Microsoft MB-240 exam consists of multiple-choice questions that test the candidate's knowledge of various aspects of the Dynamics 365 Field Service solution. MB-240 exam covers topics such as work order management, inventory management, service agreements, and billing. MB-240 exam also includes questions related to the integration of Dynamics 365 Field Service with other Microsoft products, such as Power Apps and Power BI.

The MB-240 exam is part of the Microsoft Dynamics 365 certification program, which is highly regarded in the industry. Achieving this certification demonstrates that the candidate has the skills and knowledge required to implement and support Dynamics 365 Field Service solutions. Microsoft Dynamics 365 Field Service Functional Consultant certification is ideal for individuals who are interested in pursuing a career in the field service industry or for those who are seeking to advance their career by demonstrating their expertise in this area.

Microsoft MB-240 Exam is designed to test the knowledge of the candidates regarding the field service functional consultant role in Microsoft Dynamics 365. MB-240 exam is intended for individuals who are aspiring to become Dynamics 365 field service functional consultants. MB-240 exam measures the candidate's knowledge of implementing components of field service, managing resources, managing work orders, managing inventory and purchasing, managing agreements, and managing invoices and billing. The MB-240 exam is the only requirement for earning the Microsoft Certified: Dynamics 365 Field Service Functional Consultant Associate certification.

## Microsoft Dynamics 365 Field Service Functional Consultant Sample Questions (Q314-Q319):

### NEW QUESTION # 314

You are implementing Dynamics 365 Field Service for a health care institution.

Your schedulers want to track all examination rooms within a doctor's office and schedule each individual room to a patient.

Which four actions should you perform in sequence? To answer, move the four appropriate actions from the list of actions to the answer area. Arrange the four actions in the correct order.

**Answer:**

Explanation:

Explanation:

### NEW QUESTION # 315

DRAG DROP

Your company's inventory clerk has received a truck shipment of parts for repair of equipment on such a rush order. The order needs to be completed as soon as possible.

Which three steps, in sequence, are needed to receive the products to the existing rush order in Field Service?

To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

**Answer:**

Explanation:

Explanation:

### NEW QUESTION # 316

Your client wants to build some workflows to automate certain approvals.

You need to enable Microsoft Power Automate flows in the Microsoft Dynamics 365 Field Service settings.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

**Answer:**

Explanation:

### NEW QUESTION # 317

Your organization wants to use the new Field Service mobile app.

You need to ensure this app works for the technicians.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Assign Field Service-Resource role for the app.
- B. Assign Field Service-Dispatcher field security profile to the app.
- C. Access the Field Service mobile app and select Manage Roles.
- D. Assign System Administrator role for the app.
- E. Access the Field Service model-driven app and select Manage Roles.

**Answer: A,C**

Explanation:

To ensure field technicians can access necessary tables and booking data in the Field Service mobile app, follow these specific administrative steps:

1. Assign Security Roles to Users

\*-> 2. Grant App Access to the Security Role

You must explicitly share the mobile app module with the security role so it appears for the technicians.

Navigate to: Power Apps Maker Portal

[A] \*-> Select Apps: Locate the Field Service Mobile model-driven app.
