:
* A. Attack Surface Management:
* Purpose: Identifies exposed assets and vulnerabilities across the attack surface.
* Relevance: While useful for visibility into external risks, ASM does not provide runtime protection or agent deployment for Kubernetes hosts.
* Conclusion: Incorrect. It lacks the necessary endpoint and cloud protection features.
* B. Cortex XSIAM Enterprise:
* Purpose: Provides core XDR, SIEM, and SOAR functionality with endpoint protection for standard hosts (e.g., Windows, Linux).
* Relevance: Includes the Cortex XDR agent for basic endpoint protection but does not explicitly cover advanced cloud workload protection for Kubernetes. The Enterprise tier is designed for general SOC operations and lacks the specialized Kubernetes analytics and licensing required for cloud hosts.
* Conclusion: Incorrect. It's insufficient for Kubernetes-specific protection.
* C. Identity Threat Detection and Response:
* Purpose: Focuses on identity-based threat detection (e.g., monitoring user behavior, credential attacks).
* Relevance: ITDR is unrelated to host-level protection for Kubernetes. It addresses a different threat vector (identity) rather than cloud workload security.
* Conclusion: Incorrect. It does not meet the requirement.
* D. Cortex XSIAM Enterprise Plus:
* Purpose: Extends the Enterprise tier with advanced features, including enhanced cloud detection and response (CDR), support for cloud workloads (e.g., Kubernetes, VMs), and additional analytics packs.
* Relevance: The Enterprise Plus license includes the necessary capabilities for protecting cloud Kubernetes hosts. It supports the Cortex XDR agent for Kubernetes (deployed as a DaemonSet) and integrates agentless detection for cloud environments. Documentation highlights that advanced cloud protection, such as for Kubernetes, requires this higher tier, often tied to the "Cloud per Host" licensing model within XSIAM.
* Conclusion: Correct. This license provides the required functionality.
Licensing Nuance:
For Cortex XDR (a component of XSIAM), protecting a Kubernetes host requires a Cortex Cloud per Host license, which is distinct from the standard Pro per Endpoint license. Within the XSIAM framework, this cloud-specific protection is bundled into the Enterprise Plus tier, which encompasses advanced cloud security features beyond what's available in the base Enterprise license. The Enterprise Plus tier ensures compatibility with Kubernetes environments through both agent-based and agentless approaches, as outlined in Palo Alto Networks' Kubernetes security enhancements.
References:
Cortex XSIAM License Plan (Palo Alto Networks Documentation):
The Enterprise Plus tier includes "Cloud Detection and Response" and support for advanced analytics packs for cloud workloads, such as Kubernetes.

Notes that cloud hosts (e.g., Kubernetes) require a Cloud per Host license, integrated into XSIAM Enterprise Plus.

NEW QUESTION # 170
What is the primary purpose of Cortex XSIAM's machine learning led design?

- A. To facilitate alert and log management without automation
- B. To effectively handle the bulk of incidents through automation
- C. To rely heavily on human-driven detection and remediation
- D. To group alerts into incidents for manual analysis

Answer: B

Explanation:
The primary purpose of Cortex XSIAM's machine learning-led design is to automate the handling of the bulk of incidents. By leveraging machine learning, it can automatically classify, group, and respond to incidents, reducing the need for manual intervention and increasing efficiency in incident management.

NEW QUESTION # 171
What is used to display only file entries in a War Room?

- A. /files from War Room CLI
- B. files and attachments filters
- C. incident files section in layout builder
- D. files from War Room CLI WW

Answer: B

Explanation:

NEW QUESTION # 172
.....

As we all know, famous companies use certificates as an important criterion for evaluating a person when recruiting. The number of certificates you have means the level of your ability. PSE-Cortex-Pro-24 practice materials are an effective tool to help you reflect your abilities. With our study materials, you do not need to have a high IQ, you do not need to spend a lot of time to learn, you only need to follow the method PSE-Cortex-Pro-24 Real Questions provide to you, and then you can easily pass the exam. Our study material is like a tutor helping you learn, but unlike a tutor who make you spend too much money and time on learning.

New PSE-Cortex-Pro-24 Exam Cram: https://www.trainingdumps.com/PSE-Cortex-Pro-24_exam-valid-dumps.html

As long as you choose TrainingDumps New PSE-Cortex-Pro-24 Exam Cram, TrainingDumps New PSE-Cortex-Pro-24 Exam Cram will be able to help you pass the exam, and allow you to achieve a high level of efficiency in a short time, Palo Alto Networks PSE-Cortex-Pro-24 Exam Prep While, if your time is enough for well preparation, you can study and analyze the answers, Our system will send our PSE-Cortex-Pro-24 learning prep in the form of mails to the client in 5-10 minutes after their successful payment.

The time is propagated to the spare SC from PSE-Cortex-Pro-24 the main SC, Arabic astronomers, who required fractions in their star charts andother tables, continued to use the notation Premium PSE-Cortex-Pro-24 Files of Ptolemy the famous Greek astronomer) a notation based on sexagesimal fractions.

HOT PSE-Cortex-Pro-24 Exam Prep - High Pass-Rate Palo Alto Networks New PSE-Cortex-Pro-24 Exam Cram: Palo Alto Networks Systems Engineer Professional - Cortex

As long as you choose TrainingDumps, TrainingDumps **PSE-Cortex-Pro-24 Exam Prep** will be able to help you pass the exam, and allow you to achieve a high levelof efficiency in a short time, While, if Premium PSE-Cortex-Pro-24 Files your time is enough for well preparation, you can study and analyze the answers.

Our system will send our PSE-Cortex-Pro-24 learning prep in the form of mails to the client in 5-10 minutes after their successful payment, In order to guarantee the gold content of the PSE-Cortex-Pro-24 certification, the official must also do so.

With real Palo Alto Networks Systems Engineer Professional - Cortex (PSE-Cortex-Pro-24) exam questions in PDF, customizable Palo Alto Networks PSE-Cortex-Pro-24 practice exams, free demos, and 24/7 support, you can be confident that you are getting the best possible PSE-Cortex-Pro-24 exam material for the test.
