New 212-89 Study Notes & 212-89 Latest Exam
Since the cost of signing up for the EC Council Certified Incident Handler (ECIH v3) 212-89 exam dumps is considerable, your main focus should be clearing the EC Council Certified Incident Handler (ECIH v3) 212-89 exam on your first try. Utilizing quality EC-COUNCIL 212-89 Exam Questions is the key to achieving this. Buy the EC Council Certified Incident Handler (ECIH v3) 212-89 Exam Dumps created to avoid the stress of searching for tried-and-true EC-COUNCIL 212-89 certification exam preparation.

There is the cost of ECCouncil 212-89 Exam

- The price of ECCouncil 212-89 exam is $100 USD.

Career Path

After accomplishing the ECIH certification, you can apply for the CHFI (Computer Hacking Forensic Investigator) and the CASE (Certified Application Security Engineer) to become a multi-domain specialist. In addition, there are many other specialized certifications that you can opt to master in IT security. Thus, if you plan to become a Licensed Security consultant, it's recommended to take the Licensed Penetration Test Master (LPT) qualification. In all, these certificates can attract potential employers and lead you to a successful path.

EC-COUNCIL 212-89 Latest Exam & 212-89 New Questions

The trouble can test a person's character. A bad situation can show special integrity. When to face of a difficult time, only the bravest people could take it easy. Are you a brave person? If you did not do the best preparation for your IT certification exam, can you take it easy? Yes, of course. Because you have TopExamCollection's EC-COUNCIL 212-89 Exam Training materials. As long as you have it, any examination do not will knock you down.

EC-COUNCIL EC Council Certified Incident Handler (ECIH v3) Sample Questions (Q98-Q103):

NEW QUESTION # 98
Dash wants to perform a DoS attack over 256 target URLs simultaneously.
Which of the following tools can Dash employ to achieve his objective?

- A. Ollydbg
- B. IDAPro
- C. HOIC
- D. OpenVAS

Answer: C

Explanation:
High Orbit Ion Cannon (HOIC) is a tool designed to perform stress testing on networks or servers. It can launch a Distributed Denial of Service (DDoS) attack by enabling an attacker to overwhelm a target with HTTP POST and GET requests. HOIC's distinctive feature is its ability to attack multiple targets (up to 256 URLs simultaneously) with configurable HTTP flood attacks. This capability makes it a preferred choice for attackers aiming to disrupt services on a large scale. Unlike tools designed for debugging or vulnerability scanning (e.g., IDA Pro, Ollydbg, OpenVAS), HOIC is specifically crafted for launching DoS/DDoS attacks, making it the correct answer for Dash's objective.
References:The Incident Handler (ECIH v3) courses and study guides delve into various cyber attack tools, including HOIC, explaining their functionalities and potential impact as part of the comprehensive cybersecurity threat landscape education.

NEW QUESTION # 99

Jacobi san employee at a firm called Dolphin Investment. While he was on duty, he identified that his computer was facing some problems, and he wanted to convey the issue to the c once med authority in his organization. However, this organization currently does not have a ticketing system to address such types of issues.
In the above scenario, which of the following ticketing systems can be employed by Dolphin Investment to allow Jacob to inform the c once med team about the incident?

- A. ManageEngine ServiceDesk Plus
- B. Threat Connect
- C. MISP
- D. IBM X Force Exchange

Answer: A

NEW QUESTION # 100

- A. Malicious insider
- B. Compromised insider
- C. Negligent insider
- D. Professional insider

Answer: C

NEW QUESTION # 101

According to the Evidence Preservation policy, a forensic investigator should make at least .... image copies of the digital evidence.

- A. Three image copies
- B. One image copy
- C. Four image copies
- D. Two image copies

Answer: D

Explanation:
Explanation/Reference:

NEW QUESTION # 102

Mike is an incident handler for PNP Infosystems Inc. One day, there was a ticket submitted regarding a critical incident and Mike was assigned to handle the incident. During the process of incident handling, at one stage, he performed incident analysis and validation to check whether the incident is a genuine incident or a false positive.
Identify the stage he is currently in.

- A. Incident disclosure
- B. Post-incident activities
- C. Incident recording and assignment
- D. Incident triage

Answer: D

Explanation:
Incident triage is the stage in the incident response process where the incident handler, like Mike, performs an initial assessment of the reported incident to determine its validity, severity, and potential impact. This includes analyzing the incident to verify if it is a genuine threat or a false positive. The purpose of incident triage is to prioritize incidents based on their criticality and ensure that resources are allocated effectively to address the most serious threats first. This stage is crucial for efficient incident management, as it helps in filtering out false alarms and focusing on real security incidents that require immediate attention.
References:The ECIH v3 curriculum covers the incident response lifecycle, including the importance of incident triage as a key step in ensuring that incident handling efforts are focused on genuine security incidents, thereby optimizing the response process.

NEW QUESTION # 103
......

Our 212-89 practice engine boosts both the high passing rate which is about 98%-100% and the high hit rate to have few difficulties to pass the test. Our 212-89 exam simulation is compiled based on the resources from the authorized experts' diligent working and the real exam and confer to the past years' exam papers thus they are very practical. So the content of the 212-89 Learning Materials is quite fully covered and completed. And we will update it to be the latest.
