## ATLASSIAN Jira Administration for Data Center Sample Questions (Q24-Q29):

**NEW QUESTION # 24**
Your organization has a Jira project for managing work on a software development project.
As the team has grown, two groups have formed within it, working on different tasks. To help bring more focus to the work being conducted, the team has requested a second Jira project to split the team's work into two.
Which set of schemes can likely be shared between the two projects?

- A. Custom Field and Issue Security
- B. Notification and Workflow
- C. Issue Type and Sub-task
- D. Workflow and Custom Field
- E. Resolution and Notification

**Answer: D**

**NEW QUESTION # 25**
Your business users want to know more about what is happening with the issues raised by their business unit.
They gave you a list of situations in which they want to get emails, so you know which parts of the shared notification scheme they want to be added to.
You consult with the project owner.

He doesn't want any changes to the emails that go to developers and testers.
The project owner approves of the business users getting the emails, but he would like to retain control of who gets emails for his project.
How can you satisfy these requests?

- A. Create a role for business users and add that role to the events in the notification scheme.
- B. Modify the events in the workflow so they send the emails to the business users.
- C. Add the business users as Watchers on the issues.
- D. Place the business users in a group and add that group to the events in the notification scheme.

**Answer: D**

## NEW QUESTION # 26
You performed the following steps:
* Created a new filter with the JQL query "project IN projectsWhereUserHasRole{"Sales"}'
* Created a filter subscription for the filler and set the recipients to the Sales group.
Leila is a member of the Sales group.
Which issues will Leila receive in her subscription?

- A. group issues assigned to anyone in the Sales role
- B. issues assigned to anyone in the Sales group
- C. issues from projects where Leila is in the Sales
- D. issues from projects where Leila is in the Sales role

**Answer: C**

## NEW QUESTION # 27
You set up a new project for a team. Soon afterward, users report that a field is missing from one of their screens. You check the screen configuration in the administration panel and you see that the field should be present.
Why can't the users see the field?

- A. The changes to the screen were not published.
- B. The issue operation wasn't mapped to a screen.
- C. The users don't have permission to view that field.
- D. The field context does not include the project and/or issue type.

**Answer: C**

## NEW QUESTION # 28
Tom has asked you why the numbers returned by his searches are not right. He shows you three JQL queries:

How can you fix this?

- A. Change the query to project = "Cake Baking" and fixVersion ~ 1.1.0.
- B. Identify the missing issues and change the permissions so that everyone can see them.
- C. Change the query to project = "Cake Baking" and fixVersion not in (1.1.0).
- D. Change the query to project = "Cake Baking" and ( fixVersion is empty or fixVersion != 1.1.0 ).
- E. Rename the versions so they do not contain periods.

**Answer: B**

**NEW QUESTION # 29**
