## GitHub-Copilot Sample Exam - GitHub-Copilot Valid Test Objectives

Are you organized for this? Do you want to end up a GitHub certified? In case your answer is high great then we guarantee you that you are on the right region. Check in yourself for GitHub Copilot Certification Exam (GitHub-Copilot) certification examination and download the GitHub-Copilot exam questions and begin preparation right now.

## GitHub GitHub-Copilot Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Testing with GitHub Copilot: This section of the exam measures skills of QA Engineers and Test Automation Specialists and covers AI-assisted testing methodologies, including the generation of unit tests, integration tests, and edge case detection. It explains how GitHub Copilot improves test effectiveness by suggesting relevant assertions and boilerplate test cases. The section also discusses privacy considerations, organizational code suggestion settings, and best practices for configuring GitHub Copilot's testing features.</li></ul>

Topic 2	<ul style="list-style-type: none"> <li>GitHub Copilot Plans and Features: This section of the exam measures the skills of Software Engineers and IT Administrators and covers different GitHub Copilot plans, including Individual, Business, and Enterprise editions. It explains the integration of GitHub Copilot within IDEs and discusses key features such as inline chat, multiple suggestions, and exception handling. The section details the policies for managing GitHub Copilot within organizations, including auditing logs and API management. It also highlights advanced functionalities like knowledge bases for improved code quality and best practices for Copilot Chat usage.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>How GitHub Copilot Works and Handles Data: This section of the exam measures the skills of Data Security Specialists and DevOps Engineers and covers how GitHub Copilot processes data, handles code suggestions and manages privacy concerns. It explains the data pipeline for Copilot's suggestions, how it gathers context, and how prompts are processed through its AI model. The section also discusses the limitations of AI-generated code, the effects of historical data on suggestions, and the role of prompt crafting. Best practices for improving prompt effectiveness and optimizing AI-generated responses are included.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>Prompt Engineering: This section of the exam measures skills of AI Engineers and Software Developers and covers the fundamentals of prompt engineering, including key principles, techniques, and best practices for generating high-quality outputs. It explains different prompting strategies such as zero-shot and few-shot prompting, how context influences AI-generated responses, and the role of structured prompts in guiding Copilot's behavior. It also discusses the prompt lifecycle and ways to enhance model performance through refined input instructions.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>Privacy Fundamentals and Context Exclusions: This section of the exam measures skills of Cybersecurity Specialists and Compliance Officers and covers privacy safeguards and content exclusion settings in GitHub Copilot. It explains how Copilot can identify security vulnerabilities, suggest optimizations, and enforce secure coding practices. It also includes details on content ownership, data filtering mechanisms, and exclusion configurations. The section concludes with troubleshooting guidelines for managing context exclusions and ensuring compliance with organizational security policies.</li> </ul>
Topic 6	<ul style="list-style-type: none"> <li>Developer Use Cases for AI: This section of the exam measures skills of Full-Stack Developers and Cloud Engineers and covers how AI enhances developer productivity across various tasks such as learning new programming languages, debugging, writing documentation, and refactoring code. It discusses how GitHub Copilot integrates with the Software Development Lifecycle (SDLC) and its role in modernizing legacy applications. It also highlights the use of AI for personalized responses, sample data generation, and improving overall efficiency in software development.</li> </ul>

## GitHub Copilot Certification Exam Sample Questions (Q59-Q64):

### NEW QUESTION # 59

What should developers consider when relying on GitHub Copilot for generating code that involves statistical analysis?

- A. GitHub Copilot's suggestions are based on statistical trends and may not always apply accurately to specific datasets.
- B. GitHub Copilot will automatically correct any statistical errors found in the user's initial code.
- C. GitHub Copilot can independently verify the statistical significance of results.
- D. GitHub Copilot can design new statistical methods that have not been previously documented.

**Answer: A**

Explanation:

Developers should consider that GitHub Copilot's suggestions are based on statistical trends and may not always be accurate for specific datasets, requiring careful validation.

### NEW QUESTION # 60

What role does chat history play in GitHub Copilot's code suggestions?

- A. Chat history is used to train the GitHub Copilot model in real-time.
- B. Chat history provides context to GitHub Copilot, improving the relevance and accuracy of its code suggestions.

- C. Chat history is irrelevant to GitHub Copilot and does not affect its functionality.
- D. Chat history is stored and shared with other users to enhance collaboration.

**Answer: B**

Explanation:

Chat history provides valuable context to GitHub Copilot, helping it generate more relevant and accurate code suggestions based on previous interactions and conversations.

#### NEW QUESTION # 61

How can you use GitHub Copilot to get inline suggestions for refactoring your code? (Select two.)

- A. By adding comments to your code and triggering a suggestion.
- B. By highlighting the code you want to fix, right-clicking, and selecting "Refactor using GitHub Copilot."
- C. By running the gh copilot fix command.
- D. By using the "/fix" command in GitHub Copilot in-line chat.
- E. By highlighting the code you want to fix, right-clicking, and selecting "Fix using GitHub Copilot."

**Answer: A,B**

Explanation:

You can use GitHub Copilot for inline refactoring suggestions by adding comments to your code to trigger suggestions and by highlighting the code and selecting "Refactor using GitHub Copilot" from the context menu.

#### NEW QUESTION # 62

How can GitHub Copilot be limited when it comes to suggesting unit tests?

- A. GitHub Copilot primarily suggests basic unit tests that focus on core functionalities, often requiring additional input from developers for comprehensive coverage.
- B. GitHub Copilot's limitations in generating unit tests can vary based on the IDE version you are using.
- C. GitHub Copilot can handle any complexity in code and automatically generate appropriate unit tests.
- D. GitHub Copilot can generate all types of unit tests, including those for edge cases and complex integration scenarios.

**Answer: A**

Explanation:

GitHub Copilot often suggests basic unit tests and may not cover all edge cases or complex integration scenarios, requiring developers to supplement its suggestions.

#### NEW QUESTION # 63

Which of the following GitHub Copilot Business related activities can be tracked using the organization audit logs?

- A. Changes to content exclusion settings
- B. Code suggestions made by GitHub Copilot
- C. Accepted chat suggestions
- D. Suggestions blocked by duplication detection filtering

**Answer: A**

Explanation:

Organization audit logs track changes to content exclusion settings, providing administrators with visibility into configuration changes.

#### NEW QUESTION # 64

.....

Everyone has the right to pursue happiness and wealth. You can rely on the GitHub-Copilot certificate to support yourself. If you do not own one or two kinds of skills, it is difficult for you to make ends meet in the modern society. After all, you can rely on no one

but yourself. At present, our GitHub-Copilot study materials can give you a ray of hope. You can get the GitHub-Copilot certification easily with our GitHub-Copilot learning questions and have a better future.
